SEVERE STORM .- Annapolis County was visited last week by a tremendous storm of thunder, lightning, and hail. Injury was done to the Telegraph offices. The Examiner says:

from this town, 9 telegraph posts were struck, eight, the present size, which will make it the largest and portions of them scattered in all directions. In Wilmot a house was struck, the lightning tearing out several windows. A woman-the sole occupant of the house-had the bed torn from under her; she escaped without personal injury. Near Paradise, a large willow tree was torn to pieces; and we have heard that many sheep and calves were destroyed in and around sheep and calves were destroyed in and around the place. The hail and rain did much damage to the crops, the former actually came with such force as to perforate the leaves of vegetable of all kinds. Nothing like the storm of Thursday

A SOUVENIR FROM LUCKNOW .- King's College, Windsor, now possesses two Swords that would be highly prized by any Museum, and might be worn with pride by any hero of any country.—Sir Fenwick Williams had some time shipment, as ordered in my letter of June last. ago deposited the trusty blade worn by him at the memorable siege of Kars, in the College, and at the late Encomia was presented and gladly accepted, the sword worn by Sir John Inglis during the no less memorable defence of Luck-now. This Sword is a Sikh weapon captured at Goojerat in the last Punjaub War, and was given to Sir John by a brother officer who was his voyage to England or shortly after his arrival. It had no belt, but was tied round the gallant General's waist during the eighty-seven days and nights of the siege by a piece of cordprobably in that stern period the ornaments of Military attire were very little thought of. We understand the General set the highest value on it, and would not have parted with it for any other purpose, than that of entrusting it to the custody of his Alma Mater. It was a graceful act on his part and he may rest assured the University will honor him for thus enriching its associations with the possession of a weapon, to look on which will be to recal the great perils that surrounded one of its Alumni, and the lionhearted constancy with which they were endured. The two Swords have been carefully deposited side by side in the Cabinet in the Library of the College .- Church Record.

The RAILWAY .- An editorial in the Christian Visitor, says :-

"In order to afford our readers the most reliable information with reference to the progress and prospects of our Railway operations, we made a personal inspection of the Road the past week and now proceed to make our report."

"We incline to the belief that when the works are finished it will be found that the depot is in the "right place."

Further on he says :-

"We have travelled a good deal over Railroads in the United States, and have always felt after getting a good shaking and being nearly suffocated with smoke and dust, that Railroads were not the thing for comfort if the were for speed; but with reference to our Road these objections do not seem to apply—the smooth rolling of the Cars and the freedom from dust or annoyance of any kind, makes the journey comfortable and the ride a pleasure."

"We would have been better pleased, however, to have seen more activity along the line, pushing it on to completion."

Under "The traffic on the road" he remarks:

"We are sorry to observe at Hampton a large number of double horse teams starting for the City as formerly, loaded with country produce. On enquiry we ascertained that the rates of fare by the Railway were not low enough to induce the Farmers to leave their horses at Hampton and come on by Rail. We have always thought that the Railway authorities were at fault in this matter of high fares, and cannot conceive why they should persist in keeping them up."

" POSTAL ARRANGEMENTS on the Road do not seem as yet to have received much attention from the 'right man.'" "We think that an officer should be at once appointed, and put in charge of the Mails on the trains, &c."

THE RAILWAY .- We understand that the earnings on the Railway between St. John and Hampton, for the weeks ending 18th and 25th

LITERARY NOTICE.

THE SCIENTIFIC AMERICAN —The publishers of this widely circulated and popular illustrated weekly journal of mechanics and science, announce that it will be enlarged on the first of July, and otherwise 21s. 3d. G. V. Rand, 4th. Rev J. Chase. On the road leading to Annapolis, a few miles greatly improved, containing sixteen pages instead of and cheapest scientific journal in the world; it is the only journal of its class that has ever succeeded in this country, and maintains a character for authority in all matters of mechanics, science and the arts, which is not excelled by any other journal published in this country or in Europe. Although the publishers will incur an increased expense of \$8.000 a year by this

The call for Perry Davis' Pain Killer is increasing so very rapidly that I fear I shall soon be unable to

J. L. CARRAU, Calcutta, E. I. Mr. Perry Davis-Sir: I have used, in my family your medicine callen "Pain Killer," for many purposes and have found it a very useful and valuable article I therefore very cheerfully recommend it to the public REV. HENRY CLARK.

Sometime in December last, my children were taken down with scarlet fever, or canker rash-my only medicine was Davis' Pain Killer and Castor Oil, the wounded at Lucknow, and died of his wound on Pain Killer operating to a charm in cutting the canker, and throwing out the rash, so that in about five weeks my family were entirely recovered.

CORNELIUS G. VANDENBURG, Saratoga Springs. Having used Perry Davis' Vegetable Pain Killer in my family during the winter past, I would urge its general use for the purposes for which the inventor has recommended it. I think it invaluable, and would not like to be deprived of its advantages.

E. G. POMEROY, St. Louis. Sold at Wholesale by George E. Morron & Co. AVERY, BROWN & Co., and by Druggists generally.

P. P. P. PARK'S PRICKLY PLASTERS.

They sooth pain; protect the chest; they extract the coagulated impurities and soreness from the system, and impart strength. They are divided into sections, and yield to the motion of the body. Being porous, all impure excretions pass off, and they cannot become offensive, hence can be worn four times longer than any other plasters, and are cheaper at 25 cents than others at 10. Where these plasters are, pain cannot exist. Weak persons, public speakers, delicate females, or any affected with side, chest or back pains, should try them. You will then know what they are. They are a new feature in the science of medicine. All Druggists have them. Take no other. Each Plaster bears a Medallion Stamp and our Signature.

An Enquiry.

Is that notice of Rev. Normandy's ordination in accordance with Baptist usages and customs? Have the French Mission Board power to ordain dark benighted corner of the world used to imagine it was necessary for a Church of Jesus Christ to call for the ordination of a minister and in fact we believed that the power of ordination rested nowhere else-certainly not in a Board constituted solely for benevelent purposes, however, we live and learn.
