The

costs \$3.00 per day to live—hence it is not the place. country for the poor miner, but only for those who have sufficient to bring them here and of Leesburg. keep them through the season. That there is general outlay and expense of getting it re- reach. mains to be proved. The misrepresentations that have been made respecting British Columgenerally, and Cariboo particularly, are ing. very gross and cruel. Thousands have left Canada and other places with a view of settling in British Columbia as farmers &c., but, as an agricultural country, it is very much interior to any of the Provinces, not excepting New Brunswick. I traveled from New Westminster to Cariboo in the months of June and July and say, unhesitatingly, that apart from the prospeets of its being a rich gold country, I did not see 1,000 acres of land that I would accept as a present, and be compelled to live on it.

'Tis true the gold is very spotted in this country but yet we think it can searcely leap our entire 400 feet without leaving some small bits for us. The gold here is very coarse, varying from the size of a grain of wheat to a walnut. With regard to the mines on the other creeks, reports are so conflicting that I scarcely know what to believe.

On William's Creek, a Mr. Adams, it is said. is taking out 1,000 ounces daily, and that he will this season take out one ton! Steele, Cunningham, and others are, also, taking out enormous quantities.

You would, perhaps, like to know something about the climate and appearance of Carriboo. Well, just now we are having fine weather. The snow has all disappeared and the frost is out of the ground. The days are pretty warm but the nights are generally frosty. The vegetation is about like the middle of June with you in New Brunswick. It has just ceased raining, which it has been doing, they say, for three months. It will probably be pretty fine weather until the first of October, when it will commence to rain again. The ground is all swamp no matter whether on the mountain or in the valley. The trees are all Spruce and Fir, no other can be found where I am located. But for a hundred miles before I reached this spot, Poplar and Balm of Gilead, (or what is here called Cotton Wood) predominates over every other growth, and with the exception of a few white Birch, I have not seen a hard wood Tree

But as regards Vancouver's Island—that, I believe, to be one of the finest countries in the world. And gold, or no gold, it is destined to grow and flourish. Its climate, soil and timber, are unsurpassed. And there is scarcely a doubt but its mountains and rivers are rich with gold and other metals. I trust to make it my home

Canada.

THE INTERCOLONIAL RAILWAY .- The folowing appears in the Hamilton Times .-- "We are authorized to state that it is not the intention of the government to undertake the immediate construction of the Intercolonial Railway, without the consent of Parliament.' It has been distinctly understood that Parliament is to be consulted before anything further is done. During its next session the Government will introduce a bill bearing upon the subject."

It is said that Mr. Foley, Postmaster General and the Hon. A. A. Dorion, Provincial Secretary are opposed to the Intercolonial Railway scheme and will consequently withdraw from the government.

IMPORTANT DENTAL NOTICE.

Very important to Ladies residing in the Country, who intend visiting Halifax to have Dentistry done.

R. MACALLASTER, Dentist, is fully pre-I pared to accommodate Ladies, who may employ him, while having their work done, -all without charge. Every effort will be made to render his house a pleasant home, for all who may avail themselves of the opportunity.

There are many advantages offered in the arrange-

First, the work can be accomplished in much less

time by having the patient present. Second, the work can be done more perfectly.

Third, the success is sure. Fourth, the great convenience and saving of ex-

pense to the patient. Those desiring Artificial Teeth should not fail to call and examine Specimens before going elsewhere.

He would respectfully call attention to the Vulcanite rubber plates for Artificial Teeth. He has used it three years with great success, and it is in every respect better than silver plates; he now has great pleasure in recommending it to his patrons and the public; in the United States it is being used by all the first class Dentists, at the last Dental Convention held in Ohio, July last, the whole Convention spoke in its favour, it is also used in England to a great extent; it has many advantages over every other kind of work, it is lighter, it is free from taste, it is strong and durable, and can be repaired should it brake; it can be inserted in full Sets or partial Sets with suction plates or attached; there is no plate so easy in the mouth, or so cheap.

It is now well known that Dr. M. after a successful practice of his profession in this Province for six years, is thoroughly competent to perform every operation of Dentistry in a most skillful manner: He would here respectfully mention that the great increase of business, and demand for his Professional services, go to show entire confidence that the Public has in his abilities to manufacture and insert Artificial

Every kind of Dentistry skillfully performed at the co-uplete Dental Establishment, 43 Granville Street. One door north of Dr. Blacks, and near the Baptist Chapel.

Sep. 17.

Land for Sale.

THE following Lands situate at Cheverie, in the I Township of Kempt, and County of Hants, are offered for sale, viz.

1 Lot of Land containing about 180 Acres.

2 Lots containing about 130 Acres each.

All the above Lots front on the Main Post Road on the shores of the Basin of Minas, and within a few rods of high water mark. A large part of the fronts of all the lots are cleared and fit for immediate cultivation; the back of the lots being still uncleared. The lands are all of the first quality, and are in the close neighbourhood of extensive Quarries of Plaister of Paris, in which a large trade is usually carried on with the United States. Inexhaustible supplies of Marsh Mud of the best quality can be had in the immediate vicinity of the lots.

For further particulars and terms of sale apply to J. W. NUTTING, the Proprietor, at Halifax, or JOHN BURGESS, Esq., at Cheverie.

Halifax, Sept. 1st., 1862.

YARMOUTH MARBLE WORKS.
