Deceased left the city early in the morning to visit his brother who was staying at Chittock's, Spider Lake, a few miles from Dartmouth. After taking breakfast, he went with some other boys to the Lake for the purpose of bathing, and after swimming about, dived several times. The last time he went down, a reasonable time being allowed for his re-appearance, the lads became alarmed and went immediately for assistance. His body was found after some time lying on the bottom of the Lake, under the place where he had last been seen. He appeared to have been seized with cramps. Deceased was but 17 years old.

> THE COAL TRADE IN PICTOU.-We see by the Pictou Chronicle that the month of June has been marked by a larger exportation of coal from the Albion Mines than in any one month since the mines were opened. Nothwithstanding the dullness of freights, vessels are steadily continuing to arrive; and although the rapidity with the name. Yet the drug cannot be blamed for the impositions from which they are despatched scarcely gives time for a fleet to accumulate in the harbor, and many consequently imagine that there is not much doing, the quantity of coal shipped up to this date exceeds that of last year by upwards rilla compounded with Dock, Stillingia, Iodine, etc., of 8,000 tons. The total quantity shipped in June, was thirty-three thousand tons of large and about two thousand of small. There was no improvement, however, in the rates of freight .-
