In his dealings he sustained the reputation of a strictly upright man. He died relying upon the atonement of Christ on the 2nd day of July, 1867, having survivet his beloved wife about 6 months. He has left several brothers, a tond sister and many friends to mourn his departure.

On the 10th July, 1867, in the West Indies, of Tellow Fever, Capt. John Johnson, of the Barque. Simoda, aged 38 years. The decaased was the only surviving son of Capt. James Johnson, of Lower Granville. He was a young man of steady and industrious habits, and sustained a high reputation in his profession. His sudden death is regarded as a public loss and has cast a gloom over the community. By this sad providence his aged parents, he lowed with a fine intellect which has been in the habit of curving them out, but she informed me that it was deep in the flesh and too long t the remaining two still remaining. One of which ran for two and a half years, the other healing up in about two months; after it broke, during which tme I used your medicine regularly. I may here state, that the last ulcer healed up about thirteen months ago, since which time I have enjoyed very good health! Yes I may say better health, than I have enjoyed for several years.

I remain yours, respectfully, MRS. HANNAH BALMAIN. Wickham, Queen's Co., N. B. February 11, 1867.

### To the Electors of the County of Annapolis.

AVING been nominated at a large and influential meeting of the Electors of the County as a Candidate for the General Parliament at Ottawa, I beg now most respectfully to solicit

your suffrages at the ensuing Election.

For the eight years during which I have been honored by your generous confidence and support, I have endeavoured to study and advance your interests, while I have had some humble share in pro moting the prosperity of the country.

the discharge of the varied duties of public life, I do not for a moment flatter myself that I have always obtained your unqualified approval, but be assured that I have been actuated by a desire to meet your wishes, and promote the general good.

In supporting the scheme for an Union of the Colonies I have been called upon on several occasions to assume grave responsibilities, when, for the time being. I was somewhat in doubt about your time being, I was somewhat in doubt about your views upon this great question, and only felt myself justified in voting as I did under the strongest conviction that the general good would be greatly sub-served by the consummation of the scheme proposed. Happily the public sentiment has recently

posed. Happily the public sentiment has recently undergone a vast change upon this all-absorbing and vitally important question, and I am confident the day is not far distant when the action taken by the Legislature in connection with this question will meet with general approval on the part of all those who love their Queen and Country.

I have steadily, and to the best of my ability advocated the claims of the western part of the Province to a participation in the advantages of Railway communication with the Capital of the Province; and hope I may claim some share of the credit due for the boon about to be conferred upon the people of the west in connection with the Windthe people of the west in connection with the Windsor and Annapolis Railway; which is now in course of construction, and will undoubtedly be finished on or before the end of 1869.

I need scarcely remind you of the strenuous ef-forts made in the Legislature by the opponents of the Government to obstruct and defeat this undertaking from its inception down to the end of the last session of the Assembly; nor need I refer to the unhandsome opposition which it has encountered from the press in their interest, not excepting the local paper of the County; which strangely enough has been among the most bitter of all its opponents; for these facts are patent to all, and will I doubt not be fully appreciated at the proper time; moreover it is known that one at least of those likemoreover it is known that one at least of those likely to contest the constituency with my colleagues and myself at the approaching General Election has voted against this project in the Legislature, and it is believed that the two candidates likely to be associated with him in the contest are equally hostile to the enterprise in question. Fortunately the most determined efforts of this extraordinary combination could not have you from the privileges, which tion could not bar you from the privileges which you are to secure at so early a day.

I need scarcely say to you that I sought not the nomination so handsomely conferred upon me, but that on the contrary, I should have been only too happy to have escaped from the exactions and tur-moil of an exciting election contest by myself nominating for the honorable position in question one deservedly popular in the County, and one perchance better qualified to serve you in the General Parliament than myself, and only consented to accept the nomination myself, when it was found that the objections of the valued friend referred to could not be overcome. Having thus placed myself in your hands, permit me again to solicit your hearty and generous support, and be assured that no effort oi mine shall be spared in the way of securing a triumph for "Union," and making it what I sincerely believe it is destined with proper management to be, an inestimable blessing to all concerned.

Although a candidate for the General Parliament,

shall not cease to feel a lively interest in local atfairs, and acting in happy concert with my colleagues Mesers. Whitman and Foster, the candidates for the Local Legislature, trust it may be in my power still to serve you, to some extent at least, and beg therefore in conclusion to ask for these my colleagues the same measure of support accorded to myself.

I remain, Gentlemen, Your obedient humble servant, A. LONGLEY. col., wes., abstr.
