

Jefferson Davis arrived in Montreal on Tuesday morning, and is stopping with his son-in-law on Mountain street.

COMING HOME.—It is melancholy to see the number of Canadians who, in the very extreme of want, are returning to their native land. Within the past few weeks some of our charitable institutions have been called on to save from actual want numbers of these destitute returning wanderers. They left their homes prosperous they return as paupers. They deserted their country in search of fortune, they seek it again in search of bread.—Toronto Telegraph.

LATEST FROM UNITED STATES.

We have more sensational reports respecting Fenian movements. It is doubtful if the same leniency will be shown to parties taken in making disturbances as was the case before :

NEW YORK, May 23.—From all accounts Fenian warriors are again about taking the field in large numbers for an invasion of Canada. A movement towards organization and concentration is general throughout northern and western portions of New York and other States. A messenger has been despatched by Head Circles to call Brothers to arms and 30,000 men are to be concentrated on the border within a month. The commissariat is said to be well served and large supplies of army stores are already warehoused in vicinity of St. Albans. General Spear to command invading army. On the other hand Canadians are alive to danger and are actively preparing to defend themselves. The Hon. John Morrissey has been at Troy in conference with Fenian leaders and it is believed that he has been authorized to assure them that the Government would not interfere with their enterprise.

MAY 24.—City of Mexico correspondence, dated May 6th, says the bombardment was going on and the city was in a fearful condition. No water was to be obtained except from artesian wells, which rendered only a scanty supply. Forced levies of men and loans of money were continually being made by Marquez, \$1,000 a day being requested from various business houses, nearly all of which were closed in consequence. \$800 a day were demanded of one family. Provisions were scarce. The enemy don't care to prevent supplies from coming in, but they were turned away at the gates by the exorbitant duties demanded by the Imperial officers. The rumored surrender of Queretaro is untrue. Maximilian was desirous to surrender, but Mejea and Miramon, who virtually hold him as a prisoner in their hands, prevented.

MAY 25.—Advices from Peru state that the country is still without an Executive. The President still refused to accept the resignation of the Ministry, and Congress has passed a provisional law prohibiting the President from appointing any Minister whose conduct has been censured by them.

The Yellow Fever has broken out in Guayaquil and Lueraventura, causing great alarm and driving the residents to the interior.

The bridge over Broadway, N. Y., was thrown open to travel last Friday and thousands crossed upon it in the course of the day.

THE CROPS IN THE WEST.—A letter from Springfield, Ill., remarks:—"Wheat fields are luxuriant. The season is not injurious to growing crops. Winter wheat is surpassingly promising. Grass lands look well."

The Minnesota Leader says cold weather is always best for growing wheat. The springs of 1857, 1860, and 1865, were late and cold, and we never had better yields of wheat than during those seasons.

MEXICO.—The capture of Queretara, Mexico together with Maximilian and all his force is officially announced. The Liberals had started for the city of Mexico. It is reported that Juarez had ordered Maximilian to be shot. Gold \$6 1/2.

LATEST FROM EUROPE.

By Atlantic Telegraph.

ENGLAND.—London, May 20th.—The latest and most reliable accounts received here of the recent fighting in the Island of Crete appear to confirm the report that Omar Facha has been beaten by Cretans.

In the House of Commons, to-night, an amendment to the Reform bill, granting female suffrage was rejected by 132 majority. A division also took place on an amendment proposing copyhold franchise, in which the Derby Government was defeated.

Flood and Duffy, the Fenian prisoners, who were recently convicted at Dublin, have been sentenced to imprisonment for life at hard labor. McClure, another Fenian prisoner, was placed on trial at Cork to-day.

Queen Victoria to-day laid the corner stone of the Hall of Arts in the presence of a vast assemblage. The ceremonies were magnificent and impressive and the enthusiasm of the populace very great.

MAY 21.—The break in the Atlantic Cable has been ascertained to be three miles from Heart's Content.

Earl Derby says officially that the American Question will be amicably adjusted.—The proposition made some time since to arbitrate the whole case has been refused.

MAY 22.—Mr Stewart, chairman of the Board of Directors of the Anglo-American Company, publishes another communication in the London Times this morning. He says the broken cable will be repaired and ready for business in three weeks from this date.

The Derby race took place to-day. Although the weather was unfavorable there was an immense assemblage of spectators. The race was won by "Hermit," in the midst of a snow storm.

