B. be detained by the Government. The allegation against them is that they are fitted out for the purpose of carrying on hostilities against the United States. On the other hand, it is contended that they were built by order of a French house for the late Pasha of Egypt, who gave the firm a commission for the coinage of a large sum and Margaret Norris, aged 16 years. of money in France, and for the construction of two steam rams in England. The money was duly coined and received in Egypt. The vessels were in course of constrction when the Pasha died, and his successor repudiated that part of the contract. The accusation is that they are destined for a war with a friendly power. The Charleston Courier makes a timely suggestion in recommending the attention of our government to the naturalization and cultivation of Calisaya, for the health of our soldiers. This article has a peculiar e'fect upon the liver, and guards the system against disease by exposure and irregular diet. It is said that the great success of the Plantation Bitters of Dr. Drake, which, previous to our unhappy difficulties was found in most Southern homes, was owing to the extract of Calisaya Bark which it contained as one of its principal ingredients -"In confirmation of this, we have heard one of our most distinguished physicians remark, that whenever he felt unwell from ordinary dietetic or atmospheric causes, he invariably relieved himself by Plantation Bitters. Now that these Bitters cannot be obtained, a substitute should be prepared .- We understand our government has opened negotiations with Dr. Drake, through a secret agent, but with what truth we do not know." * *

We are exceedingly obliged to the Richmond Whig for its rememberance of "Auld Lang Syne," but we can assure "Our Government" that the Plantation Bitters are not for sale by any "secret agents," North or South. There is probably several other things that

We know that we have the best and most popular medicine in the world. We are not afraid to show what it is composed of.
