

great ravages in Egypt, and at Constantinople, and had at the latest accounts reached Marseilles, the great seaport of the South of France, is creating much alarm throughout Europe. Every precaution is being taken in England to avert, if possible, by sanitary regulations, the threatened plague.

By latest accounts from New Zealand it would appear that the war with the Natives is at an end—the principal native Chief, who headed the insurrection, having surrendered.

The Great Dublin Exhibition has gone off with much eclat. The Contributions from Nova Scotia are said to have attracted a very fair share of public attention.

By the arrival of the *Peruvian* at Father Point on Monday we have dates to the 25th. We learn that the Atlantic Telegraph Company have resolved to lay a new cable in June next, and pick up the old one.

The rebel agent Mason had stated through the *Times*, that orders had been forwarded to stop the *Shenandoah* cruiser on the termination of the war.

The cattle plague still continued in England. The Fenians in Ireland are represented to be very active.

The cholera was disappearing from Constantinople, Gibraltar, and Valencia.

The reported passage of a vessel through Suez Canal, was remarked as a small affair. Great preparations are making at Portsmouth to give a fitting reception to the French fleet. Grand banquets, balls, military parades and illuminations, are in the programme.

Breadstuffs continued firm, with little change in price. Provisions quiet, but firm. Consols 89 1/2 a 89 3/4. U. S. five twenties 60 a 60 1/2.

Weather in England was more favorable to harvesting.

The North Baptist Church of this City have we understand accepted the resignation of the Rev. A. Munro, its present Pastor, and extended a call to the Rev. R. J. Langridge recently from Canada, at present in the service of the Home Mission, and who has accepted the same, providing the Missionary Board releases him from his present engagement. In that case he is expected to enter upon his new field of labour in this City on the first of October ensuing.—Com.

Notices, &c.

Annapolis Co. Ministerial Conference
Will meet at Pine Grove, Wilmot, on Tuesday the 12th of Sept., at 9 o'clock, A. M. Preaching at Middletown Hall, on Monday evening, at 7 o'clock. W. H. PORTER, Secretary of the Conference.

Western Home Missionary Board.

Letters Received.

Rev. Dr. Tupper, 28th, \$4, and 1st.—The person does not live in Halifax. Have written him. Rev. R. J. Langridge. Rev. D. Freeman. Rev. E. M. Saunders. Rev. W. H. Porter, 31. Dr. Whitman.—That will be all right. Rev. Jas. Parker—forwarded to Sec'y.

LATEST FROM THE STATES.

[From Telegrams to Associated Press.]

TUESDAY, August 29.—A collision occurred on the Long Island Railroad yesterday morning by which five persons were killed.

Evening.—The Tribune's Brownsville (Tex.) correspondence says Senor Robles, the Mexican Minister of Public Works, crossed the river on the 5th inst., and took dinner with General Steele. Among the guests were Generals Weitzel and Draper.

General Ortega and Rimero are said to be on their way to Brownsville. The visit of these distinguished officials was construed to point to some movement on the Rio Grande.

WEDNESDAY, Aug. 30.—President Johnson has issued a proclamation removing all restrictions on trade in articles, which were known during the war as contraband.

THURSDAY, Aug. 31.—Advices from the Mexican border to the 19th inst., represent a curious fraternal state of affairs between our Generals on the Rio Grande and certain dignitaries of Maximilian's Government, who, it seems, have been hob-nobbing together, and treating each other in true convivial style and our Generals are reported as expressing friendship for the Emperor.

FRIDAY, Sept. 1.—The United States steamers *Saranac* and *Suwanee*, have sailed from British Columbia in search of the *Shenandoah*.

A Washington despatch says that President Johnson has determined to restore the writ of Habeas Corpus in a short time.

The receipts from the Internal Revenue yesterday, amounted to over two millions of dollars.

Evening.—The *Times'* special Washington despatch says both the President and the Secretary of War are in favor of the trial of Jefferson Davis by a civil tribunal, and the President thinks Knoxville the proper place, as Davis committed an act of treason in that State by inciting insurrection in a speech to his army.

The Herald's Kingston, Ja., correspondent says the headway the revolutionists are making in Hayti has induced President Geffard to make preparations for his escape from that country.

