

The ice on the river St. Lawrence at Quebec, started on Friday 20th inst., and in two hours after it started, the ferry steamer was plying across to Point Levi.

UNITED STATE.

NEW YORK, April 30.—A large fire in New Haven, Conn., on Monday destroyed the New Haven clock manufactory, consisting of six buildings and eleven dwelling houses adjoining; 200 workmen thrown out of employment.

LATEST FROM EUROPE.

By the steamship Herman we learn that the storing away of the Atlantic Cable in the tanks on board the Great Eastern, commenced on the 14th. The laying of the cable will commence in July.

The news from Germany is still less threatening.

An attempt has been made to assassinate the Czar of Russia, but the bullet missed its aim.

AUSTRIA AND PRUSSIA.

The Independence Belge of April 9 affirms that the Duke of Coburg has communicated directly to the King of Prussia letters of a conciliatory character which he had received from Count Mensdorff. The same paper states positively that after a correspondence between the Emperor of Russia and the King of Prussia, the former Sovereign sent General Richter to Vienna to call upon Austria to disarm.

A telegram, dated Vienna, April 10, states that the Austrian despatch in reply to the Prussian note is short, but moderate in its tone. It demands that the Prussian armaments should be discontinued, and declares that otherwise Austria will call upon the Federal Diet to interfere.

MEXICO.

In consequence of communications exchanged between Marshal Bazaine and the Emperor Maximilian, the Emperor Napoleon has decided that the French troops shall evacuate Mexico in three detachments. The first detachment will leave in November, 1866; the second in March, 1867; and the third in November, 1867.

MISCELLANEOUS.

THE CATTLE PLAGUE IN GREAT BRITAIN.—The latest cattle plague return shows that the disease is rapidly dying out. The number of animals attacked in the week ended March 31 was 3,966. Three or four weeks previously the number was over 12,000.

The losses through the cattle plague have been so heavy in Cheshire that the justices for that county have found it necessary to take advantage of the borrowing clause of the Cattle Diseases Act. They decided at a general court of quarter sessions on Monday, to borrow a sum not exceeding £300,000 to meet the claims for compensation—a charge which the chairman estimated would amount to £350,000 by the 15th inst.

Dr. Dickson writes to The Morning Advertiser as follows:—Experiments with chloroform are now being up to this time very successfully tried on the extensive estates of Mr. Leigh, of Cheshire. Mr. Collins, the manager, says, "Hundreds of beasts may be saved by this practice," and he adds, "The Knutsford chemists are now reaping a good harvest by the sale of chloroform."

We have pleasure in calling the attention of our readers to the advertisement of Dr. Larock's Palm-olein Syrup, which appears in another column. This remedy is endorsed by many of our most eminent men—men who are too conscientious to deceive others, and too shrewd to be deceived themselves.—There is no question in our minds but that this preparation is the best for the diseases it is designed to cure, which medical science has yet devised.—Boston Times.

The PAIN KILLER is by universal consent allowed to have won for itself a reputation unsurpassed in the history of medical preparations. Its instantaneous effect in the entire eradication and extinction of PAIN in all its various forms incidental to the human family, and the unsolicited written and verbal testimony of the masses in its favor, have been, and are its own best advertisements.

The ingredients which enter into the PAIN KILLER, being purely VEGETABLE, render it a perfectly SAFE and efficacious remedy taken internally, as well as for external applications, when used according to directions. The stain upon linen from its use is readily removed by washing with a little alcohol.

This medicine is justly celebrated for the cure of so many of the afflictions incident to the human family, has now been before the public over TWENTY YEARS, and has found its way into almost every corner of the world; and wherever it has been used, the same opinion is expressed of its medical properties.

In any attack where prompt action upon the system is required, the Pain Killer is invaluable. Its almost instantaneous effect in RELIEVING PAIN is truly wonderful; and when used according to directions, is true to its name, a PAIN KILLER.

It is, in truth, a FAMILY MEDICINE, and should be kept in every family for immediate use. Persons travelling should always have a bottle of this remedy with them. It is not unfrequently the case when persons are attacked with disease, and before medical aid can be procured, the patient is beyond the hope of recovery. It has been used in SEVERE CASES OF THE CHOLERA, and never has failed in a single case, where it was thoroughly applied on the first appearance of the symptoms.

Pain Killer, taken internally, should be adulterated with milk or water, and sweetened with sugar if desired, or made into a syrup with molasses. For a COUGH, a few drops on sugar eaten, will be more effective than anything else. For SORE THROAT, gargle the throat with a mixture of Pain Killer and water, and the relief is immediate and cure positive.

It should not be forgotten that the Pain Killer is equally as good to take internally as to use externally. Each bottle is wrapped with full directions for its use. PLEASE READ THE PRINTED DIRECTIONS.

LONG ISLAND, Oct. 1st, 1863.

I have made use of Mrs. JACKSON'S Golden Liniment, in a case of Bronchial Affection arising from preaching, and find it a good remedy for that disease, I know of no remedy so powerful or so efficacious from Sore Throat, Bruises, Diarrhoea, &c.

WILLIAM HALL, Baptist Minister. BRAVER RIVER, N. S.

To W. S. RAYMOND. Having a gathering coming on my hand which I supposed to be a Felon, I suffered, very severely, from pain for four days and nights, I poulticed it with every thing pameable, and used every thing that I could think of to relieve the pain, and nothing seemed to have any effect whatever. One of my neighbors advised me to use Mrs. JACKSON'S Golden Liniment, which I did, and in twenty-four hours my hand was well enough to perform a days labour, I have used it in a great many instances and found it to be a valuable article. Try for yourselves and you will find the Gold Liniment just what it is recommended, excellent for Sore Throat, Headache, Toothache, Inflammation, it is excellent.

Wm. H. PETERS. BRAVER RIVER, Township of Clare, March 25th, 1864.

Mrs. W. JACKSON.—Please accept the following testimonial, which, if desirable, you can use for the public good:—

I have used, also made more than a score of applications of your Gold Liniment, in cases of Inflammation arising from colds, following cuts and bruises, &c. and in every stage of inflammation even where previous days and nights have been spent in restlessness, and pain; defying ordinary applications, in every such case when I have used your Liniment liberally applied saturating the under wrapping. The effect in removing the pain and inflammation has been astonishing whoever will try this remedy, will prove inflammation cannot live when brought in contact with it.

Respectfully yours, IAA RAYMOND. YARROWTH Co., N. S.

Mrs. JACKSON.—Having been brought very low by bleeding of the lungs in connection with the Bronchitis for several years, during which time I tried many medicines without material benefit, about seven months since began using your Gold Liniment, and found the bleeding entirely cured, and received great relief otherwise. Also my wife having been for some years troubled with Chronic Rheumatism, has found great relief from the use of the same liniment.
