

THE CHRISTIAN MESSENGER.

General Intelligence.

DOMESTIC.

A FRUIT, CEREAL AND VEGETABLE SHOW was held yesterday in the Rink building at the Horticultural Society's Gardens in this city. It was opened at 2 o'clock in the afternoon. It was visited by a large number of ladies and gentlemen. The land of music, morning and afternoon lent an additional attraction. The fruit and vegetables which took prizes were we understand mostly the same as took the prizes at Kentville.

NOVA SCOTIA PRODUCTIONS.—Two gigantic Babies are on exhibition at Mason Hall, Mary Ann Smith, aged 6 years, weighs 200 pounds, and George Smith, aged 4 years, weighs one hundred and twenty pounds, brother and sister, born in Hants County. They are said to be handsome, active and intelligent.

A GIANTESS.—The Pictou *Chronicle* states that Miss Ann Swan, of New Annan, who is at present on a visit to Pictou, is entitled to the above appellation, as every one will admit who has seen her. She is 17 years of age, is seven feet in height, and weighs 274 lbs. She is accompanied by her mother, who is a woman of ordinary size.

A GANG OF THIEVES.—The police have for some time past been on the lookout for some robbers and have at length discovered a party of ten or twelve, and captured six of them, at a notorious rum-shop called the "Blue Bell." They were tried at the Police Court on Saturday last, and some of the property found upon them and in the house, was identified by the owners. Edward Evans the keeper of the house was sentenced to 180 days, and the other five, John Meagher, Philip Harding, James Thatcher, John Bailey and Daniel Hartt were sentenced to 90 days each in the city prison with hard labor.

James Scott," of that port, where drinking at a house in Canso, and got into a difficulty with some persons who were present; a fight ensued, and one man was knocked down and killed, and another seriously injured. An inquest was held, and the jury returned a verdict of wilful murder aga'inst four of the sailors, who were arrested, and are now confined in jail at Guysboro, awaiting their trial at the ensuing term of the Supreme Court.

The Pictou Standard says a Squash grown in the garden of Colonel Scott, Albion Mines, weighs 97 pounds! When first taken from the vine its weight was 101 pounds.

ANNAPOLENT COUNTY.—The farmers of this fine country have this year had some drawbacks to their usual abundant supplies. The hay crop was injured by the continuous rains; some of it destroyed. Potatoes are almost an entire failure. Apples not so plentiful as last year, but a fine crop, especially of *Nonpareils* and *Russets*. Plums not abundant. Cheese and butter a very good supply. Wheat and other grains plentiful. The root crops promise well.

PIC-NIC.—The 21st Anniversary of the Sons was celebrated in this county by a Pic-Nic at Paradise. At the close of the festivities Mr. John McKeown was called to the Chair, and a number of animated Speeches were given. The speakers were A. Longley, Esq., the G. W. Patriarch; the Rev. Messrs. Willard Parker, G. Armstrong and Robert Morton. The day was fine—the scene of the gathering delightful—and everything passed off agreeably.

EDUCATIONAL.—The editor of the *Free Press* notices a lecture on Common Schools, delivered at Bridgetown by Mr. T. H. Rand, one of the School Inspectors. He says:

"As highly as we have prized similar efforts by Mr. Dawson and the Rev. Dr. Forrester, both men of extraordinary zeal in the cause of Education, and distinguished for platform efficiency, we must say that we never listened to a better practical discourse upon the subject discussed."

The above items were crowded out last week.

The colored man Norton who poisoned his wife was tried at Annapolis last week, found guilty of wilful murder, and the death penalty was pronounced upon him by the Chief Justice, to take effect at such time and place as the Executive may direct. He has confessed his guilt.

John C. Wright, Esq., of West River was preparing his gun for shooting some geese, and by some means the hammer was touched and the gun went off, the contents passing through his body, killing him instantaneously.

New Brunswick.

The *Intelligencer* condemns the York County Agricultural Exhibition, and we think very justly, on account of there being a race course in connexion with it. Many persons our contemporary observes come together on such occasions merely for the purpose of witnessing this feature of the exhibition and for gambling and drunkenness. The editor pronounces a severe judgment on many similar movements and includes in them "Sabbath School picnics with which is mixed games, races, archery, and similar absurdities of immoral tendency." We are sorry to find Sabbath Schools mentioned in such a category, and hope our brother's view is the result of his perceiving the danger rather than drawn from facts. Where a large promiscuous mass of people is drawn together for amusement it is common to see the prevailing characteristics exhibiting themselves. It is for the managers of such movements to take special precautions to prevent such evils. We would not denounce the thing itself on account of the evils surrounding it.

COAL.—Messrs. Stewart and Murdock, the fortunate purchasers of a block of Mr. Inches' lands, are satisfied that they have found a bed of coal, rich in quality and abundant in quantity.

THE REVENUE IN NEW BRUNSWICK.—The Royal *Gazette* contains a comparative statement of the Revenue collected at St. John in the month of September 1862 and 1863:—

	1862.	1863.
Railway Impost,	\$11,267 63	\$8,080 59
Imports, - - - - -	44,153 90	33,577 09
Exports, - - - - -	2,899 15	5,336 90
Bay of Fundy Lights,	827 45	1,431 10
Sick and Dis. Seamen,	264 88	469 40
Cape Race Light, - - -	19 70	39 23
Copy Right Duties, - - -	3 60	8 97
	\$59,435 41	\$48,943 28

From the above table it will be observed that there was a decrease of \$3,187.04 Railway Impost, and \$10,575.91 on Imports while on all other sources of revenue there was an increase. The total increase is \$3,270.28, and the total decrease is \$13,762.25. The falling off in the revenue is \$10,492, which may be accounted for by the loss of the *Pactolus*, which contained a large quantity of goods for merchants. The duties on the packages saved have of course been paid this month.

THE LECTURE SEASON.—His Excellency the Lieut. Governor has declined delivering the opening lecture of the course at the Institute this season, but has signified his willingness to be present at the opening.—*News*.

The owner of the house which was burned was found almost insensible lying on the ground near. It appeared that on being aroused by the fire he had barely escaped with his life.