MAY 23.—Her Majesty the Queen has issued Her Royal Proclamation declaring the Union of the Provinces of Upper and Lower Canada, Nova Scotia, and New Brunswick, under one Government, to be called the "Dominion of Canada."

Appended to the proclamation is a list of Senators appointed by the Queen to the Upper House of the Canadian Legislature in accordance with the provision of the bill of the Confederation recently passed by the British Parliament.

The British Government has made representations to the leading Powers of Europe, urging a general disarmament.

MAY 24.—Sir Archibald Allison, the historian is dead.

MAY 25.—Earl Derby officially says that the Fenian Burke, whose sentence of death was recently commuted for life, will surely be hanged.

MAY 26.—Notwithstanding declarations to the contrary, it is thought the Government will not carry into execution the death sentence of the Fenian prisoners.

LIVERPOOL, May 21.—The firm of Fraser, Trenholm & Co., cotton merchants in this city, are said to have suspended.

MAY 24.—Advices received here from Hong Kong state that the United States Gunboat Ash-hatoh had bombarded a town in the Island of Formosa, the natives of which murdered the shipwrecked crew of the American barque Rover.

IRELAND.—Dublin, May 20.—The Fenian prisoner McCafferty convicted of high treason, was to-day sentenced to be hanged on the 12th of June.

CORK, May 24.—The Fenian prisoner McClure on being arraigned for treason, pleaded guilty.

FRANCE.—Paris, May 22.—The differences between the Emperor Napoleon and the Corps Legislatif, with regard to the army organization scheme, have been adjusted.

MAY 24th.—The Frigate Jean Bart of the French West India squadron, has been ordered to proceed to New York to take the Monitor Dunderberg to France. The Jean Bart is now lying at Annapolis, Maryland.

MAY 25.—The Emperor of Russia, King William of Prussia, the Emperor Francis Joseph of Austria, and the Sultan of Turkey, will all be here in about two weeks.

MAY 26.—The press of this city complains that Prussia is strengthening the fortifications at Rag-tadt.

PRUSSIA.—Berlin, May 21.—A horrible plot has just been discovered in Hanover having for its purpose the assassination of King William of Prussia, and Count Bismack. Several notable persons in this city are involved in the plot.—Numerous arrests, both here and at Hanover, have been made of persons believed to be implicated, and it is thought that by these timely precautions the design has been frustrated.

MAY 25.—The Governments of Prussia and Denmark are negotiating for the settlement of the North Schleswig question.

AUSTRIA.—Vienna, May 23, (evening).—The Austrian Minister at Washington has been instructed by his government to enter into negotiations with the President of Mexico with a view to securing the safety of the Emperor Maximilian, in case he should fall into the hands of the Liberals.

DENMARK.—Copenhagen, May 20.—The Dutch Government, it is said, has informed foreign powers that the Prussian Government continues to disregard the obligations of the treaty of 1865, in regard to Schleswig.

MISCELLANEOUS.

ANOTHER ATLANTIC CABLE.—We have now the prospect of a new telegraph Cable from New York to Brest, in France, by way of the Azores. The Bill passed both houses of the legislature with great unanimity, and now only awaits the signature of the Governor to become a law. This enterprise asks no aid from the State; it gives to our government the exclusive control of our own government and one end under the protection of our own flag, and this is no small benefit. The English cable is entirely in English hands, and it is well that there should be another, in American hands. The Bill binds the company to complete its line within 2 years.—N. Y. Post.

ENGINEERING.—Some English engineers have been during the winter studying the pass over Mount St. Gothard with a view of establishing a railway across it. According to their report the line could be completed in five years. The longest tunnel would be six kilometres (5-8 of a mile.)

IMPORTANT MOVEMENT IN THE ARMY.—The British Parliament is discussing a plan for employing private soldiers in useful industrial pursuits during their leisure hours, instead of subjecting them to a wearisome repetition of superfluous drilling. This system would not only increase their efficiency in the exigencies of a campaign, but would insure them the means of earning a living when they are discharged. The London Telegraph, in commending the plan, refers to the late war in this country, "where the industrial habits and acquisitions of the men told with tremendous effect in many an emergency." The military authorities, from the commander-in-chief down to the junior officers, are said to be unanimously in favor of the new system.