SATURDAY, Sept. 2.—The *Post's* special Washington despatch says orders have been issued to muster out thirty more regiments of infantry, cavalry and artillery.

The *Post* publishes a letter from Capt. Anderson of the S. S. Great Eastern concerning the failure to lay the Atlantic Cable. He says he was at first a doubter, but seeing the means adopted he became hopeful, then with actual experience he has become sanguine. He then briefly details his experience which has already been made public, and earnestly urges a new trial, first in laying a new Cable with additional machinery, and then picking up the old one.

Texas papers counsel unreserved loyalty to the old Government. Accounts of terrible atrocities by Indians on the borders are given, Gen. Merritt is using his cavalry. Gold 144.

SARATOGA is being more numerous attended by visitors than ever before. It is stated that during one morning recently nine thousand glasses of water were dipped from the Congress Spring.

At the recent Temperance Convention held at Saratoga it was stated that the names of thirteen hundred rich men's daughters in New York are on the list of applicants for admission to the Asylum for Inebriates at Birmingham, in that State.

A lady at the Saratoga races wore \$58,000 worth of diamonds in her hair. Her husband hired a policeman to watch her against thieves.

An experiment has been made on the New York Central Railroad for running a locomotive with peat for fuel. The result was very satisfactory, showing that 2800 pounds of peat will run a locomotive and train about 175 miles.

PRESIDENT JOHNSON.—The German Punch, edited in Berlin, published a coat of arms, drawn for President Johnson. It consists in a pair of open scissors: between the lower part is a tailor's goose, and between the upper parts a thimble, surrounded by balls of thread for cannon balls. And in the places of flags and flag-staffs, the scissors are surrounded with yardsticks, on which are hanging coats and pantaloons. The whole rests on a platform, decorated with American drapery and a shield, bearing the motto: "I shall mend the torn Union."

There are fewer marriages by one-third in New York than there were twenty-five years ago. Women must be content to live so that men can afford to marry.

LATEST FROM EUROPE.

ITALY.

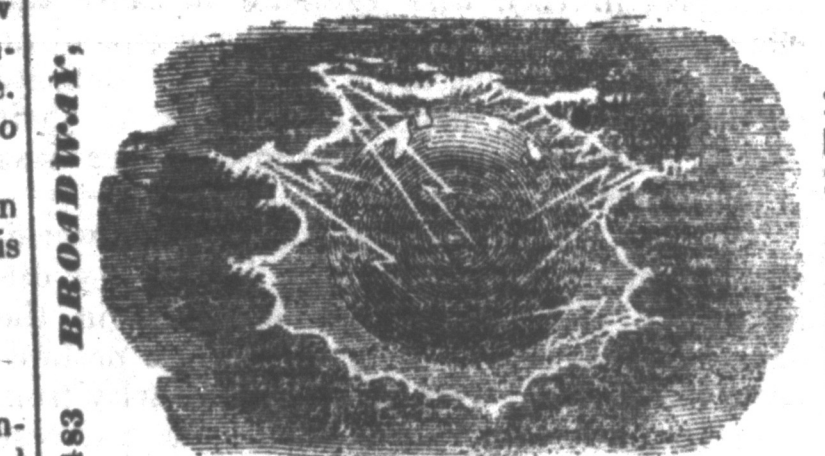

According to the *Epoca* of Madrid, the Spanish Government has made it "all right" with the Papal authorities, touching the recognition of the kingdom of Italy by Spain. The negotiations on this point have been brought to a satisfactory conclusion, the O'Donnell Cabinet promising "to protect the Pope and the interests of religion in Spain."

MISCELLANEOUS.

THE CIGAR SHIP.—A marine novelty begun long ago, and from its shape, named the Cigar Ship, is to be launched, we are now assured, by the end of October. It is a long cylinder with extremely fine pointed ends; its length is 256 feet, and the diameter of the cylinder not more than 16 feet at the largest part. This is a proportion of one sixteenth of the length; while that of one seventh of the length, is thought a narrow width for an ordinary vessel. This ship is built with the first quality of iron, made perfectly smooth outside; even the touch cannot detect a joint. Its steam power is enormous. The hull is so fine at the extremities that 16 feet of it at each end has to be united with, and revolved with a screw shaft from each end. There are, therefore, two screws and two rudders, and by the use of both, the vessel can turn as on a pivot. The outside deck is a small kind of flat-topped cover for 130 feet of the cylinder, 10 1/2 feet broad; as she is expected to dash through the water at some yet unheard of speed, if the waves were at all high, one might expect they would sweep the low little deck from one end

to the other. The proprietor, Mr. WYNAN, is an American, and the idea of the vessel is his own. Should it realize the speed he hopes to attain, we may find the Cigar Ship some compensation for the want of an Atlantic telegraph.

