ALL REAL IMPROVEMENTS which have yet been effected in instruments of their general class are embraced in

The Mason & Hamlin Cabinet Organs.

These Instruments represent the Highest Accomplishments of Industry, and combine the Best Results of Invention in this Department.

It has been, and will continue to be, the earnest endeavor of MASON & HAMLIN to establish for their instruments the highest reputation by RENDERING THEM EMINENTLY WORTHY OF IT. They have not aimed at success in business by producing such inferior quality of work as could be sold at lowest prices, but deem it wiser policy to secure always

The Best Material, Most Skilled Workmanship, and every Real Improvement, to produce the Very Best Instruments.

which must command the preference of intelligent judges. They believe that such instruments, at as low prices as they can be afforded, will be recognized as cheaper than inferior instruments at somewhat lower prices.

With these views they have resorted to extraordinary means, by untiring experiment in their own factory, and the most liberal policy in regard to inventions originated elsewhere, to secure every real improvement.

Several of the most important Improvements which have been effected in this class of Instruments are exclusively controlled by Mason & Hamlin. Among these are—

THE AUTOMATIC BELLOWS SWELL, THE IMPROVED SELF-ADJUSTING REED VALVES, IMPROVED REED MACHINERY, SOUNDING AND TUBE BOARDS.

The substantial value of the Improvements effected by MASON & HAMLIN in instruments of this Class, and the superiority of their CABINET ORGAN, have been acknowledged by the award to them, within a few years, of

FIFTY-SIX GOLD AND SILVER MEDALS.

M. & H. have also been allowed to publish in their Circulars the testimony of More than two hundred and fifty of the most eminent Musicians in the country, to the superiority of the M. & H. Cabinet Organs to all other instruments of this class.
