# CHRISTIAN MESSENGER, FEB. 9, 1870.

THE PROVINCIAL PENITENTIARY, -- The Windsor Mail of last week, has some notes from a visitor to this institution. He says :---

Shoemaker's shop, Last year t e convict shoe- record them. makers manufactured three thousand five hundred pairs of boots and shoes. A Blacksmith's shop was in full operation, also a Tailor's and Carpenter's, and a few of the men were emplayed in hewing out another stone cell, prominent among them was a stout negro, t e expression of whose face as he wielded his stone hainmer, was not the pleasantest one in the world. In the dining room a couple of men were engaged in graining the drawers of the tables.

Of course all your readers have heard of the Lascar. I saw him seated in his cell, making a person or persons who shall buy and use Par- seen, at the Office of the Chief Engineer, in Ottawa, flute, which by the way is his constant occupa- sons' Purgative Pills and fail of relief and on and after the 17th January, 1870. tion, as soon as he makes one he breaks it up satisfaction. and goes to work at another. He was very eavage and violent for the first few years of his confinement, but he is quiet enough now. He could have left the institution had he so desired, for good and all, though perhaps it might have been for evil, having been allowed to go down to a wharf unaccompanied. But he returned to his old quarters. He is a small man, and a good sized boy would have no difficulty in mas-tering him. His muscular power has probably much degenerated through his long confinement.

I saw the mate Douglas in his cell, probably now the most notorious character in the Penitentiary. He has tried several times to escape, but his attempts have been detected. Being employed in the Shoemaker's shop, he secreted a quantity of hemp out of which he manufac-tured very neat and strong ladders, all that was wanted to complete them was a hook to catch in the coping of the stone wall which surrounds the Penitentiary yard. He used to secret these ladders in holes and corners but they wave dis ladders in holes and corners, but they were dis- York. covered. To prevent these attempts for the Feb. 9. future he is now confined in his cell."

THE THIRD DEGREE.- A graduate of Acadia informed a friend the other day that he had transferred his degree of M. A. to his wife, and "There were twenty-five men working in the glad to learn of such events but do not commonly

> It is now generally admitted by honest Physicians, that when once the Consumption is fairly fastened upon he lungs, no human power can save the patient from death. They also say that about fifty per cent of those who die from this disease can trace the cause to, a neglected Rolling Stock: cough or cold, which might have been cured by a small bottle of Liquid Opodeldoe, or what is the same thing, Johnson's Anodyne Liniment.

LIVERPOOL .- The Advertizer gives a glowing account of the late Concert under the management of Prof. Spinney. It realized upwards of \$100 for the Reading-room.

AMMERST,-The Free Discussion Club at its last meeting, after discussion voted by a majority, that Independance would be more conducive to the welfare of the Dominion than our present position.

DROPPED DEAD .- A fine cow owned by Rev G. F Miles, and valued at nearly \$50, fell dead the other day while being driven from River Philip to Amberst. She had been driven seven miles on that day at a very moderate rate.

INCENDIARISM IN DIGNY COUNUY .--- On Sunday morning January 30th, about 2 o'clock a fire broke out in the barn of Mr. J. W. Poole, of Smith's Cove, and ere it was discovered it was too late to save anything. About 7 tons of hay, a quantity of grain, 7 head of eattle, a horse and them last water by the citizens of Halilax, are now waggon, with other farming utensils were con- their superior. sumed by the devouring element. Tracks were discovered and traced from the barn to J. W. Pratt's house and from the house to the barn. STELLARTON, PICTOU COUNTY .-- Pursuant to notice a public meeting of ratepayers of the No. 1 Will leave Halitax for Picton, at 7.30 a.m. village situated on the East River, in the immediate vicinity of Albion and Acadia Mines, and variously designated as " Albion Mines," " Acadia Mines," and " Coal Mine Station," was held on Tuesday evening the 1st February, 1870. Captain 1', McKay was appointed Chairman and John Matherson, Esq., Secretary,

The chairman stated the object of the meeting to be the selection of a name for the place. It was then moved by Jesse Hoyt, Esq., J. P., and seconded by James McDonald, Esq., Railway Agent, and passed unanimously:

" Resolved, That all names submitted for the consideration of this meeting shall be original names, and not those of any Post Office or Telegraph Town in the United States or the Dominion of Canada."

