

A black bear, weighing 215 lbs., was captured in a trap, a few days ago, in a corn field of Mr. Alex. McPherson, 5th concession of Williamsburg. He made for the woods with the trap, and, after a few hours' hunt, was shot by Mr. Sidney E. Weargar.

Canadian journals are agitating the subject of a grand Provincial Exhibition, in which the two Canadas shall unite in offering \$20,000 in premiums, and challenging New York State to enter the lists in competition therefor.

HARD, BUT JUST.—A young man of Ontario county slipped over the lines to avoid the draft. He was drawn, however, and hearing of the fact, attempted to get a substitute in Canada, and was about succeeding, when he was taken by the authorities, tried, found guilty, and sentenced to eighteen years' imprisonment.

GAME.—During the afternoon of Thursday and the forenoon of Friday last, a gentleman of Montreal killed, near Quebec, 43 couples of English snipes, two wild geese, six black-breasted and two godwit plovers.

It was announced by telegraph a few days ago, that Sir Richard Graves McDonald and lady lost their baggage at Montreal by the burning of the steamer Alexandra in the Beauharnois Canal. The Alexandra was an American boat, from Ogdensburg. The fire originated from an explosion of coal oil while trimming the lamps about 6 o'clock on the evening of the 27th ult. The flames spread with such rapidity, that the passengers, twenty-nine in number, among whom were our Lieutenant Governor and lady, were saved with difficulty. Lady McDonald lost all her jewelry.—*Citizen.*

During their stay at Montreal, Sir Richard and Lady MacDonnell and a number of delegates and ladies were furnished with a special train, and accompanied by Messrs. Brydges and Hickson through the Victoria Bridge. At the middle tube the train was stopped and the work examined, and a beautiful view of the city obtained, some of the delegates clambering to the top of the tube to get the best view.

A JUDGE IN A ROW.—Mr. Justice Morrison and the Hon. J. H. Cameron were returning to Toronto from attending the Coburg assizes, in the eight-trains of the Grand Trunk railway. Being annoyed by an insane person they went into the sleeping car. They had not been there long before the conductor came along and asked them to show their tickets. They were produced, but did not satisfy that official, as he demanded tickets for the sleeping-car. Mr. Cameron explained the cause of their presence in the car, and also the position of himself and companion. The conductor would take no excuse, and proceeded with the assistance of two or three brakemen to eject them from the car. Mr. Cameron was collared first by his assailants, and a fight ensued. One of the men caught him by the collar of the coat behind and tore it straight down the back; another man caught him by the shirt-bosom, and denuded him in front, accompanying the attack with sundry heavy blows and scratches. In the meantime another stalwart fellow was attending to the Judge, who held on to the back of a seat, and received a cuffing with as much composure as was possible under the circumstances. Mr. Cameron managed to back into a corner after the tussle, and then told his assailants that he had submitted to an unprovoked assault without returning any violence; but that they must take fair warning that he would knock the brains out of the next man who attempted to lay hands upon either himself or Judge Morrison. This intimation had the effect of causing the conductor and his companions to withdraw from the gentlemen they had so violently assaulted. Upon arriving at Toronto, a statement of the affair was laid before the railway authorities. In case Mr. Cameron fails to receive satisfaction from the authorities of the road, he intends bringing it before another tribunal.

FRANCE AND ITALY.

The text of the Franco-Italian Convention, which was published in the *Moniteur* last week, precisely bears out the anticipations of its character furnished by the French and Continental journals generally. France will evacuate Rome in two years, provided Italy changes her capital, does not attack the Papal territory, nor allow any other Power to invade it. The Pope will be permitted to raise a force sufficiently powerful to protect him, "even composed of foreign Catholic volunteers." A protocol is affixed to the Convention, by which a few of the details are slightly modified. By the protocol, the six months allowed for the transfer of the capital, and the two years for the evacuation of Rome, date from the approval of the Italian Parliament to the arrangement, instead of from the ratification of the Convention of September 15th. The full arrangement excites apprehension on the Continent, and at present it is the prominent subject of discussion. The Pope is reported to have said in the presence of visitors that prudence was necessary, but that it was idle to hope that the Holy see could treat with the Kingdom of Italy.

GERMANY AND DENMARK.

At the sitting of the Vienna Conference, the Danish plenipotentiaries are said to have made a fresh proposition, which, it is hoped, will settle the difficulty between the German allied Powers and Denmark. It is on the boundary and financial questions where the negotiations stick. The *Berlingske Tidende* the official organ in Copenhagen, asserts that Denmark has never obstructed the peace negotiations. She asked for North Slesvig as essential to her interests; but the financial demands of the allies are said to have been exorbitant, and certainly not in conformity with the preliminaries of peace. A letter from Berlin, dated the 3rd inst., says there is a great coolness between Prussia and Austria, and the negotiations are thereby seriously threatened. Prussia, it is said, is alarmed, and if a Congress were now proposed, she would probably eagerly accept it.

