190

OHRISTIAN MESSENGER, JUNE 15, 1870.

Fish ponds and oyster beds, aided by artificial means, abounded in France and some parts of the United States. He exhibited an extended plan of portions of ---- River, which shewed how convincibly it was adapted to this Province, and he hoped soon to see information which had collected on both these important subjects put forth in pamphlet form.

. Dr. Harley explained how beneficially flax was grown and manufactured in Lunenburg.

Nathan Moses, Esq., urged united action with the Halifax Company, and thought it high time that home manufactories should be in full play. Building and sailing ships had been sources of wealth, but the whole affair now was uncertain and fluctuating.

Robert Brown, Esq., urged similar reasons for action. He had just commenced operations for grinding salt, and found that the small boxes in which the table salt was packed, cost \$7 per hundred in the States, many of them made out of the very wood that we sent there.

A committee of seven gentlemen was then formed, and they have since met, and opened a subscription list.

Yours truly,

ALEPH.

Yarmouth, 7th June, 1870.

Dominion and foreign News.

MONTREAL .- Two most destructive fires broke out here on Friday last resulting in the destruction of the Canadian Glass Company's Warehouse. The fire was caused by the overworking and consequent overheating of a shaft of the motive elevator power near the weigh house. The South and Western half of the building at the time, contained some ten thousand barrels of flour, about 17,000 bushels of wheat and peas, the value of which would be about \$18,000, which is only partially insured, and which, together with the damage to the building is estimated at about \$200,000.

June 12 - Prince Arthur, the Governor General, and Lady Young, left here to-day for Lake Memphermagog, Mr. Hugh Allan's country seat. As this was the final departure of the Prince from this city, the Mayor presented a farewell address in behalf of the Corporation.

arrived at Gads Hill on Thursday morning. A consultation was held, and the case was at once age. pronounced hopeless. The patient sank gradually and died at fifteen minutes past six James Wright, in the 6th year of his age. o'clock. Foremost in the Rank of Music

Dear Sir,-I have much pleasure in giving my testimony in favor of your valuable medicines. In the summer of 1868 my health was very poor for a long time-caused by impure blood and diseases in consequence, I found I was daily getting worse, and was recommended to try you: medicine-I did so and am happy to say it had the desired effect. I have enjoyed excellent health ever since. My wife has also taken it with great satisfaction.

Yours very respectfully, JAMES WOLFE.

Sworn before me at Falmouth, this 28th day of March, A. D., 1870.
