

his wounds. The Richmond Examiner has a Savannah despatch which states that the Federals attacked the batteries at St. John, and were repulsed. They subsequently landed at Greenville Point, and marched to the rear of the batteries, where a fight took place. No particulars are given. — Unconditional Union candidate elected Mayor of Baltimore with over 7000 majority. — The draft has been forcibly resisted at Hartford, Indiana. The people destroyed the ballot box, forced the commissioners and provost marshal to resign, and denounced the Government.

Oct. 10.—A great Battle at Perryville, Kentucky, commenced on Wednesday last. General Bragg's army (Confederate) attacking Gen. Buell's advance (Federal) under the command of General McCook. The battle, was a desperate one and continued through the day, with no decided result to either side; the Confederates however, having the best of it in the first part of the day, and the Federals claiming an advantage at the close. The Federal loss is estimated at two thousand in killed and wounded. Several Generals were either killed or mortally wounded. General McCook being reinforced, the battle was resumed yesterday morning. General Dumont's success over Generals Morgan and Scott at Frankfort has been fully confirmed. A reconnaissance at Rappahannock Station discovered no enemy. The Federal army from Corinth occupied the Grand Junction without opposition from the Confederates. General McClellan, in general orders, congratulates his army on the recent successes in the State of Maryland.

(Evening) —The Herald's Hilton Head correspondents says expedition of several gunboats, with land forces in transports, arrived at the mouth of the St. John's River on the 2nd. The land force surprised two camps of the enemy. Gunboats attacked a formidable fort on Bluff, which was found deserted. Large quantity ammunition and stores captured. Fort will be blown up.

Preparations making to attack another heavy battery at Yellow Bluff, four miles farther up and ten miles from Jacksonville, occupation of which looks for an early day.

Seventh Maine regiment reduced to hundred and seventy-five men, has started for Portland to recruit.

At Perryville, Kentucky battle Federal Generals Jackson, Webster and Little and Major Campbell killed.

Rumored that the fight resumed yesterday was favorable to Federals.

A telegram from New York to a gentleman in this city, states that after the news of the second day's fighting at Corinth was received in the former city, exchange advanced to thirty-nine, and gold to twenty-six per cent. This does not argue that the result of the battle was favourable to the Federals, but quite the opposite. — Chronicle.

ITALY.

TURIN, Sept. 16.—The Court of Cassation at Naples has, through considerations of public safety, determined that the trial of Garibaldi shall not take place in one of the assize courts in the Calabria, and has delegated to the Court of Cassation at Milan the duty of designating another court.

The health of Garibaldi is somewhat worse. The discussion of this evening says: "The statement that a note has been despatched by the Italian Government to Paris is premature."

FRANCE.

Another of those extraordinary articles on the affairs of Italy by M. de la Guernoniere, which have excited so much attention on account of the possibility that they indicate the views of the French Emperor, has appeared in La France. The writer advises the division of Italy into three states, northern, southern, and central, united by a federal bond; Austria to retire from Venetia, and all the customs of the three states military, diplomatic, legal, and financial, to be assimilated. Rome would be a bond of union between the two great states, would morally dominate the federation, and would become in fact the capital of Italy. These appear to be a renewal of the terms which the Emperor Napoleon set at first made to suit the present circumstances of Italy. M. de la Guernoniere declares, however, that he is not the mouthpiece of the government.

POLAND.

The official Djiennik of to-day says:—"A number of nobles have held illegal meetings at the house of Count Zamoyksi, and drawn up an address containing demands exceeding the freedom granted by the institutions of the country. Count Zamoyksi has been ordered to St. Petersburg to answer for these proceedings to the Emperor."

SWITZERLAND.

