## ANILINE DYES IN PACKETS.

THESE dyes were introduced into New Brunswick, a few months ago by J. Chaloner, St. John N. B., and being found to work well have been favorably received by the

public. They are as follows: Magenta or Roseine, Magdala Pink, Crimson, Scarlet, Purple, Blue, Violet, light and deep Yellow, Green, Brown, and Poncean Scarlet. Green requires pure wool in order to success, part cotton flannel wont take it. Most of them dissolve freely in hot water, others have to be first dissolved in a little spirits, and then added to the boiling water.
Directions go with each packet. They are very easily used, all required is to dissolve the dye in boiling water, and put in the goods. Iron vessels should not be used, a milk dish well heated previous to the operation is the best. Some of these dyes make good Inks viz: Purple, Violet, Blue; descriptions and prices, will be sent post-paid, on Poncean makes fine Jelly or Syrup coloring, or application.

The Messrs. Smith mean to make ONLY the best reed instruments, and they are satisfied that a discriminating public is willing to pay the value | Manufactured Good
