JOHN P. MOTT'S CHOCOLATE, BROMA, AND OTHER COCOA PREPARATIONS. Approved of and recommended for more than a quarter of a century by the most eminent Physicians in British North America. To those who desire the best productions of Cocoa, free from deleterious substances, unsurpassed in quality, and more nutritious than Tea or Coffee, the undersigned offers the above articles, manufactured by himself. His BROMA, owing to the peculiar process of Manufacture, by which the oil of the nut is completely neutralized, while all its virtues are retained, is, as well to the robust as to the invalids and those whose digestion is impaired a delicate and salutary beverage. That its value as an easily digested and highly nutritious article of diet is recognized by the highest medical practitioners in the Dominion, the following testimonial simply demonstrates. JOHN P. MOTT.

Having tried the Broma made by Mr. John P. Mott, of Halifax, N. S., and having been made acquainted with its several ingredients, we are of opinion that it is a combination of one innocent and highly nutritious, not only to persons in health, but also to the weak and debilitated, and that from the facility with which it may be prepared, and the salutary properties of its ingredients, it is a valuable compound, and we cheerfully recommend it to convalescents and all who require a mild and strengthening food. Special inducements to canvassers and those getting up clubs. Specimen copies postage free for 5c. J. B. FORD & CO., Pubs., 89 Park Row, N. Y. Sept. 13.

THE SUN-LIGHT OIL. THE BEST BURNING OIL IN THE WORLD. DR. CULVERS' CELEBRATED SUN-LIGHT OIL IS ONE OF THE GREATEST DISCOVERIES OF THE AGE. M. WAGNER & CO., ARE SOLE PROPRIETORS FOR THE United States. AND DOMINION OF CANADA. Sold only by their Authorized Agents. Costs but 30 cents per Gallon to Manufacturer, and can be Manufactured anywhere in the United States, or Dominion of Canada.

THIS wonderful Oil, which is about to take the place of Kerosene, and other burning fluids is composed of materials which can be obtained in any country village. Can be made without the aid of machinery, by simply mixing the ingredients together. It has no offensive smell, and is WARRANTED TO BE NOT EXPLOSIVE. It burns without any smoke, and gives a softer and far more brilliant light than any other oil now in use, and is only equalled in brilliancy by gas-light. The ingredients which compose it are simple and cheap, costing but 30 cents per gallon, at the highest, and can be procured in any city, or country village in the Dominion of Canada. A gallon of the Oil can be made in five minutes, and a whole barrel in less than half an hour. Wherever it has been introduced it takes the place of Kerosene and other burning fluids, for the following reasons: 1st. Because it does not cost half as much. 2nd. It can be made anywhere, by any person. 3rd. It will never explode. 4th. It will burn in any lamp, with or without a chimney. 5th. It will not smoke the chimney. 6th. It will give no bad odour or offensive smell. 7th. It will not soil clothes if spilled upon them. 8th. It gives a clear and steady light, never flickers, and in softness and brilliancy is only exceeded by gas. 9th. It burns one-fourth longer than the best Kerosene made. 10th. It does not weaken the eyes as Kerosene or coal oil does by continual use. And finally, because it is cheaper and better in every respect than any other oil ever invented.

For lighting stores, hotels, and public places of all kinds, there is no oil that will at all compare with it in cheapness, brilliancy, and safety. For night lamps in hotels, public and private houses, it is invaluable, and can be used in small lamps as well as large ones, without chimney, giving out no smoke or smell, and does not enrust the wick. Although this oil has been before the public but a few months nearly 300,000 families are making and using it. This celebrated Oil was discovered and first invented in June, 1867, by the great French Chemist and Geologist, the late Dr. S. A. Culver of Paris. We succeeded before his death in obtaining the Patent for the sole right, to manufacture and sell the Oil in the United States and Dominion of Canada. In order to bring this Oil into universal use throughout the country, we have concluded to sell it only through our Agents. By this method families can manufacture the Oil themselves, thus getting it at the original cost, and all the profits that would be made by merchants and speculators, it sold through them. The oil can be manufactured any where for 30 cents, and in many places for much less. And while the cost is small, you have a light with which you can always feel safe for it can in no way be made to explode. And the softness and brilliancy of the light, will render cheerful the kitchen, the parlor, and the place of business. It gives a clear and steady light. And one gallon, with the same lamp, and the same sized glass, will burn six and one quarter hours longer than the best Kerosene. It is certainly, ONE OF THE GREATEST WONDERS OF THE AGE.

All we ask is, that the public give this Oil a general investigation; that they test its merits and its qualities for themselves, and then finding (as they surely will) that it is laden with results that will be beneficial to all persons, in every city, village, and farm house in our land, we respectfully ask that they lend their influence in our behalf, to aid in its advancement and circulation. Our authorized Agent for Nova Scotia is now prepared to fill all orders. He will travel through the Province, and we hope that all persons, will aid him in spreading this great boon throughout the land. JAMES P. NOWLAN, Sole Agent for Nova Scotia. Weymouth, Oct. 25th, 1869. Nov. 3. 3m.

Fancy Cabinet Ware. COMPRISING: CENTRE, CARD and TEPOY TABLES, LADIES WORK TABLES & WRITING DESKS, FLAIN and ORNAMENTAL WHATNOTS, DRAWING ROOM ESCRITOIRES, MUSIC STANDS, BRACKETS, &c.