Larookah's Sarsaparilla Compound.

is an Alterative medicine of uniform strength, the effect of which is to eradicate from the system all those disorders which originate in Impure Blood. Each of its ingredients are known and used by medical men in their practice, but this combination is believed to have a greater medical effect than could be produced by their use separately or in any other form. Sarsaparilla, by itself, as is well known, operates slowly upon the system, but combined with other and more active agents, as in this Compound, its purifying effects are speedy and lasting. Hence, Scrofula, in all its multitudinous forms, whether in that commonly known as King's Evil, Enlargement of the Glands or Bones, Goitre, white Swellings, Chronic Rheumatism, Cancer, Diseases of the Skin or Spine, or of Pulmonary Consumption, emanating from the same cause, which is a poisonous principle or virus in the system, is in most cases completely eradicated by this medicine. Curing Scrofula in all its forms, this preparation may be relied upon as an effectual remedy for complaints of a kindred nature, such as Dropsical Swellings, Dyspepsia and Liver Complaints, Enlargement of the Ovaries, Epilepsy, Erysipelas, St. Anthony's Fire, Gout, Chronic Inflammation of the Mucous Membranes of the Throat, Windpipe, Nose and Ears, Mercurial and Syphilitic Affections, Neuralgia or Tic Dolereux, Phthisis Pulmonalis, Scald Head, Ulcers of all kinds, Weakness or Soreness of the Eyes, Female Complaints, such as Suppression, Irregularity, Leucorrhoea, Sterility, &c., General Debility, Salt Rheum, Boils, Pimples, Carbuncles, Pain in the Stomach, Side and Bowels, and all those affections which require an Alterative or Purifying Medicine. Price, \$1.00 per bottle, —6 bottles for \$5.00. Prepared by E. R. KNIGHTS, M. D., CHEMIST, Melrose, Mass.

LAROOKAH'S PULMONIC SYRUP.

The best Preparation ever made for the Cure of Coughs, Colds, Croup, Whooping Cough, Asthma, Catarrh, Bronchitis, Influenza, Pleurisy, Spitting Blood, Pain in the Side, Night Sweats, Humors, General Debility, the various Throat Affections and Hoarseness to which Public Speakers and Singers are liable, Consumption in its early stages, and all complaints tending to Consumption.

This Preparation is universally acknowledged to be the best remedy for Pulmonic Complaints that has ever been made available to the public. Purely vegetable in its composition, it may be administered with safety to the tenderest infant; while at the same time it is sufficiently active to meet the requirements of the most robust. The proprietor constantly bears in mind that the sick require the best aid that science can devise and under his personal supervision, Dr. Larookah's Syrup is kept at that high standard of excellence which has won for it at the bedside of suffering such a reputation as no other medicine has ever merited or attained.

FOR COLDS AND COUGHS.—Take the Syrup morning, noon and evening, according to directions on the bottle. Take the largest dose at night, on retiring to bed.

FOR CROUP OR HIVES.—Give the Syrup in doses large enough to produce vomiting, and it will effect an immediate cure.

WHOOPIING COUGH, however severe, may be alleviated and cured by the use of Larookah's Syrup, given from three to five times a day.

ASTHMA AND CATARRH.—Asthma, or Phthisis, is caused by an accumulation of mucus or matter in the bronchial tubes, which run through and supply every portion of the lungs with air; besides the phlegm which clogs up the wind tube, they are often lessened to one third of their usual diameter by spasmodic contraction, so that it is with the utmost difficulty that respiration can be performed. The Syrup immediately overcomes the contraction of the bronchial tubes, and enables them to expand to their original size; while at the same time it loosens the mucus which clogs them up, and which is, by a free and easy expectoration, ejected from the lungs. It should be taken in larger doses than for a mere cough, and in such quantities as will give relief, even if it produces vomiting.

BRONCHITIS.—Difficulty of breathing, harsh cough, a slimy expectoration, with all other symptoms by a disease of the air-tubes leading from the throat to the lungs, are speedily and specifically relieved by the use of this admirable remedy. This is a very painful, wearing, and injurious complaint, and always has a powerful tendency to inflame and soften the lungs, and thereby induce the worst form of pulmonary disease. Be warned in time, ye afflicted, and employ this valuable remedy. Large bottles, \$1. Medium size, 50 cents. Prepared by E. R. KNIGHTS, M. D., CHEMIST, Melrose, Mass.

KNIGHTS' ORIENTAL HAIR RESTORER

Proves itself the best preparation of its kind ever offered to the public. It restores gray or faded hair to its original color in less time, and is cleaner and cheaper than any other Hair Restorer in the market. Large bottles \$1, Six bottles for \$5.

