Saints were filled with joy, and sinners begged for mercy. Thus, through his instrumentality, the work began, which was afterwards carried on so extensively."

In the spring of 1829 Mr. Ansley undertock a missionary tour, which was greatly blessed. He baptized thirty-one persons at Brookfield, and eight at Liverpool. The church at the latter place was re-organised on the occasion. Mr. Ansley "restored other waste places of Zion to gospel privilges, order and discipline." This was his last effort of the kind in Nova Scotia.

I am reluctantly compelled to postpone the conclusion of this memoir. It will be finished in my next letter.

The third resolution, calling upon Christian people and Churches, to more concentrated and devoted efforts to seek out and save the lost, was moved by the Rev. Mr. Munro, and seconded by Mr. Jas. Thomson. A vote of thanks was passed to the managers of the Church, and a collection was taken up. The unfavorable weather on the night of meeting, doubtless prevented many from being present. so that the attendance was not so large as otherwise it would have been.

News Summary.

The Steamer Niagara arrived on Saturday evening with the first February Mails. She had a long passage, and her news had been forestalled by a previous arrival in the United States. There is nothing, however, of any moment to be noted. Parliament met on the 4th inst., and was opened by Royal Commisremains at Osborne in strict seclusion, with the exception of brief visits from her uncle, the King of the Belgians, and some of her principal Officers of State, on matters of indispensable business. No measures of general importance are as yet spoken of, as likely to come before Parliament. The affairs of Europe are at present quiet and peaceful. The Earl of Elgin is immediately to proceed to India as Vice Roy or Governor General, in the place of Lord Canning, whose term of service is completed. He will have to carry out an entire new line of policy in the administration of Indian affairs, in consequence of the great changes that have been introduced in the whole system of internal government.

It would appear from the latest accounts received from the United States that the Federal Armies are obtaining very considerable success in the conduct of the war. The Confederates have been severely beaten in several engagements in Kentucky and Misprisoners, and of munitions of war. This was to be expected with the very superior numerical force of the North, and as they became more advanced in discipline and order.

The Express suggests the probability of this being a nugget brought from Australia.

The Yarmouth Herald says: " Wm. Condon, Esq., of Halifax, has shown us some fine specimens of gold-bearing quartz personally collected by him in the Counties of Digby and Yarmouth, and which contrast favorably with samples which we have seen from Tangier and Lunenburg."

Prince Edward Island.

It is stated by the Islander, a Government paper, that the public expenditure for 1861, has exceeded the revenue by some six or £7,000; and it is contended, that such must continue to be the case, while from £15,000 to £18,000 per annum are required to meet the expenses of public education.

The revenue of the Island, for several years past, has been about £42,000 per annum-The salaries of public officers as established by law, are upwards of £17,000. The mail service costs annually about £3,500. The further sum of £3,500 is required every year to meet the interest on Treasury warrants and debentures; and the expenses of the Legislature amount to £2,500 per annum.
