

Ishmael Pacha Sovereign of Egypt has arrived in London from Paris. The Railroad Station was decorated with flags and flowers in honor of the illustrious visitor, who had a grand reception in which the Prince of Wales and Lord Stanley Secretary of Foreign Affairs, played a conspicuous part. A large body of troops was also in attendance, and formed an escort to Ishmael Pacha, who was the guest of Earl Dudley.

July 7.—Detachments of regular troops have been ordered by the English Government to Abyssinia, to compel the king of that country to release the British subjects who have been imprisoned there for a long time.

IRELAND.—Dublin, July 2.—A large number of Fenians have been arrested while secretly drilling near Alwyn.

July 5.—A Fenian leader, alleged to be Gen. Halpine, formerly Secretary of one of the Fenian organizations in America, has been arrested in Cork.

FRANCE.—Paris, July 1st.—The distribution of prizes took place at the International Exposition to day, in the presence of a vast multitude of spectators, who thronged all the available places of the building, and overflowed into the garden of the Champ De Mars. Napoleon and Eugenie with the Prince Imperial and Prince Napoleon with their suite, proceeded to the Exposition in eight carriages, each drawn by six horses. They were accompanied by the Sultan of Turkey and suite in six splendid carriages, each drawn by six horses splendidly caparisoned. When the initiatory ceremonies were concluded, the Emperor rose and said: "France is proud to be great, prosperous and free, yet she is not unweary of her material joys. The thoughtful can see the national fibres vibrate for the honor of France. The Emperor closed his speech by saying "This Exposition marks an era of harmony and progress, and the triumph of great moral principles which with justice can alone establish thrones and enoble humanity."

July 4.—Lord Lyons has entered upon his duties as Ambassador of Her Britannic Majesty to the Court of Napoleon the Third, in the place of Lord Cowley.

July 5th.—The *Moniteur* to-day has an article expressing its detestation of the murder of Maximilian. In the Senate and the Corps Legislatif to-day, speeches were made denouncing the execution as a crime against civilization. Orders have been sent on, suspending from their functions all French Consuls in the Mexican Republic. All festivities in this city have ceased and preparations for the forthcoming fetes have been abandoned, out of respect to the memory of Maximilian.

July 6th.—The French government has granted a concession to the Franco-American Telegraph Company, which proposes to lay a submarine Cable from Brest to some point on the American coast.

It is reported that Napoleon has concluded upon disarming 34,000 men of the French army.

ITALY.—It appears by intelligence from Florence that the Pope has been unwell, and fears were entertained a few days since that his Holiness would be prevented from taking part in the great religious ceremonies which have commenced in Rome, and for which about 200 bishops and between 3000 and 4000 priests have assembled from all parts of the world.

FLORENCE, July 4.—The Italian Minister of Finance has resigned his Portfolio.

PRUSSIA.—BERLIN, July 3.—The anniversary of the battle of Kenigraatz, better known as Sadowa, was observed to day. The Prussian troops were entertained by the King, and colors were presented to each regiment which participated in the battle.

AUSTRIA.—Vienna, July 4.—The Imperial Court of Austria has gone in mourning for the death of Maximilian.

July 7.—An Austrian fleet is to be immediately despatched to Mexico for the body of Maximilian.

MISCELLANEOUS.

NEW SOUTH WALES.—From New South Wales we learn sad news: A private letter depicts the horrors of a hot season and a prolonged drought. The weather there has not been so sultry for the last nineteen years. A blade of grass is not to be seen; the heat equals that of India; the creeks and rivers are nearly dry.—Life in the mountains is getting to be insupportable. The country is fearfully depressed. Strong able men are glad to earn a trifle to keep life in them. No employment is to be had for the large agricultural population. There are thousands begging their bread from station to station. And yet, notwithstanding the last three years' drought, emigrants are pouring in. Many of the farmers, men who were once wealthy, are reduced to starvation. Disease has broken out among the sheep, and hundreds of them are dying. There are complaints in the colony about the imposition of new taxes. It is said the Government of New South Wales is as poor as the people; it has taxed every necessary of life.

Three Turkish newspapers have been suppressed, and their editors banished.

A young man at Olmutz has invented a cannon revolver discharging 192 shots in twenty seconds.

