A vessel belonging to Mr. George Wambolt, of St. Margaret's Bay, himself master, left here on Thursday morning the 6th inst., with between eighty and one hundred pounds worth of provisions on board, mostly belonging to very indigent people. Having split the foresail, she brought too in Sambro Road, and the crew and passengers with their trunks and small articles were all landed. About an hour and a half after coming too, the vessel parted one of her anchors and drifted out to sea taking the other with her, and has not been heard of since. Mr. Fline, of Sambro Island, conveyed the crew and passengers in his vessel to their homes in St. Margaret's Bay.- Express.

The Soldiers in this garrison have been enjoying some Athletic exercises on the Common during the past week. Foo:-races, Throwing, Jumping, Climbing, Vaulting, & .. & .., were the subjects of prizes, open to officers and men. In case of the former winning no money prizes were awarded them. A large number of civilians attended and witnessed the contests.

AMBERST .-- A destructive fire occurred in this village on Tuesday, the 18th inst. It commenced in the stables adjoining Smith's Hotel. The flames shortly reached the botel, which, with the house belonging to Mr. Treen, were entirely consumed in about two hours. The Stores on the opposite side of the street were in imminent danger, and only by the greatest exertions were they rescued from the threatened destruction. Had the fire taken these, it is probable that the greater portion of the village would have been in ashes before it could have been extinguished. The Hotel was insured in the Halifax Fire Office for £600.

Oil manufactured from the coal of the Fraser Mine, East River, is said to be a very superior article, pure in color as water, and qui'e free from the dark brown of Boghend coal, or the amber that peculiar to oil made from the Albert coal of New Brunswick .- Chronicle.

The Eastern Chronicle records a most disgraceful interference with a temperance tea meeting at River John, on the 12th inst. A occasion. There will be a public Temperance gang of rowdies, it seems, gathered around the door of the building where the meeting was held, and besides insulting the inmates, amused themselves with throwing vitriol on the party, male and female, to the serious injury of their clothing and persons. Such wickedness should not be allowed to pass unpunished.—Ib.

If you can paint fire with charcoal, light with chalk, and make colors live and breathe, then you can with words give a faint idea of he excellence and magic effects of Perry Davis' Pain Killer. Its reputation is of world-wide renown; its introduction is received with great favor in foreign lands.
