For the time of HIGH WATER at Pictou, Pictou, Wallace and Yarmouth add 2 hours to the time at Halifax.
 For HIGH WATER at Annapolis, Digby, &c., and at St. John, N. B., add 3 hours to the time at Halifax.
 The time of HIGH WATER at Windsor is also the time at Parrsboro', Horton, Cornwallis, Truro, &c.
 For the LENGTH OF DAY double the time of the sun's setting.

Agriculture, &c.,

Rearing Calves.

The following is an extract from an essay on "Dairy Stock and its Management," read by Mr. Phineas Steadman, of Chicopee, before the Franklin (Mass) Farmers' Club:
 We come now to our second topic, viz.: "The management of dairy stock." It is of the first importance that all farm stock be kept in a thrifty, growing condition. It is much easier to keep a young animal growing than it is to start that animal after it has, by want of care or proper food, been allowed to stop growing. Could every farmer be properly impressed with the fact that when a young animal is fed only sufficiently to maintain its present condition and weight, that amount of food is lost, an important point would be gained. I know of no item in which we suffer so much loss.
 The best method of rearing dairy stock will vary with different individuals. To rear calves dropped in spring, a good, and I think economical method, is to put two calves to a cow (provided one not too valuable is at hand,) and turn to pasture. I prefer, however, to have them dropped in autumn, or between October and January. They may be allowed to take the milk from the cow at regular intervals, or be taught to drink the milk, and at three or four weeks old skimmed milk may be substituted, and the calves will thrive well, with the addition of good hay and provender. For provender I know of nothing better than a mixture of unground oats and linseed meal, in equal parts. At three months old an ordinary calf will take two quarts of this feed and a small quantity without injury. Calves dropped at this season have several advantages over those dropped in spring. They usually receive better and more regular care, are better prepared to endure the cold of the succeeding winter, and until they arrive at maturity, always hold an advance of several months in age and size, while reckoned in the same class.

SAWDUST AS MANURE.—The common practice of throwing this article into the streams on which saw-mills and shingle-mills are situated, is reprehensible. It would not pay to spread it upon a muck swamp, but upon any sandy land, or light, gravelly loam, deficient in vegetable matter, it would prove a good dressing, and in time would show good results. The best use we have ever seen it put to was bedding for animals in stables. It is an excellent absorbent, and will keep cows clean even better than straw. It is also a very light, handy article in the hennery, and more cleanly to handle than muck in common, open privy vaults. The article is merchantable in cities, and is quite extensively used upon floors in eating saloons, and for other purposes. At country mills it can generally be had for the carting, as mill owners are glad to get rid of it. It is a good substitute for straw, and this is now worth so much for manufacturing purposes, in many parts of the country, that no thrifty farmer can afford to use it for bedding.
 —American Agriculturist.

PREPARING MOLASSES TO PRESERVE FRUIT.—For preparing molasses for preserving fruit—which renders it much better suited for that purpose than syrup prepared from the best loaf sugar, as it is not so liable to candy, nor, it will prepared, to ferment—take eight pounds of molasses, (bright New Orleans, or sugar-house;) eight pounds pure water, one pound of coarsely powdered charcoal; boil for twenty minutes; then strain through fine flannel double; put it again in a kettle with the white of an egg, and boil gently, till it forms a syrup of proper consistence, and strain again.

NOVA SCOTIA RAILWAY.

SUMMER ARRANGEMENT.

MAIN LINE.	
Leave Halifax 6.20 a. m.	Ar. at Pictou 11.50 a. m.

EVERYBODY'S FRIEND.

ARCHIBALD'S VEGETABLE PAIN BALSAM.

