

He had been charged by a paper in the morning with saying something against a citizen of St. John named Boyd, he did not know the man, and never heard of him until he saw that thing in the paper.

The Elder concluded by taking the two clergymen who were on the platform by the hand and bidding each farewell.

Rev. Mr. McKenzie expressed the feelings with which he had enjoyed the visit of Mr. Knapp. He had once in Boston refused to hear him, twelve years ago, but was now changed and was so glad to aid him in the good work in which he was now engaged.

Mr. Knapp came over the bay on Wednesday, and proceeded to Yarmouth; where we doubt not the large Baptist population will assemble in vast congregations to listen to the gospel from this earnest and successful evangelist.

General Intelligence.

Province of Nova Scotia.

It is expected that the Local Legislature will rise at the end of next week.

An old man named Williams, who escaped from the Insane Asylum a few days ago, went to the Police Station for shelter, where he was kept until sent back to the Asylum.

Thirteen persons were discharged by the Dockyard authorities a few days ago.

HALIBUT in large quantities was exported hence to the United States last week.

ANNEXATION.—Several of our exchanges speak of having received a copy of a "Manifesto of the N. S. Annexation League." They pronounce it a treasonable document.

A NEW HOTEL.—It is proposed to build a new Hotel adjoining the Colonial Market, South.

THE STORM of last week was most terrific. The steamer Chase left Portland on Saturday the 26th and had to leave to from 10 o'clock on Sunday night till Wednesday at 2 p. m. She arrived here on Friday morning soon after 12 o'clock.

About 70 feet of the Beech Hill road, at Kentville, was carried away on Tuesday evening. The house occupied by Thomas Moore, Esq., was removed about a foot from its foundation, and the cellar filled with earth and sand.

SHUBENACADIE CANAL.—Mr. L. P. Fairbanks has purchased this valuable property from the Company, and states by advertisement that the Canal will soon be put in complete order throughout its whole length, and be well supplied with steam and other boats of the right sort.

AVONDALE.—The Windsor Mail reports the case of small-pox here a light one.

LAHAVE RIVER.—The Bridgewater Times learns that \$400 will be given to establish steam communication between Bridgewater and Fort Point, at the mouth of the LaHave.

NEWFOUNDLAND.—Mr. Tessier was returned for St. John's without opposition. The Government party have twenty members and proceed to business.—On Monday last the House of Assembly was in session the members of both parties were present. The select committee on elections had commenced their investigations.

Amongst Atlantic Cables, steam navigation and those progressions of science and art that mark the nineteenth century, not the least useful, are Dr. Ayer's medicines. They take rank among the benefactions of mankind, from the rapidity and certainty with which they cure. Try AYER'S CHERRY PECTORAL on a cough and it is gone. What skin diseases or impurities of the blood withstand AYER'S SASAPARRILLA? AYER'S PILLS are the perfection of a purgative—every family should have them as almost every family does. Not a trifle to be thankful for are good medicines and the knowledge how to use them for protection from disease. These Dr. Ayer's preparations and publications furnish, and we do not hesitate to commend them.—St. Louis Leader.

Veterinary Surgeons all over the country are recommending Sheridan's Calvary Condition Powders for the following troubles in horses:—Loss of appetite, roughness of the hair, stoppage of bowels or water, thick water, coughs and colds, swelling of the glands, worms, horse ail, thick wind, and heaves.

A friend of ours who is chief clerk in the Government Dispensary, says that no medicine chest is now complete without Johnson's Anodyne Liniment. We always supposed it was prescribed by law; if it is not it ought to be, for certainly there is nothing in the whole materia medica of so much importance to the soldier and the sailor as "Johnson's Anodyne Liniment."

SMITH'S AMERICAN ORGANS!

The Manufacturers desire to call the special attention of the Musical public to these magnificent instruments. Having the longest experience of any house in New England, owing a large and perfectly-appointed Manufactory, with the aid of the best Musical Talent and the best Workmen,—with ample facilities, and the very best Materials, they are able to produce the BEST REED INSTRUMENTS.

Every portion of the labor is done under immediate supervision; and such is the unerring perfection of their system, that they have no imperfect and NO SECOND-CLASS WORK.

The American Organ

is the peculiar and exclusive achievement of this House; differing from all other instruments in construction, and surpassing all in VOLUME, SONORITY, VARIETY, SWEETNESS, AND EXPRESSION.

But it is not claimed that the AMERICAN ORGAN is sold at the lowest price,—as the manufacturers have no desire to waste their time upon feeble and characterless instruments, nor to furnish a supply of dissatisfactions at the low price of \$50 each. Nothing worthy can be produced for such a sum. They mean to make only the best reed organ, and they are satisfied that a discriminating public is willing to pay the value of what it gets.

Send for an illustrated descriptive list of styles, to be had postpaid, on application. Full examination of the qualities claimed is earnestly solicited. Testimonials (unsought) from the PRINCIPAL MUSICAL AUTHORITIES, establishing the character of their Instruments beyond all question or cavil, are printed in their circulars.

Twenty Years Established! 30,000 Instruments sold!—Each one a reference!

ANILINE DYES IN PACKETS.

THESE dyes were introduced into New Brunswick, a few months ago by J. Chaloner, St. John N. B., and being found to work well have been favorably received by the public. They are as follows: Magenta or Roseine, Magdala Pink, Crimson, Scarlet, Purple, Blue, Violet, light and deep Yellow, Green, Brown, and Ponceau Scarlet. Green requires pure wool in order to succeed, part cotton flannel won't take it. Most of them dissolve freely in hot water, others have to be first dissolved in a little spirits, and then added to the boiling water. Directions go with each packet. They are very easily used, all required is to dissolve the dye in boiling water, and put in the goods. Iron vessels should not be used, a milk dish well heated previous to the operation is the best. Some of these dyes make good inks viz: Purple, Violet, Blue; Ponceau makes fine Jelly or Syrup coloring, or Red Ink.

IMPORTANT.

YARMOUTH, Sept. 29th, 1869.

DR. J. D. DAVIS.

Dear Sir.—A sense of duty, and not the desire of notoriety, impels me to make public the following statement of fact:—Two years ago I had all the symptoms of Consumption in its advanced stages,—racking coughs, shortness of breath, pain in the lungs, back and shoulders, loss of appetite, and great weakness, being able to sit up only a part of the time. A year ago last winter, I applied to Dr. J. D. Davis, and have been under his treatment the most of the time since. Contrary to the expectations of my friends, I have recovered my health, as those who know me can testify, and do most cheerfully recommend to consumptives a fair trial of Dr. Davis' new treatment of a disease which is one of the most terrible scourges of the human race.

MRS. WILLIAM ALLEN.

I the subscriber do hereby certify that Mrs. Allen is a near neighbor to me, that the statement made by her in the above, I know to be strictly true. A. C. WHITE.

UPPER PORT LATOUB, Sept. 23, 1869.

DR. JOSEPH D. DAVIS.

Dear Sir.—I take great pleasure in informing you that under your treatment I have received much benefit. In the winter of 1867, when I commenced taking your medicine, I had a bad cough, severe pain in my shoulders, and feared that consumption had claimed me for its victim. I took your medicine for about a year regularly, and since occasionally, and do not hesitate to say that my health is better now than it has been for the last ten years and consider it is owing to your treatment and the blessing of God alone that I am alive to-day, and able to look after my family as usual. Hoping that all who are suffering from lung affections will not fail to try your medicine. I remain, Dear Sir, Yours Respectfully, ELEANOR J. PATTERSON. Oct. 14, 1869.
