CHOLERA!

PERRY DAVIS-SIR:-The benefits I have received from the use of your invaluable remedy, the Pain Killer, induces me to pen a word of praise for it. Ex perience has convinced me that for Headache, Indigestion, Pain in the Stomach, or any other part of the system, Severe Chills Weariness, Common Colds, Hoarseness, CHOLERA, CHOLERA MORBUS, Diarrhoa, Dysentry, Toothache, &c., there is nothing better than the Pain Killer. I have this hour recover ed from a severe attack of the Sick Headache, by useing two tea-spoonfuls taken at thirty minutes interval, in a wine glass ful of bot water. I am confident that, through the blessing of God, it saved me from the cholera during the summer of 1843. Travelling smid heat, dust, toil, change of diet and conetant exposure to an infected atmosphere, my system was daily predisposed to dysentery attacks, accompanied with pain, for which the Pain Killer was a sovereign remedy, one tea poonful curing the worst case in an hour, or at the most, half a day! I have heard of many cases of Dysentry being cured by its use. Put in the teeth it would stop the toothache .- Gratitude, and a desire for its general use, has drawn from me this unsolicited testimonial in its favour.

WOODILL'S WORM LOZENGES.

51.516 Boxes sold in 1863.

THEY are perfectly safe. They act immediately without physic. They are palatable, and are eagerly taken by children, thereby possessing every advantage over the vermifuges now in use, which are so nauseous and troublesome to administer to children. They are warranted to contain nothing that would injure in the slightest degree the youngest or most delicate Infant; so simple is their composition that they may be used as a simple purgative instead of Castor Oil or Powders, &c.

They are made with great care from the purest Medicines, and are especially recommended for their safe and speedy action, freedom from all mercuriot agents, which often prove injurious to children They are prepared without regard to economy, and contain the purest and best vegetable Medicines known. It is a fact that worms cause nearly all the ilis that children are subject to and the symptoms are too often mistaken for those of other complaints,-but, with very little attention, the motner cannot mistake. Amongst the many symptoms of.
