Oxygenized Air; A CURE FOR CATARRH,

AND DISEASES OF THE THROAT AND LUNGS,

APPLIED BY

DR. C. L. BLOOD,

No. 9 Montgomery Place, BOSTON, MASS.

CHRONIC CATARRH.

Why entertain this loathsome disease when relief can be obtained? We meet those every day who are suffering from Catarrh to such an extent, that the Air Passages in the head are in a partly decomposed condition,—the nose and throat filled with such a mass of corrupt matter that they are objects of disgust to themselves, and of pity to those with whom they associate.

Chronic Catarrh usually affects the head, fauces and bronchial tubes. It is usually caused by humoral or inflammatory blood, by which the mucous membrane is made sore or inflamed, producing a copious effusion of viscid matter. If it be produced by Scrofula in the blood it is almost certain to end in Consumption, unless speedily cured, because it is impossible to entirely prevent the matter from running down the bronchial into the air vesicles, and such is the excoiating, or scalding property of the matter, its contact with the delicate linings of the air-cells at once causes irritation, and invites the humoral properties of the blood to deposit therein Tubercles and Ulcers.

Catarrh almost always attends Consumption, and frequently leads to it.

In Oxygenized Air we have a positive cure for this disease. The remedy is taken by inhalation,—breathed directly into the lungs, and through them carried into the blood; thus as soon as the blood will carry it, it reaches all parts of the system, decomposing the impure matter in the blood and expelling it through the pores, and through the natural channels from the system. Thus you will see that the cause of the disease is removed, and the disease itself must follow.

In this same manner we treat and radically cure Bronchitis and Consumption. Let no one suffering from these diseases despair of relief. If you are too far away to visit our office and see us personally, write a description of your symptoms, and forward to the address below.

Send for our circular, which gives a full description of these diseases.

Out of the many thousands of testimonials received we publish the following:—

DR. C. L. BLOOD,

Dear Sir: I desire to give you my testimony in regard to the value of your scientific system of treating Catarrh and diseases of the Respiratory organs. I have used your remedy, "Oxygenized Air," in my practice for the last year with complete success. I have cured the worst forms of Catarrh, and a majority of the cases of Bronchitis and consumption in their advanced stages. I unqualifiedly pronounce "Oxygenized Air" the greatest boon ever yet conferred upon our suffering race, and hope the day is not far distant when every intelligent physician will adopt your system in the treatment of all forms of chronic affections.

Fraternally yours,

L. M. LEE, M. D.

No. 199 Westminster Street Providence.

DR. C. L. BLOOD,

My Dear Sir: I have tested your remedy "Oxygenized Air" in advanced stages of Catarrh, Bronchitis and Consumption, and the results have been, in the highest sense, satisfactory; so positive am I of its wonderful power to arrest the progress of the above named diseases that I can conscientiously advise all who may be suffering from them to place themselves under the treatment at once.

Respectfully yours,

REV. R. TOMLINSON,

Plymouth, Mass.

THE SCIENCE OF HEALTH. Every Man his own Physician. HOLLOWAY'S PILLS, AND HOLLOWAY'S OINTMENT.

Disorders of the Stomach, Liver and Bowels.

The Stomach is the great centre which influences the health or disease of the system; abused or debilitated by excess—indigestion, offensive breath—and physical prostration are the natural consequences. Allied to the brain, it is the source of headaches, mental depression, nervous complaints, and unrefreshing sleep. The Liver becomes affected, and generates bilious disorders, pains in the side, &c. The Bowels sympathise by Costiveness, Diarrhoea, and Dysentery. The principal action of these Pills is on the stomach, and the liver, lungs, bowels, and kidneys participate in their recuperative and regenerative operation.

Erysipelas and Salt Rheum

Are two of the most common and virulent disorders prevalent on this continent. To these the Ointment is especially antagonistic; its "modus operandi" is first to eradicate the venom, and then complete the cure.

Bad Legs, Old Sores, and Ulcers.

Cases of many years' standing, that have pertinaciously refused to yield to any other remedy or treatment, have invariably succumbed to a few applications of this powerful unguent.

Eruptions on the Skin

Arising from a bad state of the blood or chronic diseases, are eradicated, and a clear and transparent surface regained by the restorative action of this Ointment. It surpasses many of the cosmetics and other toilet appliances in its power to dispel rashes and other disfigurements of the face.

Female Complaints.

Whether in the young or old, married or single, at the dawn of Womanhood, or the turn of life, these tonic medicines display so decided an influence that a marked improvement is soon perceptible in the health of the patient. Being a purely vegetable preparation, they are a safe and reliable remedy for all classes of Females in every condition of health and station of life.

Piles and Fistula.

Every form and feature of these prevalent and stubborn disorders is eradicated locally and entirely by the use of this emollient; warm fomentations should precede its application. Its healing qualities will be found to be thorough and invariable.

Be the Ointment and Pills should be used in the following cases:

- | | |
|---------------------|----------------------|
| Bunions, | Mercurial Eruptions, |
| Burns, | Piles, |

CAUTION!—None are genuine unless the words "HOLLOWAY, NEW YORK AND LONDON" are discernible as a Water-mark in every leaf of the book of directions around each pot or box; the same may be plainly seen by holding the leaf to the light. A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

There is considerable saving by taking the larger sizes.