The *Berlingske Tidende* of October 4, contains a very distressing account of the hardships to which the people of Jutland are subjected by the army of occupation.

COPENHAGEN, Oct. 10, 10 4 P. M.—*Fædrelandet* of to-day says:—The conclusion of peace is near at hand, Denmark having consented to fix at a round sum of nine millions of rigsdalers, the share which the Duchies are to have in the public property of Denmark. This amount is consequently to be deducted from the portion of the Danish public debt which it had been arranged should fall to the charge of the Duchies.

ITALY.

The municipality of Turin, in its zealous care of the metropolitan privilege of the city, has taken up a very equivocal line of conduct. It has held meetings, passed resolutions, and issued proclamations which are, to say the least, not calculated to calm the public mind. The Government has determined to put a stop to these proceedings, and to require the municipal authorities of Turin to keep within their own province. When the news of the Convention first reached Turin, the clerical papers were struck dumb. For some time afterwards they hesitated to express any strong opinion, but followed closely the line of policy pursued by Cardinal Antonelli towards the French Ambassador at Rome. They have, however, suddenly opened fire, and that with a decision of aim which shows that both they and Cardinal Antonelli have now fully made up their minds on the subject. They abuse the Emperor Napoleon with a vigour altogether clerical.

AYER'S PILLS.

ARE you sick, feeble and complaining? Are you out of order with your system deranged and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take

Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and deranges its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering and derangement. While in this condition, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this revival and common complaint is also true in many of the deep seated and dangerous derangements. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly and many of them surely cured by the same means. None who know the virtue of these Pills will neglect to employ them when suffering from the disorders they cure, such as Headache, Foul Stomach, Dysentery, Bilious Complaints, Indigestion, Derangement of the Liver, Constipation, Constipation, Heartburn, Rheumatism, Dropsy, Worms and Suppression, when taken in large doses.

They are Sugar Coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.

Ayer's Ague Cure,

For the speedy and certain Cure of Intermittent Fever, or Chills and Fever, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers; indeed, for the whole class of diseases originating in bilious derangement, caused by the malaria of miasmatic countries.

This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines, that it subdues the complaint without injury to the patient. It contains no quinine or other deleterious substance, nor does it produce quinsism or any injurious effect whatever. Shaking brothers of the army and the west, try it and you will endorse these assertions.

Prepared by J. C. AYER & Co., Lowell, Mass., and sold by Druggists and Agents everywhere. Sold at wholesale and retail by Ayer, Brown & Co., Halifax, N. S.; Geo. A. Bayard, St. John, N. B.; W. R. Watson, Charlottetown, P. E. I.

DON'T LET YOUR CHILDREN SUFFER WITH WORMS!

BUT USE **WOODILL'S WORM LOZENGES.**

51,516 Boxes sold in 1863.

THEY are perfectly safe. They act immediately without physic. They are palatable, and are eagerly taken by children, thereby possessing every advantage over the vermifuge now in use, which are so nauseous and troublesome to administer to children. They are warranted to contain nothing that would injure in the slightest degree the youngest or most delicate infant; so simple is their composition that they may be used as a simple purgative instead of Castor Oil or Powders, &c.

They are made with great care from the purest Medicines, and are especially recommended for their safe and speedy action, freedom from all mercurial agents, which often prove injurious to children. They are prepared without regard to economy, and contain the purest and best vegetable Medicines known. It is a fact that worms cause nearly all the ills that children are subject to, and the symptoms are too often mistaken for those of other complaints,—but, with very little attention, the mother cannot mistake. Amongst the many symptoms of

WORMS IN CHILDREN.

are the following: A pale, and occasionally flushed, countenance; dull, heavy eyes; irritated, swollen, and often bleeding nose; headache, slimy and furred tongue; foul breath; variable, and sometimes, almost voracious, appetite; vomiting, costiveness, uneasy and disturbed sleep, and many more; but whenever the above are noticed in children, the cause invariably is WORMS, and the remedy—WOODILL'S WORM LOZENGES. A cure is certain in every case, when a faithful trial is given.

The following medical authority is worthy of attention:— "Having examined the prescription from which Woodill's Worm Lozenges are prepared, I can state that they contain the most wholesome ingredients. I can also certify that they are efficacious, having used them in my practice."

(Signed) HENRY B. FORMAN, M. D., Surgeon.

Halifax, February 9, 1860.

DARBYNOTON, October 28th, 1861.

"I hereby certify that I have made use of Woodill's Worm Lozenges in my treatment of worm cases with much satisfaction to myself and patients; and having examined the prescription from which they are made, I am enabled to testify that they are perfectly safe and efficacious, and hereby cheerfully recommend them to the public."
