They are palatable, and are eagerly taken by children, thereby possessing every advantage over the vermifuges now in use, which are so nauseous and troublesome to adminisier to children. They are warranted to contain nothing that would injure in the slightest degree the youngest or most delicate lufant; so simple is their composition that they may be used as a simple purgative instead of Castor Oil or Powders, &c.

They are made with great care from the purest

Medicines, and are especially recommended for their Medicines, and are especially recommended for their safe and speedy action, freedom from all mercurial agents, which often prove injurious to children.