THE great internal and external remedy for Coughs, Colds, Sore Throats and pains of all kinds; it is one of the best preparations ever offered to the public for Rheumatism and Neuralgia, warranted to stop the Toothache in four minutes, and Headache it always gives relief.
 Mr. JOSEPH CORKUM, Chester, Lunenburg Co., writes, Dec. 5th, 1866:—It is the best medicine I ever used; my legs were swollen for nearly a year, and by two rubbings of the Pain Balsam they were completely cured. I have used it myself and so has my family for Headache, Toothache, Coughs, Colds and Sore Throat, and always found it to give almost immediate relief. I never want to be without it.
 Many other testimonials to the efficacy of this valuable remedy which would occupy too much space to enumerate have been and are being constantly received.
 Wholesale Agents, Brown Brothers, and Cogswell & Forsyth, Halifax, N. S.; and J. Chaloner, St. John, N. B., and Druggists generally.

 22 and 28 George Street, Halifax, N. S.
 Oct. 30.

GOVERNMENT HOUSE, OTTAWA,

MONDAY, 6th April, 1867.
 PRESENT:
 HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS, by the 81st section of the Act 31 Vic., Cap. 6, entitled: "An Act respecting the Customs," it is enacted that—"Except in cases which by any regulation to be made by the Governor in Council, may be excepted from the operation of this section, all spirit (whether in bottle and imported from the United Kingdom, or in bond from a Bonded Warehouse in some British Possession) brought into Canada, in casks and packages of less size than to contain one hundred gallons, shall be forfeited."
 And whereas Brandy and other Spirits are usually exported from Europe in casks or other packages, containing less than one hundred gallons, whereby such goods, when imported into Canada, would become liable to forfeiture as aforesaid, unless excepted from the operation of the Act referred to.—Therefore His Excellency in Council, on the recommendation of the Honorable the Minister of Customs, and under the authority given by the said Act, has been pleased to make the following "Regulation."
 "All importations of spirits made direct to Canada from European Ports, shall be and they are hereby excepted from the operation of the 1st section of the Act 31 Vic., Cap. 6, entitled, 'An Act respecting the Customs.'"
 WM. H. LEE
 Clerk Privy Council
 April 29.

Oxygenized Air;

A CURE FOR

CATARRH,

AND DISEASES OF THE THROAT AND LUNGS,

APPLIED BY

DR. C. L. BLOOD,

No. Montgomery Place, BOSTON, MASS.

CHRONIC CATARRH.

Why entertain this loathsome disease when relief can be obtained? We meet those every day who are suffering from Catarrh to such an extent, that the Air Passages in the head are in a partly decomposed condition,—the nose and throat filled with such a mass of corrupt matter that they are objects of disgust to themselves, and of pity to those with whom they associate.
 Chronic Catarrh usually affects the head, fauces and bronchial tubes. It is usually caused by humoral or inflammatory blood, by which the mucous membrane is made sore or inflamed, producing a copious effusion of viscid matter. If it be produced by Scrofula in the blood it is almost certain to end in Consumption, unless speedily cured, because it is impossible to entirely prevent the matter from running down the bronchial into the air vesicles, and such is the excoerating, or scalding property of the matter, its contact with the delicate linings of the air-cells at once causes irritation, and invites the humoral properties of the blood to deposit therein Tubercles and Ulcers.
 Catarrh almost always attends Consumption, and frequently leads to it.

In Oxygenized Air we have a positive cure for this disease. The remedy is taken by inhalation,—breathed directly into the lungs, and through them carried into the blood; thus as soon as the blood will carry it, it reaches all parts of the system, decomposing the impure matter in the blood and expelling it through the pores, and through the natural channels from the system. Thus you will see that the cause of the disease is removed, and the disease itself must follow.

In this same manner we treat and radically cure Bronchitis and Consumption. Let no one suffering from these diseases despair of relief. If you are too far away to visit our office and see us personally, write a description of your symptoms, and forward to the address below.

Send for our circular, which gives a full description of these diseases.
 Out of the many thousands of testimonials received we publish the following:—

DR. C. L. BLOOD,
 Dear Sir: I desire to give you my testimony in regard to the value of your scientific system of treating Catarrh and diseases of the Respiratory Organs. I have used your remedy, "Oxygenized Air," in my practice for the last year with complete success. I have cured the worst forms of Catarrh, and a majority of the cases of Bronchitis and Consumption in their advanced stages. I unqualifiedly pronounce "Oxygenized Air" the greatest boon ever yet conferred upon our suffering race, and hope the day is not far distant when every intelligent physician will adapt your system in the treatment of all forms of chronic affections.
 Fraternally yours,
 L. M. LEE, M. D.
 No. 199 Westminster Street Providence.