Tenpenny, two-shilling, and five-shilling postage stamps are shortly to be issued in England.

The list of subscriptions for the statue in London, in honour of George Peabody, has reached £2,500.

Explosions in English coal mines have killed 25,000 men since 1850.

It is estimated that in the whole world sixty persons die, and seventy children, are born per minute.

At a recent railroad celebration, the following sentiment was given:—"Our members, the only faithful tenders who never misplaced a switch."

A United States army officer who has travelled through Russian America, writes to the Buffalo Express that the climate is not at all unendurable, there is no extreme cold in the winter season, and much of the summer is hot—uncomfortably so. The climate is probably as healthy as any other continent. The country cannot be made valuable as an agricultural region, although in the vicinity of Sitka good vegetables are profusely raised. But yet its timber, its furs, and its fisheries, will be invaluable. The former is of course spruce, excellent in quality; the fur-bearing animals of the interior are plenty, embracing all kinds except the sable, and yielding furs of unsurpassable texture; while the fisheries will make an unfailing source of national wealth.

The treaty with Russia has been formally ratified, and the U. S. Government will soon take possession of the territory on the Northwest Coast that is now waiting for a name.

The Czar has left a million of francs for the poor of Paris. He gave the servants of the Elysees £2,000. During his visit in Paris he spent £200,000. The Czarwitz spent £40,000.

The Sandwich Islands promise to supply the Pacific coast with sugar. They are in the Pacific what Cuba is in the Atlantic. The number of acres planted with cane is 16,266, the capital in the business is \$2,000,000.

The order of the Garter is to be conferred on the Emperors of Russia and Austria, and missions have been sent from England for that purpose. The same honor is to be conferred on the Sultan, who comes to England to receive it in person.

A lady in New York announces that she will sell, for the benefit of a Catholic Fair in that city, a piece of the coffin in which General Washington's body lay thirty-eight years; a piece of the ferrule of his cane, and a part of an embroidered silk dress once worn by Martha Washington.

Recently in Montreal, in the middle of an oppressive heat, a thunder storm, accompanied with regular tropical rain, came on, winding up with a fall of immensely large hail stones. They were not only of immense size, but also of extraordinary shapes, many of them being more like lumps of ice than regular hail stones. The shower lasted for a considerable time.

The Central Pacific Company are pushing on their work with marvellous rapidity. The great Summit Tunnel, to be 1,660 feet long, had generally been calculated as a three or four years' job; but, putting in practice the underground tactics their quartz mining had taught them, our California friends not only began at both ends, but sunk a shaft in the middle and worked both ways from that. The tunnel was commenced last September, and on the 1st of May had but 881 feet remaining to be taken out. This was disappearing at the rate of 60 feet each week, which promises to have it completed in August—eleven months from the start.

FRANKLIN, the St. Benjamin of the typographical profession, made one of the greatest blunders on record in his day. In putting to press a "form" of the Common Prayer, the letter "c" dropped out of the passage, "we shall all be changed in the twinkling of an eye," without his noticing it. When the book came into use, what was the consternation of the devout when they read, "we shall all be hanged in the twinkling of an eye."

We are sorry to learn through the London *Athenaeum*, that Lord Brougham is very ill at Nice, it is feared past hope. The venerable old gentleman, who is said to be in full possession of his mental faculties, has for many years borne up wonderfully against the physical infirmities of age. But even the stoutest heart must yield to fate.

Count Wedel, who shot Prince Bernhard Solms in a duel at Vienna some months ago, has been pardoned by the Emperor.

The cattle murrain, which commenced in Egypt before it proved so severe a scourge in England, destroyed, the first year, 800,000 head of horned cattle. In Lower Egypt almost every animal was destroyed, and it will take years to restore the number of animals.

HALIFAX INDUSTRIAL SCHOOL.

THE Committee of the Halifax Industrial School hereby give notice to the friends of the institution, and the public generally, that the several trades of shoemaking, tailoring, and cabinet making are conducted at their establishment on Spring Garden Road. These branches of industry being under the management of competent instructors, the Committee urgently solicit orders for work in the respective departments, and beg to assure those who may favour them with their custom, that no pains will be spared to complete such orders to their satisfaction.

