TO THE ELECTORS OF THE SOUTH DIS-TRICT OF COLCHESTER.

CENTLEMEN .- Having been unanimously I nominated by a number of the Electors met at Truro, as delegates from the outlying districts, to allow myself to be put in nomination as one of the Representatives of that district, I cheerfully accede, and shall only say I shall be glad if the majority of the Electors shall feel they have confidence in my so acting as will in a general way be for the true interests of the whole Province, and more particularly the people of South Colchester. It is true I am not now a resident among you, yet to many I am well known. My action in life since I left you, and the position I have attained in my adopted city, justify me in hoping that if you confer upon me this honour you will not regret it. I have not the vanity to suppose you have not resident among you those who would use as much energy to serve your interests a I, but I believe I can use such influence and give more time and attention to the interests of your district than most of those who would willingly serve you.

I need not hesitate at once to declare I am what is termed ." Cons routive;" by that term I mean I am ready at all times to conserve the true interests of the Province, -- all matters when brought forward, no matter by whom, shall have my best consideration, and, as far as it may be possible, shall be decided by me on their merits.

I will not be bound to follow any party or leader through thick and thin; I will not be a party to proscription of any kind; I will at all times, so far as my judgment dictates judge and vote upon any question that may come up according to the true interests of the whole Province, without being bound to a party, for I contend the interests of party must give way to the interests of the whole people. I hesitate not to declare that at all times I shall use any influence I might have to put men in office who really are qualified by ability, fitness, and general character for such. no matter by what name they are called, (only equal ability and fitness being considered) I contend that men should be found for the office, and not office for men.

I do not intend to insult Electors by making promises of favours which I could not fulfil; they must, if they elect me, trust me to act on their behalf. I am not going to buy or offer to buy any man's vote, as I believe if they are to be bought they are to be sold, and most assuredly he who will buy them will again sell them when opportunity offers to make up his own money. A wan goes into the market with money to speculate upon, but expects, and in almost all cases does, sell again to the high st bidder. Electors in some of our districts have been bought and sold, but I will not so insult the electors of South Colchester as to offer to buy them. I will leave that to others. If I have the honor to serve them I will be unbought, free and independent. I will do all in my power to assist in developing the resources of the Province, and, as

THE following circular, dated Feb'y, 17th,and furnished to commanding officers for heir information and that of the officers under their ommand, is published by order of the Commander-in-Chief.

Office of Adj. Gen. of Militia, HALIFAX, FEB. 17th, 1863.

Officers commanding Battalions are directed to place floers who have been trained and examined, at the read of their seniority lists, in preference to any applicants who have had opportunity of training, and have neglected the same, without being able to give atisfactory reasons. Officers already holding militia commissions can only be superseded by authority 'rom Head Quarters, on special report of their omisdon to train, made from the officers in command.

PRIZE RIFLE SHOOTING FOR 1863.

HALIFAX, N. S., MAY 11th 1863.

THE Commander-in Chief is pleased to publish the following information respecting the prize iring, which will take place in the autumn of his year :--

The contest will be open to a given number of Miliia Officers of Battalious, and of Volunteers of all anks, from their respective corps.

The British National Rifle Association's Medal will be the principal prize.

There will be no intercolonial contest in this Province in 1863.

The sum of £100 will be thus distributed :-- A purse ? Ten pounds to the winner of the medal; a purse of fen pounds to the second best shot; Ten purses of Five ounds each, to the ten next best shots in order of nerit; Ten purses of Three pounds each, to the next en do.

The above arrangement is made in order to give ompetitors from the more distant parts of the Proince a better chance of covering the whole or a part f their expenses.

Unless otherwise ordered the competition will take place at Truro.

Regulation Allowance of Ball Cartridge,

OFFICE OF A. G. M. HALIFAX, MAY 13, 1863.

THE Commander-in-Chiet of the Nova Scotia Militia observes, that by collating returns of effectives and expenditure of Ball Cartridge, in many instances more than the regular allowance of sixty rounds per man has been expended by the Volunteers. A first issue will be made this year of forty rounds

per effective, according to last returns; but no issue will be made to any corps which has expended an ex-cess until the latter is replaced by their own requisi-

Absentees and unavoidable fractions of kegs will invariably leave an annual surplus, which should be faithfully carried on to the next year; otherwise the over expenditure of ammunition will have to be constantly rectified from Head Quarters. The officers commanding both Militia Regiments and Volunteer corps are requested to be pa ticular that those under their orders conform to the Regulations laid down on this important point, as by not doing so very much trouble and correspondence will be the inevitable re-R.
