

Our English mail, which arrived on Tuesday evening, the 8th inst., brought no news of importance. It is thought that both the Russian and Prussian Governments will very shortly recognize the new kingdom of Italy, as an independent power, which they have hitherto declined doing.

The Great Eastern, from Liverpool 1st inst., was intercepted off Cape Race at 1 p. m., on Tuesday last.

The diplomatic correspondence published relative to the Emily St. Pierre is lengthy. Minister Adams contends that the ship and cargo were confiscated, and demands restoration. Earl Russell employed legal arguments against it.

Brougham explained his speech in the House of Lords on America, that he merely wished as a fellow Christian to remonstrate with the Americans on the cause of the American war; gloss it over as they might, the war threatened fatal results to the character of the American people. He thought it impossible for England to interfere, but expressed hope that the Americans would see the suicidal character of the struggle, and come to amicable arrangements before they entirely lost the respect and affection of Europe as a nation.

Lord Palmerston expressed deep sympathy with suffering operatives, and eulogized their endurance. He wished it was in the power of the Government to take steps for their relief, but interference in America now could only aggravate matters. Both England and France would be delighted to take mediatory steps, when fitting opportunity arose he should look upon it both as a duty and pleasure.

After another debate on fortifications, Government Bill was read second time by 158 to 56.

Operatives at Blackburn held a meeting to urge mediation, but overwhelming opposition was shown, and Government was finally called upon to try and reestablish confidence of Southern planters in Lincoln's Government.

Mr. Peabody was to have a public banquet given by the Lord Mayor, on being presented with the freedom of the City of London.

The marriage of the Princess Alice took place the day the Great Eastern left Liverpool.

It is again rumored that Persigny will resume French Ambassadorship at London.

CAPE RACE, July 10.—The City of New York was intercepted at 10 o'clock on Thursday morning. Left Queenstown evening of 3rd.

The Sumter still continues at Gibraltar; the Tuscarora at Algeiras.

Schr Sophia which ran Charleston blockade March 2nd, reached Liverpool 1st inst., with 900 bales cotton, tobacco, rosin, &c.

In Parliament Disraeli made an attack upon Gladstone's financial policy and budget, the latter spoke strongly in defence, and a general debate ensued, in which Bentinck attributed the distress of the country to its inconsistent and inhuman policy in refusing to recognise the Confederate States. The House in committee adopted resolutions in favor of Gladstone's various recommendations in the budget.

The crops of England and France are reported to be most favorable. French manufacturing accounts also show more animation.

Latest accounts assert Gen. Goyon is not to be recalled from Rome.

The Spanish Government has again reiterated its firm determination to do nothing prejudicial to independence of Mexico.

Continental news unimportant.

The "Oreto."—This new steamer, just built at Liverpool nominally for war purposes for the Italian Government, left there on the 22nd ult. in ballast for Palermo. Crew fifty men. It is believed she will go to Bermuda, where her armament preceded her, thence either to take the sea as a privateer or commissioned by Confederate Government. She is built to carry guns of heaviest calibre, measures 750 tons, and is said to be very fast. Various contradictory rumors are afloat concerning her; they generally lead to above conclusions.

Horton Academy and Seminary.

The Second term of the present year commences August 1st, and ends Dec. 20th.

Pupils furnish themselves with bedding and towels.

Bills are payable quarterly in advance. The charges will be nearly the same as heretofore. In cases when advance payment is neglected the bills will be higher in proportion to the time.

It will be much to the advantage of the schools and the pupils for all to be present at the opening of the term.

NOTICE.

Wanted, Volumes of the Christian Messenger for 1838 and 1839.

Any person having these and being willing to dispose of them, will much oblige by giving information to that effect.

Address to Christian Messenger Office, Halifax.

The Baptist Anniversaries.

BAPTIST CONVENTION of Nova Scotia, New Brunswick and P. E. I. will meet at Moncton, N. B., on Saturday August 23rd, at 2 o'clock.

Letters Received.

We crave the indulgence of our correspondents in deferring the acknowledgement of their favors till next week.

General Intelligence.

DOMESTIC.

Some nice specimens of gold-bearing quartz were got out of a trench in course of excavation for the water pipes, near Graham's on the Peninsula, last week.

A correspondent of the Reporter states that Mr. Thos. Tidmarsh, formerly of this city, holds the situation of Commissary General in the Confederate Army.

SALMON FISHING.—Mr. William Arbuttle of Bailey's Brook, one day last week, caught no less than forty-four Salmon in a net which he had stretched out a few fathoms from the shore. Casket.

A large amount in Nova Scotia gold was sent to England in the last steamer. We are of course unable to state the whole amount transmitted; but one lot alone comprised the snug sum of \$14,000.

SENSIBLE.—The Sun says "We have received another letter from Mr. D. A. Bent, in reply to the Christian Messenger. We decline its publication, as we can see no good to result from prolonging the quarrel.