The attention of storekeepers and traders in the country is particularly called to the boot and shoe making shop of the Industrial School. Strong work suitable for

Farmers, Lumbermen and Fishermen, can be supplied at a moderate price. Orders for 25, 50 or 100 pairs of any specified sizes will be received and punctually attended to by Mr. JOHN GREENSON, Superintendent, Spring Garden Road. The Committee have further to announce that on Thursday the 27th inst., and on each succeeding Thursday, from 2 P. M. to 6 P. M. if God permit, the Industrial School will be open throughout for the inspection of visitors.

June 19.

A PUBLIC BENEFACTRESS. MRS. S. A. ALLEN, A LADY OF WORLD-WIDE REPUTATION.

MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER is suited to both young and old. It strengthens the Hair, prevents its falling or turning grey, and imparts to it a beautiful glossy appearance. It never fails to RESTORE GREY HAIR TO ITS ORIGINAL YOUTHFUL COLOR.

It is NOT A DYE, but acts directly upon the roots of the Hair, giving them the natural nourishment required, producing the same vitality and luxuriant quantity as in youth. It will restore it on bald places, requires no previous preparation of the hair, and is easily applied by one's self. One bottle will usually last for a year, as after the hair is once restored, occasional applications once in three months will insure against grey hairs to the most advanced age.

The Restorer Reproduces and the Hair Dressing Cultivates and Beautifies. Sold by all Druggists throughout the World. Principal Sales Office, 198 Greenwich Street, New York City.

MRS. S. A. ALLEN'S WORLD'S HAIR DRESSING, or ZYGLOBAL-SAMUM, is essential to use with the Restorer, but the Hair Dressing alone often restores, and never fails to invigorate, beautify and refresh the Hair, rendering it soft, silky and glossy, and disposing it to remain in any desired position.

FOR LADIES AND CHILDREN, whose Hair requires frequent dressing, it has no equal. No lady's toilet is complete without it. The rich glossy appearance imparted is truly wonderful. It cleanses the Hair, removes all dandruff, and imparts to it a most delightful fragrance. It will prevent the Hair from falling out, and is the most economical and valuable Hair Dressing known. Millions of bottles sold every year.

HORTON COLLEGIATE ACADEMY, WOLFVILLE, N. S.

1ST TERM commences August 1st and ends December 20. Principal—Rev. T. A. Higgins, A. M.; Assistant, Albert J. Hill, A. B.; Teacher of Mathematics, I. A. Blair, A. M. Terms—Board and Washing, with care of Rooms, \$25 per quarter, or \$100 per school year. Tuition—\$3 to \$5 per quarter. Room rent—\$1 per quarter. Bills payable quarterly, in advance. The Boarding Department is under charge of Mr. Hill. Pupils furnish bedding, light, and fuel, for their own rooms. It is very desirable that all Pupils should be present at the opening of the Term. Pupils are required to confer with the Principal before making arrangements for Board, etc. Wolfville, June 20. July 10. Im.

To the Electors of the County of Hants.

DELEGATES from all the Polling Districts of this County, have met to-day and decided unanimously, that I should be one of the Candidates to represent Hants in the Local Legislature of this Province. Should you honor me with your suffrages, and elect me, I pledge myself to represent you faithfully. I have an abiding hope that the new state of matters in British America will very soon after Legislation commences, dispel the darkness and doubts of many, who now have but small faith in the success of Confederation. Nature has given us within the Dominion everything which is necessary for our subsistence and progress, and I sincerely trust that those who will ere long have the privilege of voting for men to represent them in the General and Local Legislature, will return representatives who will endeavor to advance, and not to thwart the very important interest entrusted to their charge. If it shall please you to return me, I shall constantly have this all important end in view. I have the honor to be, Gentlemen, Your obedient servant, FRANCIS PARKER. Walton, 2nd July, 1867. July 10.

CRICKET! CRICKET!

JUST IN SEASON: Cricketing Flannel, AT R. N. BECKWITH & CO'S, 89 Granville Street, July 10.

R. N. BECKWITH & CO.

HAVE IN STOCK: DRESS GOODS in great variety, Fancy Dress Silks, Printed Dress Muslins, Black Grenadines and Barages, WHITE CURTAIN MUSLINS, Half Blind Muslins, Ladies' and Gents' Lawn Hdks. White and Grey SHEETINGS, Grey and White Cottons, fine makes, Bleached Linen Damasks, MARSEILLES QUILTS, Grass Cloths, Hollands, SUMMER SKIRTING, Skeleton and Covered SKIRTS. July 10.

