very great regret, that our brother, Rev. G. M. W. Carey, closes his pastoral labora with the Queen street Baptist church St. Catharines, on the first week in December next. A His relationship with his people has been a protracted and prosperous one, embracing, on the first of December, a period of ten years. From this statement, it will be seen, that Bre. Carey has not been much "given to change;" and, for a comparatively young man, has occupied successfully a responsible field of labor for more than the usual period allotted to ministers generally. Bro. C. has accepted the unanimous call extended by the Germain street Baptist church, of St. John, N. B. The loss will be felt among us but as his path of duty seems to be indicated in the eastward direction, we trust that the change of sphere of labor will be attended with increased spiritual benefit to himself personally, and fruitful results to the church over which he is soon to take the pastoral oversight.

We could mention quite a number of names of subscribers from whom we should be glad to receive a similar communication and remittance. Kind reader. Do you wish to know to whom we refer? The centre of its organization, and where its objects are openly declared, is in the United States, where it would appear that almost the whole of the Irish population are enlisted under its beaners, and public meetings are neid, wehement harangues delivered, and contributions of funds are made without check and the expenses of mailing and postage, but rather than have our young friends deprived of their paper. tributions of funds are made without check invasion and capturing of Ireland by an Irish de and willing to supply it to them when paid for very large stock of Over and Under Coats, Banta fleet and army from America, and erecting strictly in advance. The facts of the case denot tailed in the advertisement are placed beyond dis-pute by the certificate of the High Sheriff of Cam-berland, and ten of the most respectable and well known citizens of Amherst, so that there is nothing a of mere puffing about it, but a truthful statement that ought to be laid before sufferers afflicted as young Copeland was. Gentiemen, - Permit me to add my testimotry to the great value of your preparation; and any person, w reading the following account of a cure effected by it upon my son will not dispute my right to do so. He first fell upon a fork handle in the barn, and hurt his leg a fittle below the knee; he subsequently took cold, when it liegan to swell and pain him very much. It soon ulcerated near were it was hurt, and continued to disharge freely, antil the calf of his leg seemed to be one mass of corruption. His foot and knee swelled very much, and when we commenced with your medicine was very much inflamed and was evidently apon the eve of mortification. The

pain and suffering he endured no pen can describe. He grew weaker daily. Nothing that medical skill and faithful attendance could accomplish was omitt ed; still he gradually sank, until there seemed but little hope of saving either his life or limb. As a last effort the doctors decided to amputate the leg. This was to have been done the next day, but just at this critical point a kind friend advised me to try your medicine. I concluded to do so, and the leg at once began to improve, and is now well. He Chlor, is the bytesen, bet to which tonds on sond
