Freeman, and the Messrs. Harris. Every year this enterprising little village adds largely to our Nova Scotia marine. The quality of those Canning vessels are the subject of just commendation among all qualified to judge in such matters. The Elisa Harris was built under the immediate eye of her owner, and also under the supervision of Lloyd's Inspector. Our country may well be proud of such shipping and the enterprise that produces them.—Com.

ANNAPOLIS COUNTY.—The Bridgetown Exhibition was opened on Wednesday last by His Excellency Sir James Hope, at the request of Dr. C. C. Hamilton, the President of the Fruit Growers Association. The Free Press gives the following summary of the opening address of the Admiral:

He said that he was pleased to be present, and witness the evidence that was around him of the country's productiveness, and especially in the fruitgrowing department. The main consideration with fruit growers in this western section of the Province, was a market for their apples, which the parent country amply afforded. He said that the prices of freight on board the Steamers were so high that some other mode of conveying our Nova Scotia apples across the Atlantic must be sought out.—When this continent was discovered, said he, the vessels that were employed in the enterprise were less than fifty tons burthen, and it needed not steamers or ships of the first class for the transportation of our fruit to England. He said that he noticed on his way to this part of the country that the houses of the people were far superior in appearance to those in some other sections of the Province; and that he regarded these comfortable-looking dwellings as significant indications of prosperity and freedom from debt; and he advised every body, as they hoped for success in life, to avoid running into debt.

He said that no doubt the prevalence of prosperity in this part of the country, was in some measure attributable to the prevalence of temperance habits; and while he deemed it useless in most cases to offer advice to persons far advanced in life, he would say to the young before him, to unite with some of the temperance organizations which he had been pleased to learn were in operation in the surrounding country. This observation was received with cheers and applause.

The display of apples is said to have been superior to anything seen before, probably in any part of the world. The editor thus describes them:

"Some of them were green as grass—some were of the deepest crimson—some were tinted with lighter red—some were as yellow as a ripe orange—some were of a brownish grey—while others, like the cheeks of a beautiful maiden suffused with blushes, were delightfully variegated. The department devoted to the dairy, displayed such samples of butter and cheese as have rendered Annapolis famous in this branch of rural economy.

About 4 P. M. His Excellency the Admiral again mounted the platform, and by common consent awarded the medals to the successful competitors. The following is a list of the more prominent prizes:—

Medal Prizes.—Best lot of the following six sorts of Apples, twelve of each sort, viz.: Gravenstein, Yellow Bellflower, Ribston Pippin, Baldwin, Nonpareil, and Rhode Island Greening—Prize Silver Medal—Dr. C. C. Hamilton of Cornwallis.

DON'T LET YOUR CHILDREN SUFFER WITH WORMS! BUT USE WOODILL'S WORM LOZENGES. 51,516 Boxes sold in 1863.

THEY are perfectly safe. They act immediately without physic. They are palatable, and are eagerly taken by children, thereby possessing every advantage over the vermifuges now in use, which are so nauseous and troublesome to administer to children. They are warranted to contain nothing that would injure in the slightest degree the youngest or most delicate infant; so simple is their composition that they may be used as a simple purgative instead of Castor Oil or Powders, &c.

They are made with great care from the purest Medicines, and are especially recommended for their safe and speedy action, freedom from all mercurial agents, which often prove injurious to children. They are prepared without regard to economy, and contain the purest and best vegetable Medicines known. It is a fact that worms cause nearly all the ill that children are subject to, and the symptoms are too often mistaken for those of other complaints,—but, with very little attention, the mother cannot mistake. Amongst the many symptoms of,

WORMS IN CHILDREN. are the following: A pale, and occasionally flushed, countenance; dull, heavy eyes; irritated, swollen, and often bleeding nose; headache, slimy and farred tongue; foul breath; variable, and sometimes almost voracious, appetite; vomiting, costiveness, uneasy and disturbed sleep, and many more; but whenever the above are noticed in children, the cause invariably is WORMS, and the remedy—WOODILL'S WORM LOZENGES. A cure is certain in every case, when a faithful trial is given.

The following medical authority is worthy of attention: "Having examined the prescription from which Woodill's Worm Lozenges are prepared, I can state that they contain the most wholesome ingredients. I can also certify that they are efficacious, having used them in my practice. (Signed) HENRY B. FORMAN, M. D., Surgeon. DANSMOUTH, October 28th, 1861.

"I hereby certify that I have made use of Woodill's Worm Lozenges in my treatment of worm cases with much satisfaction to myself and patients; and having examined the prescription from which they are made. I am enabled to testify that they are perfectly safe and efficacious, and hereby cheerfully recommend them to the public. T. B. DESBRISAY, M. D.

Hundreds of certificates of their efficacy have been received. Ask for WOODILL'S WORM LOZENGES, to be had at the City Drug Store, Halifax, and from dealers in Medicine generally throughout the Province. A. H. WOODILL, Successor to JAS. L. WOODILL, 151 Hollis Street.

AYER'S PILLS.

ARE you sick, feeble and complaining? Are you out of order with your system deranged and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and deranges its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering and derangement. While in this condition, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this revival and common complaint is also true in many of the deep seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly and many of them surely cured by the same means. None who know the virtue of these Pills will neglect to employ them when suffering from the disorders they cure, such as Headache, Foul Stomach, Dysentery, Bilious Complaints, Indigestion, Derangement of the Liver, Costiveness, Constipation, Heartburn, Rheumatism, Dropsy, Worms and Suppression, when taken in large doses.

They are Sugar Coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.

Ayer's Ague Cure.

For the speedy and certain Cure of Intermittent Fever, or Chills and Fever, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Pyrexia; indeed, for the whole class of diseases originating in bilious derangement, caused by the malaria of miasmatic countries. This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines, that it subdues the complaint without injury to the patient. It contains no quinine or other deleterious substance, nor does it produce quinine or any injurious effect whatever. Shaking brothers of the same way and the west, try it and you will endorse these assertions. Prepared by J. C. AYER & Co., Lowell, Mass., and sold by Druggists and Agents everywhere. Sold at wholesale and retail by Avery, Brown & Co., Halifax, N. S.; Geo. A. Hayward, St. John, N. B.; W. R. Watson, Charlottetown, P. E. I. Sept. 7. 2 mths.