DR. C. L. BLOOD,
 My Dear Sir: I have tested your remedy "Oxygenized Air" in advanced stages of Catarrh, Bronchitis and Consumption, and the results have been, in the highest sense, satisfactory; so positive am I of its wonderful power to arrest the progress of the above named diseases that I can conscientiously advise all who may be suffering from them to place themselves under the treatment at once.
 Respectfully yours,
 Rev. R. TOMLINSON,
 Plymouth, Mass.

Send for Circular, and address

THE SCIENCE OF HEALTH.

Every Man his own Physician.

HOLLOWAY'S PILLS,

AND

HOLLOWAY'S OINTMENT.

Disorders of the Stomach, Liver and Bowels.

The Stomach is the great centre which influences the health or disease of the system; abused or debilitated by excess—indigestion, offensive breath, and physical prostration are the natural consequences. Allied to the brain, it is the source of headaches, mental depression, nervous complaints, and unrefreshing sleep. The Liver becomes affected, and generates bilious disorders, pains in the side, &c. The Bowels sympathize with Costiveness, Diarrhoea, and Dysentery. The principal action of these Pills is on the stomach, and the liver, lungs, bowels, and kidneys participate in their recuperative and regenerative operation.

Erysipelas and Salt Rheum

Are two of the most common and virulent disorders prevalent on this continent. To these the Ointment is especially antagonistic; its "modus operandi" is first to eradicate the venom, and then complete the cure.

Bad Legs, Old Sores, and Ulcers.

Cases of many years' standing, that have pertinaciously refused to yield to any other remedy or treatment, have invariably succumbed to a few applications of this powerful unguent.

Eruptions on the Skin

Arising from a bad state of the blood or chronic diseases, are eradicated, and a clear and transparent surface regained by the restorative action of this Ointment. It surpasses many of the cosmetics and other toilet appliances in its power to dispel rashes and other disfigurements of the face.

Female Complaints.

Whether in the young or old, married or single, at the dawn of Womanhood, or the turn of life, these tonic medicines display so decided an influence that a marked improvement is soon perceptible in the health of the patient. Being a purely vegetable preparation, they are a safe and reliable remedy for all classes of Females in every condition of health and station of life.

Piles and Fistula.

Every form and feature of these prevalent and stubborn disorders is eradicated locally and entirely by the use of this emollient; warm fomentations should precede its application. Its healing qualities will be found to be thorough and invariable.

Both the Ointment and Pills should be used in the following cases:

- | | |
|---------------------|----------------------|
| Bunions, | Mercurial Eruptions, |
| Burns, | Piles, |
| Chapped Hands, | Rheumatism, |
| Chilblains, | Ringworm, |
| Fistula, | Salt Rheum, |
| Gout, | Scalds, |
| Lumbago, | Skin Diseases, |
| Swelled Glands, | Sprains, |
| Sore Legs, | Stiff Joints, |
| Sore Breasts, | Tetter, |
| Sore Heads, | Ulcers, |
| Sore Throats, | Veneral Sores, |
| Sores of all kinds, | Wounds of all kinds. |

CAUTION!—None are genuine unless the words "HOLLOWAY, NEW YORK AND LONDON" are discernible as a Water mark in every leaf of the book of directions around each pot or box; the same may be plainly seen by holding the leaf to the light. A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.
 Sold at the manufactory of Professor HOLLOWAY 80 Maiden Lane, New York, and by all respectable Druggists and Dealers in Medicine throughout the civilized world.
 There is considerable saving by taking the larger sizes.
 N. B.—Directions for the guidance of patients and the disorder affixed to each pot and box.
 Dealers in my well-known medicines can have Show-Cards, Circulars, &c., sent FREE OF EXPENSE, by addressing Thomas Holloway, 89 Maiden Lane, N. Y.
 Oct. 23. 1yr.
