

TURKEY.

The Constantinian.—The Paris Presse contains a remarkably interesting letter, giving a detailed account of the recently discovered conspiracy at Constantinople.

were pulled away, while the vessel in position all hoisted red flags [thus showing] a determination to commence hostilities.

A supplementary memorial, reports the particulars of the action. It states that: "The barbarian dead lay piled in heaps, there being one hundred and some tens of bodies, exclusive of those carried off on board their ships."

The Pays gives the following description of the very dignified manner in which the representative of the United States went to Peking.

"The last news from Shanghai establishes beyond a doubt the arrival of Mr. Ward, the American Envoy, at Peking. This diplomatist ascended the Ki-Teheou-Yun-Ho, one of the branches of the Peiho accompanied by all the members of his Legation."

The Times' correspondent, writing on the 21st ult., says:—

"On Friday evening last a number of persons were arrested by the Government, charged with conspiring to assassinate the Sultan and some of his Ministers. The arrests, which continued to increase in number during Saturday and Sunday, amount to about 400 in all."

RUSSIA.

A St. Petersburg letter states that Schamyl has been taken suddenly ill at Tchougonieff, a small town in the Government of Khorthoff, in the south of Russia.

CHINA.

The Admiralty has furnished to the journals a copy of the official accounts rendered by the Chinese commander in the forts at the mouth of the Pei-ho, or "Tien-sing-ho," to employ the correct name, of the action on the 25th of June.

"Sung-ko-lin-sin, Imperial Commissioner, Prince of Potlakutai, of the Korchin tribe, reverently presents a memorial. He hastens to report in detail how the barbarian ships, disobeying reasonable injunctions, burst into the inner waters and commenced firing upon our soldiers; who, being enraged, attacked and destroyed their vessels in a sanguinary engagement which lasted all day from two in the afternoon till ten at night."

"On the night of the 24th instant, they came in one of their small boats within the iron stakes, and burst asunder with shell two of the large iron chains which crossed the river, and one large cocoon fibre cable, when they fell in with our guard boat and retired."

"Early on the morning of the 25th upwards of ten barbarian steamers having taken up their position outside the iron stakes, and just below the fort on the southern bank, three of them came close up to the stakes, the foremost prongs of which were, by the agency of several swimmers, bound round with ropes, and the ends of these made fast to the stern of the vessels."

FRANCE.

"It is asserted that the Austrian Government has consented to reduce the debt of Lombardy to be borne by Piedmont from 400 millions to little more than half this sum."

"General Changarnier has returned to Paris from Belgium. "Marshal Canrobert and Marshal the Duke of Magenta quitted Paris for Nancy and Lille to resume the command of their military districts."

Le Nord publishes the following telegram from its Paris correspondent:—

"The treaty of Zurich will be signed next week in consequence of instructions from Biarritz."

"There will be three instruments of peace. The first, signed by the plenipotentiaries of the three Powers, concerns only the conclusion of peace and frontier line; the second, Austro-French, refers to the cession of Lombardy, and renews the stipulations of the preliminaries of Villafranca; the third, finally, Franco-Sardinian sanctions the cession of Lombardy."

MISCELLANEOUS.

THE ST. GEORGE'S DISTURBANCES.—At the Middlesex Session Court yesterday, a question arose about the indictment against Mr. Peterson, who is charged with creating a disturbance during the performance of Divine service in the parish of St. George's-in-the-East. It seems there is some difficulty in getting the indictment properly drawn, as the prosecution is one of an unusual character, and there was no help for it but for the Assistant Judge to put the case off till next session.

BIG BEN OF WESTMINSTER.—On Saturday the great bell of Westminster sounded for the last time, and while in the very act of striking Big Ben became dumb for ever. At the present moment the bell is even more hopelessly cracked than its ill-fated predecessor, and like him too, must be broken up and recast before the great clock of the metropolis can again record the flight of time. The cracking of the bell is mainly due to Big Ben having been rigidly bolted down or up without a possibility of yielding the fraction of an inch under the ponderous blows of the hammer. So at length he broke. The only remedy now left is to remove the clock, get down the bell, break it up and recast it for the third time, prove it, get it up the tower again, and refix the clock under it as soon as may be.—Times.
