IMPROVEMENT IN CABINET ORGANS, PATENTED 1868. THE MASON & HAMLIN IMPROVED VOX HUMANA

Is a new invention, now ready in several styles of the MASON & HAMLIN ORGANS, to which the manufacturers invite attention, believing that it is likely to prove The Most Popular Improvement ever made in instruments of this class. It is now several years since the invention and application to such instruments of the VOX HUMANA, which was first introduced by its inventor to the organs of Mason & Hamlin, was urged to introduce it to the public. In its introduction, and especially considering its liability to be adopted, they were unwilling to adopt it. From their experiments for its improvement have resulted the factory of the Mason & Hamlin Organ Co., where, which have at last been eminently successful in producing the MASON & HAMLIN IMPROVED VOX HUMANA, combining several patents. In combination with the APPLIED SWELL, used only in those organs, it wonderfully increases the capacity and beauty of the instrument, imparting delicious qualities of tone, and producing novel and delightful effects, thereby adding to its variety and delicacy of tones, and increasing somewhat its power. It is a combination of several other instruments, and altogether a new and improved Organ. It is a new invention, free from liability to get out of tune, and requires no additional skill for its use, being only the ordinary action of the bellows, requiring no separate pedal.

STYLES AND PRICES. Attention is directed to the new styles of Organs, and new scale of prices, announced this month.