The chirman then called, severally, npon those

### THE MASON & HAMLIN CABINET ORGANS ARE THE BEST.

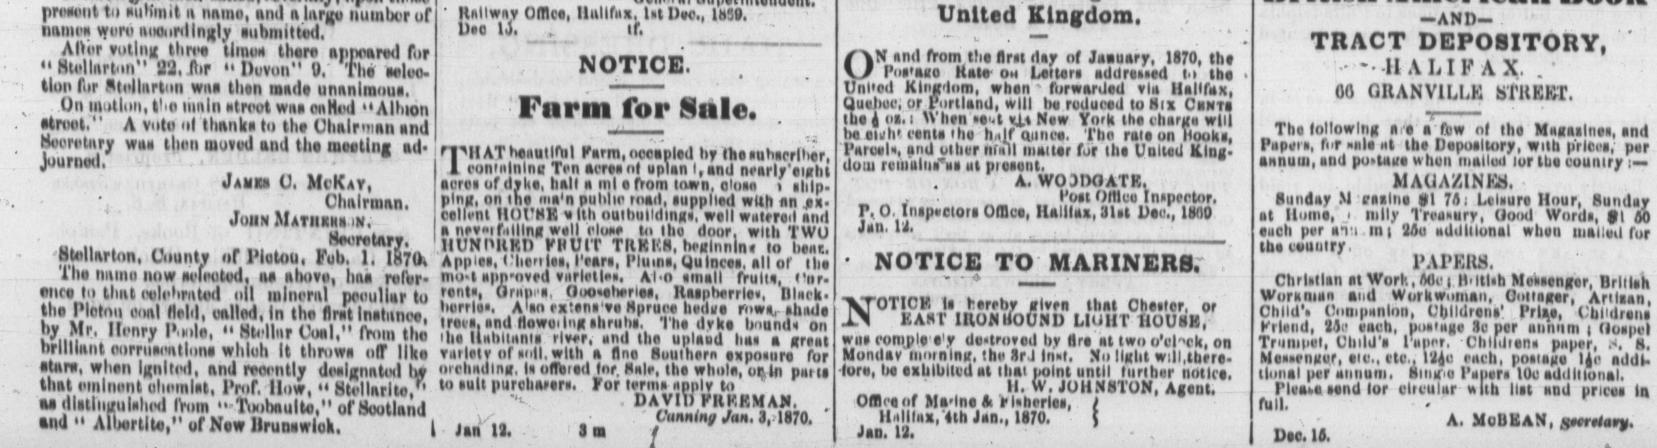

As proved by the almost universal preference of musicians ; the uniform award to them of highest premiums at Industrial Exhibitions, including the Paris Exposition, and a demand for them far exceed. ing that for any other instruments of the class.

#### PRICES REDUCED.

The great demand for these celebrated instruments has enabled their manufacturers to so greatly increase their facilities for manufacture that they now offer them at prices of inferior work. Five Octave Organs, and Five Stops, Tremulantand Knee Swell and the Mason & Hamlin Improvements, found in no other Organs, \$125 Other styles in proportion.

A Testimony Circular, with the testimony in full to the superiority of these Organs, from a majority of the most eminent musicians in this country and many in Europe; also an Illustrated and Descriptive Circular, with correct drawings, descriptions and prices, will be sent free of all expense to every applicant. Any one having any idea of buying an instru-ment of any kind, should at least send for these circulars which will cost him nothing and contain much useful information.
