

be despised, and the wily Emperor has made another move, which would seem to indicate his desire to uphold the Pope in his temporalities, for the present at least. This policy is of course most distasteful to Italy, as well as to the Protestant governments of Europe.

The abdication of Otho, the German King of Greece, is not unlikely to produce some critical complications in European affairs. It is said the Bavarian royal family intend claiming the fulfilment of the guarantee of England, France and Russia in maintaining the rights of the Bavarian family to the throne.

General Intelligence.

DOMESTIC.

OUR SIDEWALKS are being greatly improved, but the length of time taken for effecting the change is somewhat discreditable to those who have the work in charge. A day or two's work is done in pulling up the stones on the sides of the streets, these are piled up and the large curb stones are spread out over nearly one half of the street, and then the work is left several weeks. Surely this need not be!

We regret to learn that on Saturday afternoon last a fire broke out in Messrs. Jost & Macalpine's premises at Tangier. The building together with all the contents, books, &c., were destroyed.—Sun.

The Express says that a writ was served on the City of Halifax, on Monday forenoon, to recover a sum of \$39,770 00, all-ged by the Government to be due for Railway interest. This of course is a very important matter, and will force itself upon the consideration of rate-payers in Halifax, involving as it does rather more than \$1 per head on every man, woman and child, in the community.

We regret to learn that a promising lad, about 18 years of age the son of Mr. John D. Forbes, was accidentally drowned in the Mill Pond at Maitland on Tuesday last.

The youngest son of C. W. M. Dodd, Esq., of Sydney, C. B., was lately lost from the jib-boom of an Am. schr. while on passage from that port to New York.

INQUESTS were held on the bodies of two men last week, one of whom fell into the harbor.—Murdoch McDonald, of the schr. Rival, of P. E. I. He died a few hours after he was taken out. The other is said to have been a mar. from Liscombe Harbor, who fell from a platform on one of the wharves, and was killed by the fall. Verdicts were given in accordance with the facts.

GOLD.—Almost every day the various conveyances bring more or less gold to the city from the mining districts. The following is a statement of the separate lots of the precious metal brought here during the present week, from Wine Harbor and Sherbrooke:

Table with 3 columns: Name, oz., dwt., gr. Rows include D. Hattie, McBain, McIntosh, A. & D. McDonald, Do., McDonald & Cameron, and a total of 895 16 3.

The above quantity, at \$19.75 per ounce, shews a value of \$17,594.45. It is probable that, before the winter sets in, there will be other arrivals of gold from the various auriferous localities.—Express.

The gold field at Lawrencetown has by proclamation been designated as the Lawrence-town District.

The contributions of all Canada to the Lanchashire Fund are expected to reach the handsome sum of \$80,000; the sum sent from New Brunswick will likely amount to from \$8,000 to from \$10,000; while that contributed from Nova Scotia will probably exceed \$20,000, making a total of \$110,000 from the three provinces. The subscription from P. E. Island is to be altogether in oatmeal, which brings a much larger price in England than in the Island.—Rec.

SUDDEN DEATH.—The Rev. Peter Knight, a native of Jersey, and for many years a Baptist Missionary among the French in Madawaska died quite suddenly at Woodstock on Thursday evening week. The deceased gentleman had, for some time, been residing at Grand Falls, which place he left on Wednesday morning for Woodstock in good health, en route to see his daughter who resides at Grand Lake, Q. C.—Globe.

CRIMINAL AND REFORMATORY.—At the recent opening of the Circuit Court at St. John, Judge Ritchie congratulated the City and County on the fact of there being but five criminal cases on the docket. After noticing the cases, he pressed upon the attention of the Solicitor General and Grand Jury, the imperative demand for a Juvenile Reformatory in that city.

ASSAULT.—The Westmoreland Times says, that on the 4th inst., an assault of a most cruel and unjustifiable description was committed upon an old man named James Miner, by no less an individual than Thomas Gamble, Esq., one of Her Majesty's Justices of the Peace for the County of Westmoreland.

