LATEST FROM THE U. STATES.

THE PRESIDENT'S VETO OF THE FREEDMEN'S BUREAU BILL.—The greatest excitement exists throughout the Union consequent upon the action of the President in vetoing the Freedmen's Bureau Bill recently passed by Congress and Senate.

This Bill provides for the continuing in force of the Act to establish a bureau for the relief of freedmen and refugees, until otherwise provided by law; shall extend to refugees and freedmen in certain parts of the United States; and the President may divide the section of country containing such refugees and freedmen, into districts, each containing one or more States, not to exceed twelve in number; and by and with the advice and consent of the Senate, appoint an assistant Commissioner for each of said districts.

The President gives to Congress his reasons in full for not allowing this bill. He believes that no such measure is required, and further that it is an unconstitutional and unjust measure.

THE FENIANS TO BE WATCHED.—It is stated that Mr. Adams has assured Lord Clarendon that the United States Government, is closely watching the acts of the Fenians, and that any overt proceedings of hostility will be prevented.

Mr. Adams further avers, that Fenianism is on the decline, and that it will soon subside. It, however, it should last beyond April, the United States Government will take the necessary steps to prevent any further open conspiracy against England. In the event, which Mr. Adams regards as most improbable, of the Fenians sending out any cruisers, the United States will regard such cruisers as pirates.

THE STRENGTH OF ICE.—The following is a statement of the capacity of ice recently furnished by the United States Ordnance department, which is said to be correct:

Ice two inches thick will bear infantry; four inches cavalry with light guns; six inches heavy field guns; ice eight inches thick will bear the heaviest siege guns with one thousand pounds weight to the square inch.

He was born in Detroit, and the record of his Baptism in the Catholic Church at that city shows that he is now one hundred and thirty-nine years of age. Crele was married in New Orleans one hundred and nine years ago, whence he removed to Prairie Du Chien, while Wisconsin was yet a province of France. He now resides with a daughter by his third wife, who is over seventy years of age. The old gentleman is quite active, and can walk several miles a day.

RAILWAY CONNECTION.—The merchants of Boston, with Ex-Governor Andrews, are making efforts, by petition, to induce the Massachusetts Legislature to invest \$800,000 due to the State by the State of Maine, in bonds of the North American and European Railway, so as to enable its projectors to complete the defective link in that road between Bangor and St. John, 106 miles. Should that portion of the road be constructed, the line would then extend from Halifax to St. John, N. B., 262 miles; Halifax to Bangor 458 miles; Halifax to Portland 496 miles, and Halifax to Boston 706 miles.

THE LATEST UTTERANCE OF FENIANISM.—A telegram from Pittsburg, Pennsylvania on the 24th Inst., states that the Fenian Congress adjourned sine die to-day, after passing a resolution disclaiming all connection with party politics, and adopting an address urging on the work of immediate preparation for war.

WILLIAM HALL, Baptist Minister: BEAVER RIVER, N. S.

To W. S. RAYMOND. Having a gathering coming on my hand which I supposed to be a Felon, I suffered, very severely, from pain, for four days and nights, I poulticed it with every thing nameable, and used every thing that I could think of to relieve the pain, and nothing seemed to have any effect whatever.

One of my neighbors advised me to use Mrs. JACKSON'S Golden Liniment, which I did, and in twenty-four hours my hand was well enough to perform a days' labour, I have used it in a great many instances and found it to be a valuable article. Try for yourselves and you will find the Gold Liniment just what it is roomed for, excellent for Sore Throat, Headache, Toothache, Inflammation, it is excellent.

WM. H. PIERCE. BEAVER RIVER, Township of Clare, March 25th, 1864.

MRS. W. JACKSON.—Please except the following testimonial, which, if desirable, you can use for the public good: I have used, also made more than a score of applications of your Gold Liniment, in cases of Inflammation arising from colds, following out and bruises, &c. and in every stage of inflammation even where previous days and nights have been spent in restlessness, and pain, defying ordinary applications, in every such case when I have used your Liniment liberally applied saturating the under wrapping, The effect in removing the pain and inflammation has been astonishing whoever will try this remedy, will prove inflammation cannot live when brought in contact with it.

Respectfully yours, IRA RAYMOND. YARMOUTH Co., N. S.

MRS. JACKSON.—Having been brought very low by bleeding of the lungs in connection with the Bronchitis for several years, during which time I tried many medicines without material benefit, about seven months since began using your Gold Liniment, and found the bleeding entirely cured, and received great relief otherwise. Also my wife having been for some years troubled with Chronic Rheumatism, has found great relief from the use of the same Liniment.