A FREAK, AND WHAT CAME OF IT.—A larking young English nobleman, serving as midshipman in the Royal navy, lately carried his love of pranks so far as to get not only himself but his Government into difficulty. While his ship was at Honolulu, after using up nearly all the dissipations of the place, he and his companions could not resist the temptation of capturing the emblem of America, the eagle that spread its wings over the gateway of the United States Legation. This they removed from its position, sewed it up in a bag, and took it on board the ship, with the intent, no doubt, of carrying the trophy to England. But the perpetrators of the sacrilegious theft were discovered, and the outraged dignity of Americans satisfied by an ample reparation. The noble lord was constrained to replace, hammer in hand and in broad daylight, in the presence of the indignant but amused American residents, the bird he had so wantonly removed from its proud and inviolable position, and afterwards offer a humble apology to our consul as well as to his own commissioner. But even this did not satisfy Mr. Seward, and Earl Russell has apologised, in the name of his Government, for the wild young fellow's freak. "Laud Charles," the hero or the above, is said to be a nephew of the Marquis of Waterford, who made himself notorious in New York some years ago, by means of several midnight adventures of an interesting nature, it being his passion to prow around in the dark, smashing windows, wringing off door-knockers, and breaking things generally. Evidently, "blood is blood."—American Paper.

DR. JEROME KIDDER'S FIRST PREMIUM, VITALIZING, GENUINE SIX-CURRENT ELECTRO-MEDICAL APPARATUS.

It is most perfect in its construction, and the simplest in its operation of any ever made. The HIGHEST PREMIUM was awarded this machine at the late fair of the American Institute, also at the fair of the Franklin Institute, Syracuse, over all others in competition with it, and the same has been awarded it wherever it has been exhibited in competition. This machine is the one now used by the electricians of New York and elsewhere.

It is performing the most wonderful cures and has never been known to produce any unfavourable results,—for this reason it should be in every family in the land.

CURES.

Mr. H. Lehmann, Croton Flour Mills, New York, had for eight years a swelling of the knee, which was called white swelling, and two out of three physicians who had been consulted had advised amputation. He suffered severely, and had to lose from five to six days in stormy weather. He was advised a trial of electricity, and he was cured by four applications of Dr. Jerome Kidder's Electro-Magnetic Machine.

Mrs. Wilber, Green Island, foot badly bruised, swollen, could not walk. A few minutes' application of the current reduced the swelling, and took the soreness away.

M. Colburn, New York, afflicted for twenty years with rheumatism. For three and a half years could not walk, came near losing the use of his leg from paralysis, was perfectly cured by the use of this apparatus.

"NEW YORK, February 7, 1865.

"I would say that my wife has been fully cured of dyspepsia and general debility by the use of electricity from one of Dr. Jerome Kidder's machines.

"E. SEELY, 55 Pike Street."

Case in Bellevue Hospital; a German pianist, severely burned in both hands, outside nearly all destroyed, pain excessive, and nervous system much excited. One application removed the pain and quieted his system, and he was well in a few days.

James Sanders, Schoenectady, N. Y., afflicted with severe dyspepsia, and was entirely cured by this machine.

A. Malison, Pittsfield, Mass, case of severe paralysis, he was entirely restored by its use.

A. J. Steele, Chicago, Ill., severe case of sciatica, right leg almost paralyzed. He says: "I heard of your machine, purchased one, and the result is a cure by my own use of it."

A. Roe, 27 Park Place, New York, suffered greatly from neuralgic rheumatism for five years, and could not walk; he could get no relief, and despaired of a cure till he used this apparatus, which cured him in one month.

February 13, 1865.

