Liverpool, October 27, 1867. Early in the Spring of 1861, 1 with others of the family, had Diptheria. I got over the Diptheria, as the rest of the family did ; but after that, Consumption took hold of me, I grew worse all Summer till the month of December, when my physicien told my mother that he could do no more for me, I hour-ly expected to die. My grave clothes were prepar-ed I was so weak that I could not raise my hand to my head. I was nothing but skin and bones. I had a very bad cough raised a great deal of corrup-tion; my cheers had hectic spots in them by spells. I had no appetite, I expected to die, when Dr Davis was called. I heard my friends say that they thought I should die that night. In one week after I commenced trying Dr. Davis's medicing by comp I commenced trying Dr. Davis's medicine, my cough and my appetite were better-in two weaks very much so-and I got a good appetite in four weeks. I did not cough any more, and my mother said I ate sharply all I could get. I gained strength and flesh very .ast; and before spring I was as well as ever, and have been well ever since; and have worked hard most of the time since. I am now in Liverpool, N.S. well and hearty, and ready to testify to the

To DR. JOSEPH D. DAVIS-DEAR SIR :- I long since thought of writing you as I promised, thanking you for your kindness to as during my illness at Locks's Island in 1852. Had it not have been for your skillul medical treatment at that time, I certainly should have died. Consumption had laid its fatal grasp upon me; for weeks 1 was in the greatest distress, not able for days to lie down, and contiunally raising and coughing. I thought that no power on earth could cure me, but through your Homospathic treatment, and the interposition of a kind Providence I am fully restored to health and have for the last three years been able to attend to my household duties, and am comparatiwely in perteot health.

Wishing you every success and the blessing of God.

I remain yours truly, BERTHA BOWERS.

LIVERPOOL, N. S., December 2nd, 1867. I feel it a duty I owe to suffering humanity, to make public that I have been cured of the consumption by Dr. Joseph D. Davis' treatment, after trying other doctors and other medic ne. In the winter of 1832 I was taken with a bad bough, pain in my side in Council may from time to Time make for this and enest, with occasionally spitting of blood ; bad in London, and indeed in the world. We shall not attempt a synopsis of the lecture. It was

replete with interest as showing what vigorous earnest christianity may accomplish even now. Mr. Harley intersperced his statements with the peculiar incidents and humorous remarks of Mr. Spurgeon, that rendered it highly pleasing and interesting. The audience shewed how

Lake, Dartmouth, the property of G. A. S. Crighton, Esq., was totally destroyed by fire on Sunday morning last. It is supposed that the place was set on fire by some evil disposed person. The loss will be over a hundred dollars there having been several boats in the house when the fire took place.

The WEATHER during the past week has been hot enough for the last of July, instead of the first of June. On Sunday the thermometer rose to 90° in the shade, two or three other days have been nearly as hot.

It is feared that vegetation will suffer unless rain falls shortly.

TRURO. - A public dinner was given at Cobequid Hall on Tuesday last, in honor of the Hon. A. G. Archibald recently appointed Gov-ernor of Manitobah, and the North West Territores, an extent of country nearly equal to one half of Europe. It is spoken of as having been a very satisfactory affair-the arrangements and speeches "as harmonious, cordial and enthuisastic, as Mr. Archibald's warmest their celebrated and invaluable, admirers could desire." The dinner was strictly on temperance principles.

FIRE .- We regret to learn that the barn of Charles Hall, Esq., near Harborville, Cornwallis, was destroyed by fire on the night of the 23rd ult. The barn contained two horses, four cows, one calf, three tons hay, one riding Waggon, one sleigh, one horse cart, harnesses and all the farming implements, all of which were burnt up. The neighbors saw the light and hastened to the scene of conflagration, and by much effort saved the house and outbuilding. It is supposed to be the work of an incendiary .---

Dear Sir,--I take great pleasure in informing you that under your treatment I have received much benefit. In the winter of 1867, when I commenced taking your medicine, I had a bad cough, severe pain in my shoulders, and feared that consumption had claimed me for its victim. I took your medicine for about a year regularly, and since occasionally, and do not hesitate to say that my health is better now than it has been for the last ten years, and consider it is owing to your treatment and the blessing of God alone that I am alive to day, and able to look after my family as usual. Hoping that all who are suffering from lung affuotions will not fail to try your medicines.

Yours Respectfully, ELEANOR J. PATTERSON.
