

wooden ships of war may be rendered serviceable. In place of overloading ships with heavy iron armour, the new process consists in covering the outsides of ships with a thick coat of an electro-magnetic composition, which the inventor calls a "repelling coat," on account of the property it possesses of deadening and paralyzing the shock of any projectile.

ITALY.

A reply of the Pope to three Neapolitan archbishops has just been published. The language of the Pontiff in this document has, perhaps, never been exceeded in violence, even in Roman despatches. He represents religion as being persecuted in Italy by men who constitute "a sect of perdition, animated by moral hatred to Catholicism." The Italian Government, is accused of violating every law, human and divine.

The fete celebrating the canonisation of the Japanese Martyrs was solemnised on the 4th of June with perfect order. The ceremony lasted six hours, and was attended by 44 cardinals and 243 bishops, as well as by the diplomatic corps. The Basilica of the Vatican was magnificently decorated, and lighted by 10,000 wax tapers. The Marquis de Lavalettee contributed 3,000 francs towards the solemnity.

In the Chamber of Deputies, the minister of Finance had to come before the House acknowledging a prospective deficit of 400 million lire for this year. This deficit would, however, be reduced to 225 million lire by the taxes already voted, &c., and it was for that sum that the Chamber would have to provide. He proposed the sale of the public lands and of certain church property, and to issue Treasury bonds for one hundred million lire. The scheme has been favorably received and has caused a rise in the last Italian loan. In the peculiar circumstances of Italy the addition to the national debt is considered almost less than could have been expected.

ADDRESS OF THE POPE.—Rome, June 9.—The Pope, at a consistory held this morning, pronounced an allocution in which he deplored the errors spread by the Catholic Church, as well as against divine and human laws. His Holiness further regretted the oppression exercised against the Church in Italy, and the war declared against the temporal power. He urged the bishops to redouble their zeal in combating and arresting the diffusion of their errors.

After the allocution, Cardinal Mattei read an address from the bishops to the Pope. All the bishops dined with the Pope in the library of the Vatican.

POLAND.

Warsaw, June 10.—The first sitting of the Council of State took place to-day. The sittings will in future be presided over by the Marquis Wielopolski and the Grand Duke Constantine, who are both expected to arrive here in July.

TURKEY AND MONTENEGRO.

The "Eastern question" is once more obtruding itself upon public attention. As our readers know, the Turks have invaded Montenegro, and if the telegrams from Scutari are to be believed, they have obtained a great victory over the Montenegrins. However, the question for Europe is not a military, it is a political one. The Prince of Montenegro has protested to the foreign consuls, and has demanded the intervention of the Great Powers. By the treaty of Paris the inviolability of the Montenegrin and Turkish territory is equally guaranteed by the Great Powers, and it is in virtue of that engagement that the Prince of Montenegro demands intervention against the Turkish invasion. The Montenegrin Prince evidently believes the reciprocal obligations of that treaty to be "all on one side." It is notorious that Montenegrins have been in arms on Turkish territory for months back, and while they had a monopoly of invasion nobody said anything about the Treaty of Paris. No sooner does Turkey, however, determine to make reprisals against Montenegro than the Prince protests, and asks the Great Powers to interdict the advance of Turkey. He has found supporters in France and Russia, while it is understood that England and Austria refuse to shield Montenegro from the castigation which her own lawlessness has brought upon her.

MISCELLANEOUS.

A despatch from Malta says that the Prince of Wales was received with much rejoicing in the island on Thursday. His Royal Highness was to take his departure for Marseilles on Friday, in which case he would be in England in the course of the present week.—London paper June, 11th.

The rumour of a visit from the Empress Eugenie is again repeated. It is stated that she will come in a private character, in order, we presume, that she may take a look at the exhibition without the ceremony of a Royal visit.

Dr. Mackay, poet and journalist, has taken Mr. Russell's place as correspondent of The Times at the seat of war in America.—Public Opinion.

MORE NEW SEEDS, May 1, 1862.—Ex Steamer Canada Garden and Flower seeds in variety, received at the warehouse of G. E. MORTON & CO., near the Province Building.

DR. STONE'S COUGH ELIXIR.—This approved Cough remedy, with all the other Patent Medicines advertised in this paper, is supplied, Wholesale and Retail, at the Medical Warehouse of G. E. MORTON & CO., near the Province Building, Halifax.

Stone store north end Hollis Street.

June 11.

NEW ADVERTISEMENTS.

ALL MAY LEARN TO WRITE.

MR. B. F. STAPLES has the pleasure to announce that his Writing Academy, No 57 GRANVILLE STREET (Christian Messenger office building), is open every day and evening for instruction in Writing.

The method of instruction commends itself to every one, inasmuch as it simply seeks to improve upon the original hand writing of the pupil, instead of attempting a new system of Penmanship.

By pursuing this course persons of any age, however imperfect their writing, may acquire, in a few lessons, a permanent, elegant, and rapid style of writing, eminently adapted either to mercantile or professional pursuits—the Counting House, the Office, or private correspondence.

Mr. S. has had an experience of over ten years in teaching and practising the Chirographic Art; has taught in the first Educational Institutions in the New England States and British Province; and has certificates from leading Educationalists, highly commendatory of his ability as a first class Penman and Teacher.

Card Writing P.

Visiting, Wedding, and Address Cards, Ivory or Enamelled, executed equal to the finest Copper-plate engraving.

Fancy Writing of every description executed to order.

Lessons given to private Classes and to person at their residences.

Terms made known on application at the rooms.

B. F. STAPLES

TEACHER OF PENMANSHIP.

July 2.

Notice.

April 30.

JOHN STRUTHERS, M. D.

GRADUATE OF BELLEVUE HOSPITAL

MEDICAL COLLEGE,

Has opened an Office in KENTVILLE, where he may be consulted.

May 28. 3 m.

THE peculiar taint or infection which we call SCROFULA lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay.

The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generations" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Sarsaparilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of Sarsaparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S

CHERRY PECTORAL.

The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done. Prepared by Dr. J. C. AYER & Co., Lowell, Mass.

Sold by all druggists every where.

COGSWELL & FORSYTH Halifax, wholesale agents for the Province.
