

Prince was sent out to me, but I failed, and am not very sorry that I did fail. That is all I have to say."
An examination of the Prince's wound, showed it to be a very serious one, and, indeed, it is strange that the bullet, entering where it did, an inch or two to the right of the spine, about the middle of the back, did not produce instant death, or, at any rate, more serious results than it has done. In describing the sensation he felt when the bullet struck him the Prince said it seemed to him as if he were lifted from the ground.
Although for several days the physicians were unable to extract the bullet, and the Prince was unable to lie down lest it should change its position, no unfavorable symptoms occurred, there was no appearance of hemorrhage, which was naturally the chief danger, and at last the necessary operation was successfully accomplished. Even with youth, robust health, and a strong constitution in his favor, it is singular that he has escaped so lightly as he has.
Farrell, the attempted assassin of Prince Alfred, was executed on the 22nd of April.

There is a place of sacred rest,
Far, far beyond the skies,
Where beauty smiles eternally,
And pleasure never dies;—
My Father's house, my heavenly home,
Where "many mansions" stand,
Prepared, by hands divine for all,
Who seek the better land.
Yes, even at that fearful hour,
When death shall seize its prey,
And from the place that knows us now
Shall hurry us away,—
The vision of that heavenly home
Shall cheer the parting soul,
And o'er it mounting to the skies,
A tide of rapture roll.

READ THIS.

New Albany, Ind., March 12, 1867.
For forty years I have been afflicted with costiveness, and for the last twenty was compelled daily to resort to injections to secure an evacuation. In December last I commenced the use of Radway's Pills. After taking a few doses, my liver, stomach, and bowels were restored to their natural strength and duties. I have now a regular movement once a day, and, although 80 years of age, feel as hearty and strong as I did 40 years ago.

HIGH ENDORSEMENT FROM THE MEDICAL COLLEGE OF PRUSSIA.

DR. RADWAY

Is in receipt of an important official document signed by the Professors of the Medical College of Breslau, Prussia, embodying the result of an analysis of

RADWAY'S REGULATING PILLS.

Instituted for the satisfaction of the Prussian Government and people. It appears that the great popularity of the pills throughout Germany, as an aperient, antibilious and alterative medicine, had provoked the malice of the apothecaries, who caused a report to be circulated that the ingredients were poisonous. Therefore, a scientific inquiry into their nature and properties was ordered, the issues of which was a most triumphant vindication of the sanitary value of the Pills.

The Faculty of the College state in their report that after a careful and minute examination, they have the honour to state that "the pills are not only free from every substance injurious to health, but are composed wholly of substances and elements promotive of digestion, and certain at the same time to act favourably upon the nervous system," &c., &c. They state, further, that the injurious rumours set afloat by the Prussian apothecaries originated "in a mean spirit of trade jealousy, excited by the great celebrity attained by the Pills within a very brief period."

Signed in behalf of the College, DR. WIL. THEOBALD WERNER, Director of the Polytechnic Bureau.

DR. HEISS, First Assistant.

DR. RADWAY'S Pills are sold by Druggists and Country Merchants everywhere. Principal Depot for the New Dominion of Canada, 499 St. Paul, corner of Francois Xavier Street, Montreal, P. Q., D. C.
