A third instalment of £1,000 sterling for the relief fund was remitted by the last steamer from Nova Scotia.

THE COAL TRADE.—We learn that the export of coal at Sydney Mines, during the past year, exceeds that of 1861 by 14,000 tons. The excess at Pictou has been about 40,000 tons. All the new mines have also exported a proporuonately large quantity .- Reporter.

The Oak Island Treasure-seekers got up a rumor during the past week that the treasure had been found, and we are informed several parties went from Halifax in consequence. It proved, as we doubt not the whole affair will

were shown yesterday a letter from England, from a London fruiterer, asking where he could get some apple trees of the sort that produced up. the "magnificent apples exhibited by the Royal Horticultural Society."

Gold.-The latest returns from Tangier received by a friend from that locality yesterday, are as follow; Twenty-five tons of quartz, taken from Daniel's, Leahy's, and Stayner & Chishom's claims, yielded over 100 ounces. The vield from Daniel's claim, per ton, was 31 and from Stayner & Chisholm's 41 ounces. Some of the specimens from Leahy's lot were not crushed. The above is a remarkably fine seld, and sustains the high character for richness which these claims have always had.

Fulion & Tupper have sunk a shaft 100 feet deep, on the same lead as the above, which is the "Old South Lead," and the quartz taken out at that depth looks most promising. These parties have been most persevering, as their quartz did not pay working expenses until they obtained a depth of about 70 feet. Since then the vein has proved remarkably rich.

Creelman & Co. have reached a depth of '70 condition for skating .- Telegraph. feet,-the quartz obtained by them at that remunerative their labor becomes.

that have been opened.

Very satisfactory accounts have been received from the old back diggings, where gold was first about 35 claims taken up, and the prospects are that that district will become as rich, if not the richest of any yet worked. The difficulty of access to the mines, it will be remembered, was the cause of their being neglected, when first discovered. Fortunately, however, an enterhim, intend working extensively. Arrange- Me. ments have already been made for setting up a crusher with 12 stampers.—Sun.

THE SHIP YARDS .- We understand that great activity prevails in all the ship yards in this Province. The amount of capital used and the number of hands employed in this branch of business must be very large. Between the mouths of April and November of last year, there were launched in Shelburne town-3 barques, measuring 760 tons; 6 brigantines, 786 tons; and 6 schooners, 338 tons. A great many others have been built in different ports of Shelburne county-at Ragged Islands, Sable River and other small places along the shore a number are now on the stocks and being pushed forward to completion .- Liverpool Transcript.

Visiting, Address and Wedding Cards, written equal to the finest copper-plate engraving, 57 Granville-street. Orders by mail promptly marked out and levelled. attended to.

# Newfoundland.

By the arrival of the Merlin on Saturday last, we learn that the Legislature of the Island was to meet on the 28th ult., the day the steamthe week before Christmas.

An accident occurred in the firing of a canon at the celebration of the marriage of T. R. Job, Esq., by which four persons, named Hawkins, Holland, Curtain and Downing, were seriously

## Prince Edward Island.

The Islander, of Jan. 23 gives the following list of members returned at the recent election

Duncan-18. The political party conflict has also been a war of creeds. . But little scruples has been allowed to stand in the way on either side.

Dr. Kaye,

The election for members of the Legislative Council will come off in a few weeks. What may be the result of this experiment in legislation will be tried out on a small scale in the coming session of the Legislature.

#### New Brunswick.

The GREAT NUGGET said to have been found at "the Ovens," by a Mr. Sanburn, a New Brunswicker appears to have been manufactured. The St. John papers inform us that it has been broken, and found to have gold only in crevices on the surface, where it had been placed for the purpose of deception. The Frederickton Reporter however gives a different version OUR APPLES. - The Reporter says, "We of the matter, and intimates that Mr. Sanburn will commence a suit-at-law, against the parties in whose charge he placed it, for breaking it

The St. John Colonial Empire has been suspended, in consequence of pecuniary embarrassments .- Sun.

