TO CONSUMPTIVES!

THE Advertiser having been restored to health in a few weeks, by a very simple remedy, after having suffered several years with a severe LUNG AFFECTION, and that dread disease, CONSUMPTION, is anxious to make known to his fellow-sufferers the means of cure.

Consumption, Asthma, Bronchitis, &c. The only object of the advertiser in sending the prescription is to benefit the afflicted, and he hopes every sufferer will try his remedy, as it will cost them nothing, and may prove a blessing.

Rev. EDWARD A. WILSON, No. 360 First Street, Williamsburgh, Kings Co., N. Y. Oct. 5.—8 w.

The following highly complimentary notice of the well-known firm of J. C. Ayer & Co. is from the pen of a distinguished American Journalist:—

HOW STARTLING ARE THE RAVAGES OF DISEASE!—How small a proportion of mankind live in perpetual health and die of old age! Disease, the insidious destroyer of our race, ever steals upon the anchorage of life, to cut it from its moorings.

THE SKIN is formed with thousands of pores in every inch of surface, whose office is to carry off the impurities of the blood—the acknowledged cause of all diseases of mankind—when the skin is dry and parched—when it is covered with eruptions—when it is cold and clammy—when there is inward fever or inflammation—it is impossible for the skin, under these circumstances, to perform its proper functions and to carry off the impurities from the body as designed by our Creator.

MORSE'S INDIAN ROOT PILLS remove these obstructions, and produce free and healthy blood, remove the eruptions from the skin, and cause it to brighten with the flush of youth and beauty.

SMITH'S ESSENCE OF COFFEE instantaneously produces the most delicious Coffee, containing the richness and mellowed flavor of Mocha, with the strength and fullness of the finest Jamaica.

ALPINE HAIR BALM should be used by persons recovering from fevers, if they want to save their hair from falling off. It will make the hair soft and beautiful upon children's heads—it will keep their hair in good shape.
