

WYMOUTH.—A STRANGE CIRCUMSTANCE.—A young man by the name of Ingram Mullen, eldest son of Mr. Enoch Mullen, aged 24 years, has been missing since Sunday, the 25th day of April.

Report says that he was sitting up his house with the intention of being married shortly, that he had placed in it some articles of furniture, and a new suit of clothes, that he was seen in his house about 10 o'clock that morning, and has not been heard of since. His house was locked, and clothes and furniture all there, his clothes excepting the above named suit were at his boarding-house. He had not even changed his clothes in which he had been working through the week, and could have had none with him except those he had on his person. It is supposed he had from five to eight dollars in his pocket.

What has become of him none here can tell, any quantity of rumors start, but are soon found to be groundless, some conjecture that he has gone away to some other place, but can find no reason why he should do so, as he was a very steady and temperate young man, and was not in debt. Others imagine that he is dead, but how, or where, none can tell, a thorough search has been made, but without effect.

Would you be kind enough to insert the above in your paper, that if any of your readers should know his whereabouts, they may inform his friends.

YARMOUTH.—We learn from the Visitor that Ex-Sheriff Shaw has given a site on which to erect a meeting-house at Milton. The Editor adds: This is generous, and will doubtless be largely supplemented by him in the shape of building funds. Too long the Baptists have neglected this populous section of Yarmouth. They will now, we hope, redeem the time. The present plan is to move up the old vestry in which a Sabbath school and stated services can be held until a new house can be built. The church is building a new vestry which will cost some \$2,000, and is so arranged as to accommodate not only the Sabbath school and social meetings, but baptismal candidates and sewing circles, &c. This probably will be completed in the course of the present season, and will be conducive to church progress.

Generous subscriptions have been made towards the erection of a new-house for the lower section of the town. An eligible site has been procured and one firm has subscribed \$3000 towards the enterprise, and others have given nobly and no doubt the work in due time will be accomplished.

In one of Doct. Ayer's lectures he states that Chemistry confers more practical benefit on mankind, than any other science, yet from no other source could more be so easily obtained. The arts and economies which chemistry would teach, if more thoroughly and generally studied, would speedily exercise a most beneficent influence. He freely confesses that he is indebted to this science for the virtues of his remedies, and advises that the practical application of chemistry to medicine, the arts, manufactures, and agriculture be enjoined upon our colleges and schools.—[Wrightsville, Pa., Star.

The United States.

The following is a delightful little bit of spread-english to receive by the Atlantic telegraph:—

LONDON, June 2.—The Emperor of Russia has signified his intention of sending an envoy extraordinary to Washington, for the purpose of congratulating President Grant and also to express the value that His Majesty sets on the maintenance of friendly relations between the two countries.

The New York Chamber of Commerce is composed of men who look beyond the narrow bounds of political prejudice. On Thursday last they passed a resolution favoring a renewal of the Reciprocity Treaty with Canada.

The big drum for the Peace jubilee at Boston, is the "biggest thing" of that kind ever made—eight and a half feet in diameter.

LATEST FROM EUROPE.

By Atlantic Telegraph.

ENGLAND.—THE IRISH CHURCH BILL was before the House of Commons on Monday the 31st. Mr. Gladstone moved its third reading.

A large number of petitions against its passage were then presented, after which James Maden Holt, the member for North East Lancashire, moved, and Lord Eloho from Haddingtonshire, seconded, the motion that this bill be rejected. A long but uninteresting debate followed, terminating in the refusal of the House to accept Mr. Holt's resolution, and the bill was passed by a vote of 361 against 247. The result was received with uproarious cheers from the ministerial benches. On the following day the Bill was read a first time in the House of Lords. The second reading is to be on the 14th inst.

The arrival of Mr. Motley the new American Minister to Great Britain, is made the occasion of any amount of fresh talk about the relations existing between England and the United States.

An address by that gentleman to the Liverpool Chamber of Commerce closed by saying:—"My most strenuous efforts shall be devoted to further a good understanding on the basis of enduring friendship and kindly relations, in accordance with the great principles of justice and honor, which are the immutable, and the only safe, unerring guides in the conduct of nations."

He assured the gentlemen who addressed him that during the period of his office he should endeavor to promote good understanding between the two nations; the best and highest purpose of both were fulfilled by friendship. The

American people and American Government desired amicable relation with Great Britain on the basis of justice and dispassionate regard for the rights and duties of both.

