Cabinet The AND WHAT IT IS.

The grand old Organ that has for centuries filled Church, Palace, and Cathedral with its colossal harted by religious assemblies, and 'tts almost universal introduction into the churches has been prevented only by its great cost. This obstacle is now removed by the process of invention, improvement, and perfection, as applied to the Melodson and Harmonium, and we have the result in an instrument which, considering its bulk and cost, is

A MUSICAL WONDER.

The Cabiner Organ, perfected and patented by Mason & Hamlin, of Boston, has now been before the public but two years, and yet such are its unequaled qualities that it has found its way into

CHURCH, SCHOOL, AND FAMILY, in all parts of our country. The Art Critic of the New York Tribune says of it in his department: "It has been blown by the wind of genuine success from Boston to San Francisco. . . That M. & H. have succeeded in making a better small instrument than any other-from little bandbox-like things to these which, though portable and not larger than a piano, can make themselves felt in a church-is the universal opinion of the mu ical profession. They agree that no such mechanica! works of the kind can be found in equal perfect on in Europe. The tone is pure and full, and with an immense body for so small a provocative mechanical force. They stand rough traveling, bad usage, and will live in climates which kill American missionaries."

The Rev. Dr PKIME, the well-known editor of the New York Observer, in his editorial correspondence, speaking of the insufficiency of the Melodeon to take the place of the Pipe Organ, says: "But the want is fully met by the Cabinet Organ. With your eyes shut you cannot distinguish its sound from that of the Pipe Organ itself. It is admirably adapted to the performance of shored music, psalm tunes, anthems, chants, &c., and it is a grand accompaniment when the congregation sings, and is just the instrument that ought to be used in all churches where the people all wish to have the privilege of bearing a part in the

200 Organists and Pianists.

the most eminent of their profession in the country, have given written testimony to the superiority of these instruments over all others of their class. The Cabinet Organ is, in brief, commending it.elf to musicians and to the people everywhere. Its great power, its purity and sweetness of tone, and its scope of expression, added to its durability and complete construction, cannot fail to make it a universal favori'e. Such is the degree of perfection to which the instrument has been brought, that it is alike suited to the purposes of churches, halls, schools, and private parlors, and is admirably adapted to both

SACRED AND SECULAR MUSIC, and it is believed that it will bear no unimportant part in educating and establishing a popular and

correct musical taste wherever it goes. Pastors, teachers, parents, and all who are interested in the selection of the best instruments, are requested to send for our descriptive circular of the Cabinet Organ. We also invite the most critical ex-

amination of our instruments. Nov. 16. MASON & HAMLIN, Boston.
