Florence, Jan. 15.—A large class of the population of Italy, which, since the consolidation of the kingdom under Victor Emmanuel, has steadily refused to recognize his Government by voting, has resolved to abandon its policy of inaction, and will take an active part in the next Parliamentary election.

Marquis Guolettio has been appointed Minister of the Royal Household, and General Superintendent of the Civil List.

RUSSIA AND TURKEY.—Jan. 13.—Dispatches received from the South indicate that a more liberal policy is to be pursued by the sublime Porte, in the matter of the Eastern question. A decree has been issued guaranteeing not only equality of rights in Canada, but a suspension of the Collection of Tribes for two years.

Jan. 16.—The aggressive policy of the Russian Government causes much alarm in Turkey. The Northern Post of St. Petersburg has a noticeable letter on the subject. The writer declares that Russia does not desire an extension of territory, and her only aim is to secure the safety of the Christian subjects of the Porte.

The St. Petersburg Gazette asserts that both England and France have urged the Sultan to make extensive military and naval preparations in the Mediterranean.

AUSTRIA.—Vienna, Jan. 15.—The approach of the frigate Novaro having been signalled from Trieste, the Emperor Francis Joseph, the Arch Duke and other members of the Imperial family left to day on special train for that city to receive the remains of Maximilian.

Jan 16.—The intelligence of the death of Maximilian was for the first time communicated to Carlotta four days ago. The effect of the announcement on the mind and health of the Archduchess is not known.

The remains of Maximilian were landed from the Novaro this morning with the most solemn ceremonies and in the presence of immense crowds of silent people gathered on buildings piers and shipping. The cortege was escorted by a body of cavalry and consisted of the municipal government of Trieste, the clergy in their vestments, and the hearse decked with flowers. The Dukes of the Empire, Admiral Tegethoff, Ambassadors of Foreign Nations, Austrian officials of high rank, Foreign Consuls, the various Corporations of the city, and the people generally. A division of Infantry bringing up the rear. Profound respect was shown everywhere by the vast multitude who lined the streets and thronged the houses along the route of procession.

It is stated that Prussia has joined France and Austria in their notice to the Government of Servia, concerning its hostile preparations.

Oxygenized Air;

A CURE FOR

CATARRH,

AND DISEASES OF THE THROAT AND LUNGS,

APPLIED BY

DR. C. L. BLOOD,

No. 9 Montgomery Place,

BOSTON, MASS.

CHRONIC CATARRH.

Why entertain this loathsome disease when relief can be obtained? We meet those every day who are suffering from Catarrh to such an extent, that the Air passages in the head are in a partly decomposed condition,—the nose and throat filled with such a mass of corrupt matter that they are objects of disgust to themselves, and of pity to those with whom they associate.
Chronic Catarrh usually affects the head, fauces and bronchial tubes. It is usually caused by humoral or inflammatory blood, by which the mucous membrane is made sore or inflamed, producing a profuse effusion of viscid matter. If it be produced by Scrophula in the blood it is almost certain to end in Consumption, unless speedily cured, because it is impossible to entirely prevent the matter from running down the bronchial into the air vesicles, and such is the excoorating, or scalding property of the matter, in contact with the delicate linings of the air-cells at once causes irritation, and invites the humoral properties of the blood to deposit therein Tubercles and Ulcers.
Catarrh almost always attends Consumption, and frequently leads to it.

In Oxygenized Air we have a positive cure for this disease. The remedy is taken by inhalation,—breathed directly into the lungs, and through them carried into the blood; thus as soon as the blood will carry it, it reaches all parts of the system, decomposing the impure matter in the blood and expelling it through the pores, and through the natural channels from the system. Thus you will see that the cause of the disease is removed, and the disease itself must follow.

In this same manner we treat and radically cure Bronchitis and Consumption. Let no one suffering from these diseases despair of relief. If you are too far away to visit our office and see us personally, write a description of your symptoms, and forward to the address below. Send for our circular, which gives a full description of these diseases.

Out of the many thousands of testimonials received we publish the following:—

Dr. C. L. BLOOD, Dear Sir: I desire to give you my testimony in regard to the value of your scientific system of treating Catarrh and diseases of the Respiratory organs I have used your remedy, "Oxygenized Air," in my practice for the last year with complete success. I have cured the worst forms of Catarrh, and a majority of the cases of Bronchitis and consumption in their advanced stages. I unqualifiedly pronounce "Oxygenized Air" the greatest boon ever yet conferred upon our suffering race, and hope the day is not far distant when every intelligent physician will adopt your system in the treatment of all forms of chronic affections. Fraternaly yours, L. M. LEE, M. D. No. 199 Westminster Street Providence.

Dr. C. L. BLOOD, My Dear Sir: I have tested your remedy, "Oxygenized Air" in advanced stages of Catarrh, Bronchitis and Consumption, and the results have been, in the highest sense, satisfactory; so positive am I of its wonderful power to arrest the progress of the above named diseases that I can conscientiously advise all who may be suffering from them to place themselves under the treatment at once. Respectfully yours, Rev. R. TOMLINSON, Plymouth, Mass.

Send for Circular, and address Dr. C. L. BLOOD, 9 MONTGOMERY PLACE, BOSTON, MASS. Physicians wanted to adopt this system of practice. Jan. 8. 6m.