THE MILITIA.—The names of 85 persons who neglected to enrol their names on the Militia Lists, have been handed to the police. The penalty is \$4 in each case, and summonses will shortly issue for the collection of fines. The names of several leading citizens are among the number.—St. John Courier.

Horseflesh vs. Man on skates. The match between the skater, Mr. Belyea of Long Reach, and the trotting horse "Wolf," came off on the Kennebeccasis, near Austin's, yesterday afternoon. For the first half mile Belyea held held his own, but beyond that distance it was no match, the horse coming in at a gentle trot. Several other skating matches completed the afternoon's sport. There were about 500 persons present. The ice was not in very good

Spurious 20 Cent Pieces .- The public will depth has also proved very rich. This clearly be on their guard against spurious twenty cent proves that the deeper the miners go the more pieces (new Provincial currency,) now in circulation. The weight and colour are quite like The two new leads, tound a short time since the genuine; but the workmanship is bad; one on Strawberry Hill continue very promising, side of the circle, or the margin, is carried in too and are likely eventually to prove as rich as any far, giving it a "lob-sided" appearance. - St. John News.

The Paper Mills of Philips Bros., by whom, discovered in this province. Already there are as a general thing, the publishers of New Brunsby fire on Saturday last. The Mills were situate on the old Loch Lomond Road, about four miles from town.

The St. Andrew's Railway Company, unable to raise money to meet its liabilities, has volunprising German gentleman, Mr. Ellishaus n, tarily "gone into liquidation" with a view of prospecting in that locality, hit upon something selling out, if possible, to another company, so rich that he was induced to take up a lot of which would make this now part of a system of 10 acres, which he, and those associated with railroads connecting with St. John and Calais,

## Canada.

Nine new companies have recently been added to the active militia force of Lower

The London, C. W., Prototype says-" It is rumoured that if the Solicitor General West ascends to the Bench, the Hon. George Brown will succeed him as member for North York. This announcement has caused the greatest consternation in ministerial circles."

ICE BRIDGE AT MONTREAL.—In consequence of the want of communication across the St. Lawrence, there has been great scarcity of provender for horses, hay and straw have been selling for large prices.

The Montreal Gazette of the 19th ult., however says the river is now firmly taken; and the by B. F. Staples, Teacher of Penmanship, No. ice-bridge will undoubtedly be immediately

> The Oil Wells at Enniskillen, in Canada West, have stopped flowing. There is great excitement in consequence.

THE HUDSON'S BAY TERRITORY.—We learn from the Quebec Mercury that negotiations have been opened between the Hudson's Bay Comer left. Severe weather had been experienced pany and the Imperial Government, for the purchase of the Company's Charter. The sum asked by the company is £1,500,000 sterling! Should the purchase be effected, an immense territory will be opened up for colonization.

> BISHOP OF QUEBEC.—From the same paper we learn that a meeting of the Synod of the Church of England, for the Diocese of Quebec, has been called for the 4th day of March, to elect a successor to the deceased Bishop Mountain. The Rev. Dr. Mackie, D. D., is spoken of as likely to be the successful candidate.

The number of buildings erected in Montreal during the year 1862, was 552; and the number for the past eight years 3,278.

ACTON COPPER MINES .-- A very rich ore has just been discovered in the Acton copper mine. At present 150 barrels of ore are daily excavated, and it is proposed to mine 4000 this month. The Company recently paid \$5000 to its workmen; \$3000 of this amount in gold.

## West Indies

The Delta arrived on Friday last from Bermuda, where the weather had been very stormy doing considerable damage to shipping.

The Melpomene, 51, Capt. Ewart, had left for Barbadoes and the cost of Africa, whither she would convey black troops.

An Agriculture Exhibition was shortly to be held, towards which the Legislature had appropriated \$600,
