

CHINA.—It appears by a telegram received from London on Friday last that a great battle had been fought in China between the army of invasion and the Tartar forces of the Emperor of China. The Imperialists were defeated.—The battle took place within 30 miles of Pekin and that city was in great danger of falling into the hands of the victorious invaders.

On Saturday morning, the 19th inst., at about 1 o'clock, A. M., his spirit took leave of the earthly house to enter, as we trust, the building of God, eternal in the heavens. He has left behind an aged widow, four children, nine grand children, and two great grand children. May God sanctify the event to all.—Communicated.

READ THIS.

New Albany, Ind., March 12, 1867.

For forty years I have been afflicted with costiveness, and for the last twenty was compelled daily to resort to injections to secure an evacuation. In December last I commenced the use of Radway's Pills. After taking a few doses, my liver, stomach, and bowels were restored to their natural strength and duties. I have now a regular movement once a day, and, although 80 years of age, feel as hearty and strong as I did 40 years ago.

HIGH ENDORSEMENT FROM THE MEDICAL COLLEGE OF PRUSSIA.

DR. RADWAY.

Is in receipt of an important official document signed by the Professors of the Medical College of Breslau, Prussia, embodying the result of an analysis of

RADWAY'S REGULATING PILLS.

Instituted for the satisfaction of the Prussian Government and people. It appears that the great popularity of the pills throughout Germany, as an aperient, antiphlogistic and alterative medicine, had provoked the malice of the apothecaries, who caused a report to be circulated that the ingredients were poisonous. Therefore, a scientific inquisition into their nature and properties was ordered, the issues of which was a most triumphant vindication of the sanitary value of the pills.

The Faculty of the College state in their report that after a careful and minute examination, they have the honour to state that "the pills are not only free from every substance injurious to health, but are composed wholly of substances and elements promotive of digestion, and certain at the same time to act favourably upon the nervous system," &c., &c. They state, further, that the injurious rumours set afloat by the Prussian apothecaries originated "in a mean spirit of trade jealousy, excited by the great celebrity attained by the pills within a very brief period."

Signed in behalf of the College,

DR. PHIL. THEOBALD WERNER.

Director of the Polytechnic Bureau.