BERNE, Sept. 16.—The Italian Government has despatched a circular note to its representatives abroad, a copy of which has been communicated to the Federal Council. In this note the speedy defeat of the insurrectionary movement of Garibaldi is adduced as a proof of the consolidation of the state of things in Italy. It is stated also that this insurrection, on the other hand, constitutes an urgent demand to grant to Italy her capital, as Garibaldi, although acting in an illegal manner, nevertheless expressed the thought of all Italians.

CURIOUS STORY ABOUT PRINCE ALFRED.

The following appeared in the Allgemeine Zeitung:—"Prince Alfred, the presumptive heir to the Duchy of Coburg Gotha, and at present in the English naval service, has ventured to stray away an hour beyond the time permitted by his leave of absence. The superior officer concerned gave notice of the fact, and inquired how he was to proceed in the matter. The Queen commanded the strictest punishment to be carried out which the law recognises, as in any other case. This is found to be two months' imprisonment and half a year's delay in advancement. No sooner had the Prince arrived at Rheinhardtbrunn than he had to depart again under arrest. Capricious and insufferable as such a thing may appear in the atmosphere of courts, it is an example of justice and wisdom in the eyes of peoples." How much truth there is in this report we cannot say: it is printed in the most respectable papers, and we therefore give it for what it is worth.

ROMOURED SECESSION FROM THE SCOTTISH EPISCOPAL CHURCH.—We understand that, in reliable quarters, it is thought that the new code of canons which is in preparation for the Scottish Episcopal Church may be the means of dividing that communion. A large body of the clergy and laity, it is reported, intend to enter into relations with the Church of England if any other ritual than that of the Prayer-book be adopted.—Edinburgh Courier.

The Correspondance Franco-Italienne announces that General Pallavicino, the victor in the engagement at Aspromonte, had been named Knight Commander of the Legion of Honour by the Emperor of the French.

Mr. Gilpin, M.P., has written to Garibaldi to invite him to take up his residence with him in the event of his being permitted, under any circumstances, to come to England.

NEWCASTLE AND GARIBALDI.—An immense and enthusiastic meeting was recently held at Newcastle-on-Tyne to memorialise Government to urge the withdrawal of the French troops from Rome, and to invite Garibaldi to come and reside in England. The large Lecture Hall could not contain the people, and thousands went away, unable to obtain admission.

THE ATLANTIC TELEGRAPH.—There are some hopes that the Atlantic telegraph may in the course of another year or so be again at work. The Government vessel which has been employed for some months in surveying and taking soundings has returned, and as a result it is stated that a better route for the cable has been discovered; but that it is the opinion of several of the officers that a line of communication which can be established without the necessity of so long a wire as that direct across the Atlantic will be much more likely to succeed.

A shareholder in the London and North-Western Railway, in writing to The Times, says that the payments by the company for compensation for injuries amount to about £60,000 a year.

A SCOTCH MINISTER "DONE."—In common with the rest of the world, Dr. M., an eminent Church of Scotland divine, lately visited the International Exhibition. Shortly after his arrival in the metropolis, an Irishman came running to him in the street crying—"Och, blessings on ye, Doctor M.—! How are yez?" "I'm very well," replied the doctor, rather droll, "And when did yez come to London?" "Last week; but how did you come to know me?" "Give me a shilling and I'll tell yez." The doctor, curious to know how the fellow found his name out, gave him a shilling, and was answered by the Irishman,—"Sure then I saw your name on your umbrella."

THE SUBSTITUTES FOR COTTON.—Very little doubt seems now to be felt that the substitutes for cotton, if they do not in all respects realise the representation of the inventors, will, at any rate, be the means of alleviating in a great measure the distress caused by the scarcity of the plant. The patent prepared jute is spoken of very highly, and so much resembles coarse wool that it may, it is said, be sold for that article. The client of Messrs. Phillips and Sons now offers to make his invention known to a properly constituted committee, without any stipulation, and appears as sanguine as ever of the result.

In a village in the Highlands of Scotland nine individuals compose the entire population, five men and four women, all unmarried, and their united ages are 600 years.
