[From the Richmond Whig.]

The Charleston Courier makes a timely suggestion. in recommending the attention of our government to | in eight or ten other Drug Stores here the naturalization and cultivation of Calisaya, for the health of our soldiers. This article has a peculiar e fect upon the liver, and guards the system against disease by exposure and irregular diet. It is said that the great success of the Plantation Bitters of Dr. Drake, which, previous to our unhappy difficulties was found in most Southern homes, was owing to the extract of Calisaya Bark which it contained as one of its principal ingredients -"In confirmation of this, we have heard one of our most distinguished physicians remark, that whenever he felt unwell from ordinary dietetie or atmospheric causes, he invariably relieved himself by Plantation Bitters. Now that | that I believe it to be one of the best Medicines of the these Bitters cannot be obtained, a substitute should be prepared .- We understand our government has opened negotiations with Dr. Drake, through a secret agent, but with what truth we do not know." . We are exceedingly obliged to the Richmond Whig for its rememberance of "Auld Lang Syne," but we can assure "Our Government" that the Plantation Bitters are not for sale by any "secret agents," North or South. There is probably several other things that " Our Government" will yet want.