A letter to the St. John Courier, from W. R. Trites, the constable engaged in the house at the same time, gives quite a different version of this affair. He says that "Minar, the old man in question, threw a quantity of hot water on Mr. Gamble, and immediately with a stick commenced beating him with as much force as he could, aided in the encounter by two women. With difficulty Mr. Gamble got down stairs, cut and bleeding, holding the chair over his head to defend himself from the blows which came in rapid succession from Minar and the two women."

LECTURE.—E. R. Humphreys of Boston opened the season on Monday last at the Mechanics Institute by a Lecture on "British America yesterday, to day, and to-morrow." Mr. H. gave a strong expression of his opinion on the Intercolonial Railroad, and shewed that he sympathizes with Britain and British America far more than many of the U. S. public men.

ANOTHER BEAR STORY.—An immense bear was shot at Little Shemogue, last week.—Guns were set, which, on several successive nights, discharged their contents into his bear-ship, but it was not until the third night that he succumbed to his fate.

£1000 sterling was remitted to England from St. John per last steamer, in aid of the British operatives.

Mr. Sanburn has been exhibiting his large Nugget from the "Ovens," in St. John.

HOTEL BURNT AND SEVERAL LIVES LOST. Toronto, C. W. Nov. 14.—The Rossin House, the largest house in Canada, was burned this morning, with all the stores in the building. Several lives were lost. The guests were all saved. Loss very heavy. The hotel was insured for \$80,000. The Toronto Globe says a large and influential meeting, which was held in that city on Saturday, will doubtless result in effectual steps being taken to secure the immediate rebuilding of the Rossin House.

The total receipts of grain at Montreal, from Jan. 1 to Oct. 18, were 154,303,824, bushels by canal and rail, and exclusive of the amount brought in by farmers of the district. The grain shipments at Montreal are prodigiously on the increase.

EMBEZZLEMENT OF CITY MONIES.—The Hamilton Times of Thursday says:—"A painful rumor has been in circulation throughout the city this afternoon that moneys, to what extent is not known, have been embezzled from the Water Works office. On inquiry, we have every reason to fear the rumor is true, although it is believed the amount abstracted is not large. The person suspected is one who has hitherto borne an irreproachable character. We believe that Mr. Haskings, City Engineer, was the first to discover and report the embezzlement. The matter is now under the consideration of a Special Committee of the City Council.

A SINGULAR CASE.—The Montreal Herald gives the following account of a most extraordinary affair. On Thursday last, High Constable Bissonette went out to Vercheres and arrested one Michel Dansereau. It appears that the latter has been confined for the last 13 years a lunatic. He was three years under the care of his mother, and at her death he was handed over to his brother Joseph Dansereau, who has kept him in custody ever since. A few days ago Mr. Justice Monk was out on circuit in Vercheres, and accidentally heard something of the case. On returning to Montreal the Judge at once communicated with Mr. Justice Coursol, who issued a warrant for the arrest of the alleged lunatic, and High Constable Bissonette was dispatched to execute it. The prisoner was found in a small ill-ventilated room in a house in Vercheres, and was taken into custody without any resistance on his part. He was perfectly quiet, and exhibited no signs of the dreadful affliction under which he is said to have suffered for so many years. He was lodged in the common gaol in this city, and should he really prove to be a lunatic, he will be sent to a proper asylum. Doubts have arisen, however, as to the man's state of mind when he was first put into confinement, and it is suspected that his brother may have had some object in detaining him.—The case is involved in so much mystery that an investigation appears to be called for.

Neuralgi, or Nervous Rheumatism, was the first of a line of Nervous Complaints, to which Hunnevell's Tolu Anodyne was so signally adapted. It has proved all we claimed for it. There is but one, and only one obstacle to immediate results, which is Indigestion. As the Anodyne is based entirely on all objections to mercurials, so weakening to the muscular and intestinal parts of the body, a simple Pill perfectly adapted to the Anodyne is prepared by the proprietor, and will be sent, when requested, "free" until plans are matured for placing their true character as assistant to the Anodyne, and most perfect Family Physic before the world. See advertisement.