Another outrage has been committed on the Telegraph line between Halifax and Chester. On Thursday evening the wire was maliciously torn down and broken at Hubbard's Cove. Mr. Hoyt, the Superintendent of the Company, proceeded to the scene of damage on Friday, and has succeeded in obtaining sufficient information to have two persons brought to Halifax for examination. Warrants have been issued by Andrew Shiels, Esq., Stipendary Magistrate, for the apprehension of Martin Johnston and James Kearns.

LAUNCH AT HANTSPOUT AND BAZAAR.—

These two attractions were highly successful in bringing together an immense body of people from the neighbouring places on Saturday last.

It is said that upwards of four thousand persons were present to witness LaGloire descend to her native element. The bright sunshine, brilliant foliage and delightful scenery of the locality, presented together the elements of a very pleasant holiday excursion. It is said that a continuous cavalcade of two hundred and seventy vehicles were counted on one road. The launch took place at twelve o'clock. The ship was dressed up in flags, and with all her sails set glided down her ways with the most perfect ease. Ezra Churchill, Esq., the principal owner, and the Provincial Secretary were on her deck.—Her dimensions are, keel 181 feet, and deck 200 feet in length, with a tonnage of from 11 to 1200 tons. The splendid ship as well as the whole arrangement reflected much credit on the builder, Mr. John Davidson, and all concerned. The Bazaar was largely patronized, 3000 tickets having been sold during the day, and a vast amount of edibles disposed of. A considerable fund was, doubtless, realized for the object named—the repair of the neat Baptist Meeting house at Hantsport. Every thing appears to have passed off pleasantly.

PROVINCIAL SECRETARY'S OFFICE, Halifax, July 9th 1862.

A little girl, named Annie Laurie Smith, was burned to death at St. Mary's on the 20th ult.

There was a heavy frost on Monday morning last, which cut down the potato vines, and did similar mischief to garden vegetables.—C. B. News, July 5.

INQUEST.—An inquest was held on Saturday, about four miles from Dartmouth, by Dr. Weeks, on the body of a colored man named John Maxwell. It appears that the deceased, after severe drinking for some days, had wandered some four miles from Dartmouth on the Truro Road, when delirium tremens, the result of his dissipation, came on, and he died a few days after in a barn. A verdict in accordance with the facts was given.

THE CROPS.—Four or five weeks ago, the prospect as regards the crops of the present year, was anything but promising. The weather was dry and cold, and it was apparent to every body that many meadows had suffered much from what is called winter-killing. It is true that the fruit trees blossomed most abundantly, but late frosts, it was thought, would injure them seriously. Recent warm weather and rains, however, greatly improved the prospect. The progress of present vegetation is truly marvelous. Even grass, it is now hoped, will not be much (if any) below an average yield. Potatoes and all kinds of grain are looking finely. Indian corn in particular bids fair for an uncommonly heavy crop. Fruit trees, especially apples and plums, give promise of fruit in profusion. The grazing lands have so improved of late that we may anticipate from our dairies an unusually large supply of butter and cheese.—Bridgetown Register.

Prince Edward Island.

We are pleased to learn that it is the intention of the owners of the New York, Newfoundland, and London Telegraph Line, to lay down a new Cable, in a few months, connecting this Island with the neighbouring Provinces, and that in the meantime the present cable—for some time out of repair, is to be under run, and repaired, and the whole line at once placed in working order. For some days past parties have been working at the cable, endeavouring to find out where the defect lies, and we trust that in a few days we shall again be in direct telegraphic communication with the neighbouring Provinces.—P. E. Islander.

New Brunswick.

The sentence of Wm. MacKie, convicted of the murder of John Fitzgerald, in St. John, has been committed to imprisonment in the Penitentiary for 21 years.

Two batteries of powerful Armstrong guns, 40 pounders are to be sent out to St. John.

Canada.

The number of troops now stationed in Montreal is 4,314.

There is said to be a strong movement progressing among the shop-keepers in Canada to drive the British shilling out of circulation.

The Canadian Government has appointed a Mr. Ossage to lecture to the French of Lower Canada on the advantage of cultivating flax.

Between 14th and 21st ult. there arrived at Quebec 2,423 immigrants, viz.: 1,642 from Norway; 421 from Scotland; 228 from England; 151 from Ireland.

About two o'clock on the 14th inst a private soldier in the Royal Artillery deliberately shot a sergeant in the same corps, the ball passing through the body of the sergeant and severely wounding another soldier who was standing by. The man who committed the deed has been sentenced for misconduct to fourteen days confinement to barracks.—Quebec Gazette, 4th.

The Hon. Wm. Hamilton Merritt died suddenly on the 7th on board a steamer while on her way up the lake. Mr. Hamilton was a gentleman of great respectability, residing in St. Catharines. He was for many years a member of Parliament and much esteemed.