GRAND PRE SEMINARY, WOLFVILLE.

Will re-open August 1st, 1867. Principal, Miss O. J. Emerson. Assistant & Teacher of French, Miss Clara Fowler. Teacher of Drawing & Painting, Annie Fowler. Music, Prof. E. C. Saffery. COMMITTEE.—Revs. T. A. Higgins, Dr. Crawley, S. W. deBlois, D. Freeman, and S. B. Kempson. TERMS.—Board and Tuition, (common branches) \$30 per qtr. Music with use of Piano, \$9 per qtr. Drawing & Painting from \$4 to \$7 per qtr. French, \$2 per qtr. Pupils furnish Bedding, Towels and light for their own rooms. Bills payable quarterly in advance. The rule at this institution has always been advance payment, but it has not always been carried out in practice, and this has, perhaps, been one of the serious drawbacks to its prosperity in the past. We believe the advance system to be the rule in all similar institutions, and as it is the desire of those in charge of the financial affairs of Grand Pre Seminary to introduce improvements and advance with the times, until it will be second to none, we now beg leave to request that all concerned will please bear in mind that the practical rule in future should be payment in advance, and the payment at the end of the quarter the exception. W. J. HIGGINS, Manager. Wolfville, July 1st, 1867. July 2.

AYER'S CATHARTIC PILLS

ARE the most perfect purgative we are able to produce and, as we think, has ever yet been made by any body. Their effects have abundantly shown to the community how much they excel the other medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart tone and strength to the whole system. Not only do they cure the every day complaints of everybody, but formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are entirely harmless. Cures have been made that would surprise belief, were they not substantiated by men of such exalted character, as to forbid the suspicion of untruth. Many eminent clergymen and physicians certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute immensely to the relief of our afflicted fellow-men.

The Agent below named is pleased to furnish gratis our American Almanac, containing directions for the use of these medicines and certificates of their cures of the following complaints:—Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangement of the Liver and Kidneys, Gout, and other kindred disorders arising from a low state of the body, or obstructions of its functions.

Do not be put off by unprincipled dealers with other preparations on which they make more profit. Demand AYER'S and take no others. The sick want the best aid there is for them, and they should have it. Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., and sold by all Druggists and dealers in medicine everywhere. AVERY, BROWN & CO., General Agents for Nova Scotia. June 19. 2m. Insa.

ROGERS & CO. ULCERATED CANCER CURED.

Who needs better proof, than the following voluntary testimony of Mrs. Hannah Balmain, OF WICKHAM, N. B.

SOME four years since their came a lump in my breast, and at the time I did not know what it was—but on showing it to three Doctors, they told me it was a "CANCER," and for which the knife would have to be applied, then again I went to a female doctor, who has been in the habit of curing "Cancers" by drawing them out, but she informed me that it was deep in the flesh, and too long seated and therefore could not help me. Knowing that something must be done, I concluded to try your Medicine, which I saw advertised in the Visitor. Accordingly I sent for a can of Ointment and Powders for making the Syrup, which I used without the slightest change, at the time I began to think it was a failure, but concluded to give it another trial; consequently procured another can of Ointment and Powders and from its use, it gathered and broke in two places, and discharged very freely for about six months, after which time it broke again in another place, and one of the old Ulcers healed up, the remaining two still remaining. One of which ran for two and a half years, the other healing up in about two months, after it broke, during which time I used your medicine regularly. I may here state, that the last ulcer healed up about thirteen months ago, since which time I have enjoyed very good health! Yes I may say better health, than I have enjoyed for several years.

I remain yours, respectfully, Mrs. HANNAH BALMAIN, Wickham, Queen's Co., N. B. February 11, 1867.

For sale by Brown, Brice & Co., Cogswell & Forsyth, and Avery, Brown & Co., and dealers in medicine everywhere. May 8.

REAL ESTATE FOR SALE.

A FARM containing 170 Acres of good land, there are 10 Acres of never failing Meadow, and 40 Acres of Woodland, and a superior Pasture. Also 20 Acres in good cultivation; with Dwelling House, Outhouse, Barn, with a cellar for manure. Can give immediate possession.
