A COMET made its appearance in the northern part of the heavens on Monday evening. It was very brilliant about half-past nine o'clock.

NEW SHIPS.—The Eastern Chronicle says a fine new bark, of beautiful model, built at Merigomish by Mr. D. McDonald, was towed into Pictou harbor on Monday evening, by the steamer Pluto. She is owned by William Gordon, Esq., and the builder.

We learn from the Casket that two schrs. named the John Bull and the Leader, were launched at Antigonishe on the 22d inst. The former is owned by Capt. McDonald; the latter by Messis. Gregor, Whidden and Pushee.

TELEGRAPH DEPREDATIONS .- We learn that the line was cut at 12 o'clock, noon, on Monday, 24th inst., on Jack's Hill, near Margaret's Bay Church, and 250 feet of wire stolen. The contractor started immediately to mend the break, but had to return for more wire, which has caused the resumption of business on that section to be delayed longer than expected. A reward of \$50 has been offered by the Company, which is likely to have the desired effect.

The wire was cut in the same neighbourhood a few years ago by a man named Boutillier, and had he been punished then, the present depredation would not, in all probability, have been perpetrated. - Chronicle.

Major Norton, the United States Consul at this Port, has received from the President, a box containing a Gold Chronometer and Chain. which he is instructed to present to Capt. James Lawrence, master of Brig Ellsworth, of Windsor, N. S., as an acknowledgment of his exertions in saving the crew of the American Brig Rainbow, of Boothbay, (Me.,) N. S. Stiles, master, wrecked near Cardenas in March last. The present is valued at \$325, and will be presented by the Consul at an early day. The matter was brought to the notice of the Government by the Consul at Mantanzas.—Eastern Chronicle.

BUSINESS AT MONTREAL.—The failure of a large produce house was rumored here yesterday, and this with the continued decline of flour, now barely saleable at \$4, and the enormous losses anticipated on the immense shipments of the season, have produced something of a panic in the money market, and a most depressing influence on the produce trade .- Montreal Com. WEST INDIES .- In order to provide for the wants of the poor of the island of Cuba, a royal order has been published, to commence on the 16th inst., admitting ship bread free of duty, and

From the island of San Domingo we have accounts of warlike doings. The Havana papers represent Geffrard, President of Hayti, as having invaded Dominica, while through other sources, less partial, perhaps, we learn that certain towns on the frontier objected to the seizure of their country by Spain, and that a massacre of the inhabitants by the Spanish troops was the The Baptist Convention of N. Ayer's Compound extracts Sarsaparilla. No one remedy is more needed in this country condition. Great fears were entertained that the American civil war would deprive the people of the West Indies of their most important articles of provisions, which have always been drawn from the United States. In consequence, considerable attention was being paid by the farmers to the raising of grain and other edibles instead of sugar-cane.

No one remedy is more needed in this country than a reliable Alterative, but the sick have been so outrageously cheated by the worthless preparations of Sarsaparilla abroad, that they are disgusted even with the name. Yet the drug cannot be blamed for the impositions from which they have suffered. Most of the so called Sarsaparilla in market contain little of the virtues of Sarsaparailla or anything else. They are mere slops,—inert and worthless, while a concentrated extract of the active variety of Saraparilla compounded with Dock, Stillingia, Iodine, etc.. rilla compounded with Dock, Stillingia, Iodine, etc., is, as it ever will be, a powerful alterative and an effectual remedy.—When you have used Aven's—then, and not till then, will you know the virtues of Sarsaparilla.