S. C. Mack, Skillman Street, near De Kalb Avenue, East Brooklyn, says: "Last summer I was afflicted with dyspepsia, could eat but very little, and suffered greatly from nervous debility; was very much emaciated; could not sleep nights; had cold sweats succeeded by flashes of heat; my skin was a pale yellow. I had been under the treatment of four different physicians, and could get no relief whatever till I was advised by Dr. Palmer, of Brooklyn, to purchase one of your electro-magnetic machines as my only means of cure. I did so, and found great relief in a few applications. I continued its use, and in four or five weeks recovered my health by its means.

Machines of various sizes and prices, for portability, and for office and family uses.

CAUTION.—We learn that there have been machines put forward with the name Kidder on them, which are not our machines. The genuine have on them our name in full, and also the patent label.

Address DR. JEROME KIDDER, 483 Broadway, New York.

WOODILL'S GLYCERINE LOTION, FOR BEAUTIFYING THE COMPLEXION AND REMOVING ALL

Tan, Pimples, and Freckles. for Shaving, for Chilblains, and for all ERUPTIONS OF THE SKIN, and acts as a charm in preventing and curing CHAPPED HANDS.

This lotion is perfectly free from anything injurious, and may be used freely on the most delicate infant.

The only genuine is prepared by WOODILL BROTHERS, City Drug Store.

Farm for Sale.

TO be sold at private sale, a FARM with a HOUSE, and BARN, and other OUT-HOUSES, FIFTEEN ACRES more or less of good cultivated up land. And ONE HUNDRED ACRES of Wood and Pasture Land, and about fifteen acres of Beach land, six of which are under good cultivation. The remainder is meadow land, and is a good stand for obtaining sea manure at all times. Also twenty-five acres of Dyke Marsh. There is a convenient place for fishing, fresh fish may be caught winter and summer the whole season round. Parties can take their produce off either by land or by water.

For further particulars apply to JOHN LLOYD, at Lawrence Town; fourteen miles east of Halifax. May 24. 3 mths.

CHILDREN TEETHING

MRS. WINSLOW,

An experienced Nurse and Female Physician, presents to the attention of mothers, her

SOOTHING SYRUP, For Children Teething.

which greatly facilitates the process of teething, by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is

SURE TO REGULATE THE BOWELS, Depend upon it, mothers, it will give rest to yourselves, and

RELIEF & HEALTH TO YOUR INFANTS.

We have put up and sold this article for over thirty years, and CAN SAY, IN CONFIDENCE AND TRUTH of it, what we have never been able to say of any other medicine—NEVER HAS IT FAILED, IN A SINGLE INSTANCE, TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of highest commendation of its magical effects and medical virtues. We speak in this matter "WHAT WE DO KNOW," after thirty years' experience, AND PLEDGE OUR REPUTATION FOR THE FULFILLMENT OF WHAT WE HERE DECLARE. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the most EXPERIENCED and SKILFUL NURSES in New England, and has been used with NEVER FAILING SUCCESS.

Thousands of Cases.

It not only relieves the child from pain but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve

CRIPING IN THE BOWELS, AND WIND COLIC,

and overcome convulsions, which, if not speedily remedied, end in death. We believe it the BEST AND SUREST REMEDY IN THE WORLD, in all cases of DYSENTERY AND DIARRHOEA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—DO NOT LET YOUR PREJUDICES, NOR THE PREJUDICES OF OTHERS, stand between your suffering child and the relief that will be SURE—YES, ABSOLUTELY SURE—to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper.

Sold by Druggists throughout the world. Principal Office, No. 48 Bay Street, N. Y. Price, only 35 Cents per Bottle.

Aug. 16. 1yr.

MR. WILLIAM A. JOHNSTON, ATTORNEY AND BARRISTER AT LAW, NOTARY PUBLIC, ETC., Has resumed the practice of his profession in Halifax.

OFFICE—SOMERSET BUILDINGS, 25 PRINCE STREET. Opposite the South Side of Province Building. Dec. 14.

W. E. HEFFERNAN'S FURNITURE HALL, Prince Street, near Fuel Yard.

ALWAYS ON HAND, A LARGE ASSORTMENT OF PARLOR & BED ROOM FURNITURE.

Also, Mattresses of all kinds, Feathers, Looking Glasses, Iron Bedsteads, &c., &c., selling at the lowest prices.

W. E. HEFFERNAN, April 27. 1yr.
