MASON & HAMLIN'S CABINET ORGANS May be obtained at the Halifax Agency 59 Granville Street, at lower rates than in Boston, exclusive of Duty. NO CHARGE FOR FREIGHT FROM BOSTON. As an instrument for smaller churches, Sunday schools, Day schools, Temperance Halls, District Rooms, lodges and similar uses, the Cabinet Organ stands confessedly without a rival. For all sacred music and the accompaniment of voices, its power of sustaining tones gives it great advantages over the piano, while in those general points which constitute excellence in instruments of its class, it has received the almost universal preference of the best judges. No instrument is more easily played or less likely to get out of order. The bellows are operated more conveniently than that of the melodeon; and the swell is more readily and naturally under the control of the performer, while the manipulation of the keys is exactly similar. ON HAND. A Four Stop Cabinet Organ suitable for a Church: With Two Sets of Reeds, and One Octave of Sub-Bass Reeds, Four stops, Octave Coupler, Automatic Swell, Combination Valves, Double Bellows, Swell Pedal. This is a new style, just introduced. Novel features are the Octave Coupler (doubling the power of the instrument), and the introduction of an octave of Sub-Bass reeds, which are operated by the manual. Probably this instrument has a greater amount of musical power than any other which can be afforded at its price. It will unquestionably be very popular. It has a good deal of variety, and might appropriately be called "The Little Giant." The stops are Dulciana, Flute, Octave Coupler, and Sub-Bass. S. SELDEN, Agent. Oct. 25.

DAVIS' PAIN KILLER Is for internal uses. Try it.
