and Machinery complete for the manufacturing of ship's-wheels and olocks; waggons, &c., &c. This Factory is situated in a very eligible place for business, being near the shipyard and principal land-ing place, and the proposed Railroad-terminus and and therefore offers a rare chance for parties wishing to carry on the Blacksmith and Blockmaking business. One of the principal partners in the concern, who had charge of the blacksmithing department, having died, and another, who has charge of the blockmaking, having been unfortunately disabled from labor,

it has become necessary to close the concern, and sell the premises. The terms will therefore be made as easy as possible, and a bargain may be be expected. For further particulars apply to the subscriber.