KNIGHTS' HAIR DRESSING

Preserves and beautifies the hair, promotes its luxuriant growth, cures nervous headache, and all diseases of the scalp. Large Bottles. . . . Price \$1 IS PREPARED AT THE LABORATORY OF E. R. KNIGHTS, M. D., Chemist, Melrose, Mass. To whom orders may be addressed.

Sold by GEO. O. GOODWIN & CO., Wholesale Agents, 38 Hanover Street, Boston.

Also by COGSWELL & FORSYTH, 193 Hollis Street, Halifax. General Agents for Nova Scotia

Also, by Brown Bros., Woodhill Bros., Avery, Brown & Co., H. A. Taylor, J. H. Woolrich, T. Darney, H. P. Burton, M. F. Bager, W. Caldwell, and all Druggists and Merchants throughout the country. Feb. 6. 3m.

ROGERS & CO. ULCERATED CANCER CURED.

Who needs better proof, than the following voluntary testimony of Mrs. Hannah Balmain, OF WICKHAM, N. B. SOME four years since their came a lump in my breast, and at the time I did not know what it was—but on shewing it to three Doctors, they told me it was a "CANCER," and for which the knife would have to be applied, then again, I went to a female doctor, who has been in the habit of curing "Cancers" by drawing them out, but she informed me that it was deep in the flesh and too long seated and therefore could not help me. Knowing that something must be done, I concluded to try your Medicine, which I saw advertised in the Visitor. Accordingly I sent for a can of Ointment and Powders for making the Syrup, which I used without the slightest change, at the time. I began to think it was a failure, but concluded to give it another trial; consequently procured another can of Ointment and Powders and from its use, it gathered and broke in two places, and discharged very freely for about six months, after which time it broke again in another place, and one of the old Ulcers healed up, the remaining two still remaining. One of which ran for two and a half years, the other healing up in about two months, after it broke, during which time I used your medicine regularly. I may here state, that the last ulcer healed up about thirteen months ago, since which time I have enjoyed very good health! Yes, I may say better health, than I have enjoyed for several years. I remain yours, respectfully, MRS. HANNAH BALMAIN. Wickham, Queen's Co., N. B. } February 11, 1867.

FOR SALE BY—Brown, Bros & Co., Cogswell & Forsyth, and Avery, Brown & Co., and dealers in medicine everywhere. May 8. 3m.

TO THE ELECTORS OF THE COUNTY OF HALIFAX.

GENTLEMEN.—In a few days the House of Assembly will be dissolved, and new elections in the course of the summer will take place for seats in the House of Commons in the Dominion of Canada; and as I have been nominated for one of those seats by my fellow citizens, at a large and influential meeting held at Temperance Hall for that purpose, I beg respectfully to solicit from you a renewal of that confidence with which you have honored me during three successive Provincial Parliaments.

I have now to address myself for the first time of the electors of the Eastern Division of this county. It will be seen by the Act of Union, that both divisions form one Constituency, and I feel I have some claim to their support, for, in the discharge of my public duty, in all that related to the local interests of the county, I have never been at fault.

During the twelve years that I have had the honor of a seat in the Legislature, the Province has enjoyed a remarkable degree of progressive prosperity. Wealth has rapidly increased, and the revenue has always been sufficient to provide for the public expenditure. Without the burthen of increased taxation, the coast has been lighted, the rivers bridged, many lines of roads penetrating in every direction opened up, and railways east and west, to grasp the trade of the Gulf of St. Lawrence and the Bay of Fundy, placed under contract, which when completed will confer lasting benefits on the people of this Province. Education has been provided for, and large grants given to steamboats, packets, and ferries.

These are the results of the combined action of your public men, in which I have had a humble share; and now a bright gleam of hope for the future has cheered the land by the passage of the Union Act and the Credit Bill, in the Imperial Parliament, to both of which Her Most Gracious Majesty has given her assent,—uniting these Provinces in the happy bonds of Union, and placing within their reach the means of constructing that great public work, "the Intercolonial Railway," for which they have so long and so earnestly labored.

I hope a just judgment of my past conduct will entitle me to the same measure of good will which has been extended to me during my twelve years of public life; and in the meantime, I again respectfully and earnestly solicit from you a continuance of that confidence which has always cheered me on in the discharge of my public duty.

I have the honor to be, Gentlemen, Your obedient humble servant, JOHN TOBIN. Halifax, 1st May, 1867. May 8.

NEW GOODS—1867.

JOHN SILVER & CO. 156 Granville Street.
