

and let time convince those who now dissent. Let the operation of the rules and regulations which you pass convince them that you are right, and then they will be brought here. But, my lord, the results of leading a man and of forcing him are very different. Therefore I hold up both my hands to beg that you will consider whether you will apply to the Legislature to force the dissentient members of the church to obey your own measures.

Rev. Mr. SHREVE moved that an application to the assembly should be postponed until the next meeting, in order that the subjects might be discussed between the clergy and laity.

Rev. Mr. RITCHIE seconded the motion.

After some further remarks from the Bishop and others, Mr. Shreve's motion was put and carried.

Clergy—Yea 19; Nays 8.

Laity—“ 13; “ 6.

A code of regulations for the trial of offending clergymen was taken up and after discussion agreed to.

On Friday the Rev. W. Bullock, gave notice of a motion for the next meeting of the Synod, that in the event of a vacancy in the See, the next Bishop be elected by the Synod. Hitherto the Bishops have been appointed by the Crown.

The Morning Chronicle again fails to answer our interrogatory, "Who are Dissenters?" Mr. M C. evidently would name them if he could. His late efforts to designate them was so complete a failure that he has dropped his "dogma" and his new "definition,"—disappointed, we presume that they serve him no better than his "good logic." An article in yesterday's issue professes to find a crumb of comfort from the N Y. Chronicle mentioning ironically the word "dissenter" in connection with the Canada troubles. What a remarkable circumstance!

Manly, straightforward answers to two questions will satisfy us. Try, Mr. M C. and let us have them.

1. Who were the Dissenters you said Earl Mulgrave invited to dine with the Prince? Give their names if you please.

2. Was it not an untruth when you said, "On the first day, the Rev. Dr. Binney" and the Rev. Mr. Murdock, were presented?

THE REV. PROFESSOR KING VS. THE CHURCH OF SCOTLAND IN N. S.—At a meeting of the Presbytery of Pictou on the 5th ult.—"There was read by the Clerk a letter calling the attention of the brethren to a statement said to have been made by Professor King of Halifax, before the Free Church General Assembly, which met in Edinburgh this year. It was moved, seconded, and unanimously agreed to, that, whereas in a speech said to have been made by the Rev. Dr. King, before the Free Church General Assembly (which report was given in the Edinburgh Witness and quoted by the Presbyterian Witness of the 30th of June last), there appears the following statement:

"He might also mention that several of the ministers of the Established Church of Scotland in Nova Scotia had told him, that they were quite free and independent, and that, if in Scotland, they would not remain in connection with that Church."

And whereas this statement involves a serious charge against the ministers of our Church in this Province, and is calculated to impair our credit and standing as honest men in no small degree: therefore this Presbytery declares that as far as it may refer to the members of this Court, it is wholly untrue, and that, if it be true that said gentleman made such a statement, it is calumnious."

At the meeting of the Free Church Synod, on Wednesday, the 3rd Inst., at Pictou, Professor King gave an explanation with reference to the above, and said the reporter had mistaken his words, and instead of its being "ministers" it should have read "people."

#### HORSE RAILWAY INTO HALIFAX.

This has been the subject of remark in the morning and evening papers during the past week. It would doubtless be a most desirable adjunct to the railroad. Whether it will be carried into effect shortly or at some distant period rests upon the vigor with which it is taken up by the authorities. Its completion is only a matter of time and the sooner it becomes a fact the better.

In the last he made 10 points to 5.

DAVIS' PAIN KILLER.—We have tested this medicine and assure our readers that it not only possesses all the virtues claimed for it, but in many instances surpasses any other remedy we have ever known. It should not be classed with the nostrums of the day, got up for the especial purpose of pecuniary profit, but be regarded as one of the standard medicines, for the public benefit.—*Herald of Gospel Liberty*.

## CHOLERA!

PERRY DAVIS—SIR—The benefits I have received from the use of your invaluable remedy, the Pain Killer, induces me to pen a word of praise for it. Experience has convinced me that for Headache, Indigestion, Pain in the Stomach, or any other part of the system, Severe Chills, Weariness, Common Colds, Hoarseness, CHOLERA, CHOLERA MORBUS, Diarrhoea, Dysentery, Toothache, &c., there is nothing better than the Pain Killer. I have this hour recovered from a severe attack of the Sick Headache, by using two tea-spoonfuls taking at thirty minutes interval, in a wine glass full of hot water. I am confident that, through the blessing of God, it saved me from the cholera during the summer of 1848. Travelling amid heat, dust, toil, change of diet and constant exposure to an infected atmosphere, my system was daily predisposed to dysentery attacks, accompanied with pain, for which the Pain Killer was a sovereign remedy, one teaspoonful curing the worst case in an hour, or at the most, half a day! I have heard of many cases of Dysentery being cured by its use. Put in the toothache—it would stop the toothache.—Gratitude, and a desire for its general use, has drawn from me this unsolicited testimonial in its favor.

D. T. TAYLOR, Jr., Minister of the Gospel.

Oct. 2.

Read the following from the well known Captain of the Steamer Fulton:

NEW ORLEANS, 3rd Oct., 1859.

DR. J. C. AYER, Lowell.

Sir: I am urged by my wife to report to you a cure your Sarsaparilla has made in our family, and as it is the only way in which we can make you any acknowledgement of our gratification, I will proceed to state. My little son eleven years old, has had Scrofula sores on his ears neck and arms for five years. They were much of the time very distressing, and we feared they would kill him. At first a swelling would appear, then it would break and make a running sore, which would not heal. They became very loathsome and often painful; they stopped his growth and seemed to undermine his health, so that he became feeble and sickly. We tried Physicians and Medicines, but they did no good. A clergyman in our neighbourhood who had seen some remarkable cures by your Cherry Pectoral, advised us to try your Sarsaparilla, and we did. The smallest sores showed symptoms of healing
