WILLOW BREAD.—The leaves of our common or basket willow (Salix nigra, Marshall), treated the same as usual for hops, makes an excellent yeast or leaves for light bread.

CURE FOR LOCKJAW.—A correspondent of the Scientific American recommends turpentine as a cure for lockjaw. He says: Let any one who has an attack of lockjaw take a small quantity of turpentine, warm it and pour it on the wound, no matter where the wound is or of what nature it is, and relief will follow in less than one minute.

THE ammonia oxide of copper is a solvent for silk, paper and cellulose. If its action be limited to a few moments, it converts the surfaces into a gelatinous mass; and Scoffern proposes to employ this property to render the paper water-tight.

Pastures may be laid down, sowing grass-seed with rye; this will afford both fall and spring feed, and gradually gives place to the grass as summer comes on.

It is claimed that mutton in Europe is superior to that produced in America. A prominent New York sheep breeder has been investigating the matter and thinks that the explanation is that "they feed turnips."

The superiority of some men is merely local. They are great because their associates are little.

The used key is always bright. Drawn wells have the sweetest water. Standing pools gather filth. "If I rest, I rust," says the key.

Sensibility would be a good portress, if she had but one hand; with her right she opens the door to Pleasure, but with her left, to Pain.

A former slave of the Davis family, named Montgomery, has received a prize for the best bale of long-stapled cotton delivered at New Orleans.

A rat hole in one of the wheat bins at Wright & Co's grist mill at Great Falls, N. H., let thirty bushels of wheat into the river on the 11th, but owing to the low water about half of it was recovered, in a damaged condition.

The wife of a farmer residing near Troy, N. Y., was surprised, a few days since, while breaking an egg, to find that it contained another egg of a much smaller size.

A bull calf a day old was recently sold by the Duke of Devonshire for 700 guineas.

SOME BAD PUNS.—"Why have you a right to pick a photographer's pocket? Because he has pictures."

Why ought you to mix a druggist's medicine? Oh yes; because he has mixtures.

Why ought you not to consider a farmer's hat fit to pass for a contribution-box? Certainly, speak up,—that's it; because he has put-ures for cattle to eat out of.

MESSENGER ALMANACK.

November, 1870.

Table with columns for Day, Sun, Moon, High Tide, and Low Tide. Includes dates for Full Moon, Last Quarter, New Moon, and First Quarter.

THE TIDES.—The column of the Moon's Southing gives the time of high water at Parrsboro', Cornwallis, Horton, Hantsport, Windsor, Newport, and Truro.

High water at Pictou and Cape Tormentine 2 hours and 30 minutes later than at Halifax. At Annapolis, St. John, N. B., and Portland Maine, 3 hours and 44 minutes later, and at St. John's, Newfoundland, 1 hour earlier, than at Halifax.

FOR THE LENGTH OF THE DAY.—Add 12 hours to the time of the sun's setting, and from the sum subtract the time of rising.

FOR THE LENGTH OF THE NIGHT.—Subtract the time of the sun's setting from 12 hours, and to the remainder add the time of rising next morning.

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative Pill.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

For Dyspepsia or Indigestion, Flatulency, Bloating, and Loss of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back and Loins, they should be continuously taken, as required, to change the diseased action of the system.

For Dropsy and Dropsical Swellings they should be taken in large and frequent doses to produce the effect of a drastic purge.

For Suppression a large dose should be taken as it produces the desired effect by sympathy.

As a Dinner Pill, take one or two Pills to promote digestion and relieve the stomach. An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system.