In discussing the relations between Great Britain and the United States, the Daily News hopes Minister Motley will assist England to forget the Treaty that was recently rejected. The Standard felicitates Mr. Motley on his recent speeches, and hopes England will be able to reciprocate his sentiments.

British America.—On the 2nd, in the House of Commons Sir Harry Verney inquired what the policy of the Government would be towards the American Colonies. Mr. Monsell, Under-Secretary for the Colonial Department, replied at considerable length. While he declined to enter on the general subject of the Colonial policy of the Government, he intimated that part of the policy was to throw the cost of self defence on each Colony. Measures to that end had been partially taken, and they would be extended next year. He had no doubt that the arrangement for the cession of the Hudson Bay Company's Territory would receive the ratification of the Canadian government. The question was not one of purchase only, but also of development, colonization and civilization, which had hitherto been virtually closed. If the scheme was successful, the Dominion would be able to extend from the Atlantic Ocean to the Pacific. He believed that all the interests of British Columbia lay in connection with those of Canada, and every facility would be given to forward them. Sir Stafford Northcote thought the Canadians were better able to decide for themselves what action they would take in the matter. Viscount Bury regarded Canada as the future highway to India and the East. Much had been said and written about the incorporation of the British possessions with the United States. He ridiculed this idea, and said that by such a course the Colonies had everything to lose and nothing to gain. Mr. Adderly, formerly Under-Secretary of the Colonial department, regarded the arrangement as detailed and explained by government, as eminently satisfactory. On principle he generally disapproved of the system of government guarantee, yet he would vote in favor of this.

LONDON, June 3.—In the House of Lords today, the Bill for the creation of Peersages passed in the Committee, with an amendment limiting the number of Peers to be created under its provisions to two (2) annually.

Sir Stafford Northcote, has nominated Mr. George Peabody to be a Trustee of the Hudson Bay Company, vice Sir James E. Tennant resigned.

June 4.—Much uneasiness is felt at Liverpool on account of the non-arrival of steamship United Kingdom, now 45 days from New York.

June 6.—A meeting of the Conservative Peers was held yesterday, to determine what course of action should be pursued in regard to the bill for the dis-establishment of the Irish Church. Lord Cairns urged that opposition to the Bill be made on its second reading, and that it be finally rejected.

Lord Salisbury deprecated the course recommended by Lord Cairns. He said that the agitation which would follow the rejection of the Bill, would be most disastrous to the country, and would do nothing to save the Irish Church; he thought it would be better to accept the Bill, and modify it in Committee, than to renew ill feeling and excitement.

Lord Carnarvon supported the recommendation of Lord Salisbury.

Lord Derby was in favor of the rejection of the Bill, contending that personal fears should deter no one from doing what's right.

A majority of the Lords present approved of the views taken by Lord Derby, and it was agreed that the second reading of the Bill should be opposed.

If the Bill should be opposed, it is estimated that there will be a majority of eighty against the Irish Church Bill, on its second reading in the House of Lords.

IRELAND.—June 4.—There was a large meeting of Orangemen in Dublin last evening, to protest against the dis-establishment of the Irish Church. Appropriate speeches were made and resolutions adopted.

June 7.—An immense public meeting of persons opposed to the Irish Church Bill has been held in Londonderry; nearly 12,000 persons were present. A protest against the Bill was adopted, which will be sent to the House of Lords.

SPAIN, June 7.—The Spanish Cortes have adopted the new constitution. The announcement was received with general satisfaction, but some popular excitement in Madrid ensued, and several persons were shot by the troops. Marshal Serrano is proposed as Regent.

Notices, &c.

Baptist Associations, 1869.

NOVA SCOTIA CENTRAL, at New Germany, Lunenburg County, on Saturday the 12th day of June, at 11 o'clock, A. M.

Young, Miss Louisa Church, Miss Mary Payant. By order of Committee, W. V. KENNEDY. June 9.

Ayer's Hair Vigor, For restoring Gray Hair to its natural Vitality and Color. A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color with the gloss and freshness of youth. This hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume. Prepared by Dr. J. C. Ayer & Co., PRACTICAL AND ANALYTICAL CHEMISTS, LOWELL, MASS. PRICE \$1.00. June 9. Real Estate for Sale, IN Bridgetown, County of Annapolis, consisting of six acres of land, situated almost in the heart of the Village and within a rifle shot of the R. R. Station. The above property is now under dilapidated and grass, but is admirably suitable for building lots, and in a locality most desirable for residences. For particulars apply to S. T. NEELY, Esq., Bridgetown. Or Dr. VAN ESS PARKER, 21 Barrington St., Halifax. March 17. 4f. wes.
