SMITH'S American Organs.

Having completed an important addition to their Factory, together with improvements made necessary by their largely increased business, the Manufacturers take pleasure in informing their friends and the musical public that they are now prepared to answer orders for all the various styles of their instruments.

As their reputation has been the slow growth of twenty years, and not the result of puffery, they propose to adhere to the principles by which they have succeeded, viz.:

- To use best materials only, without regard to price; To insist on the highest style of work; To combine all the elements of power, but not at the sacrifice of sweetness and delicacy; To look for constant improvement, keeping absolute perfection in view.

With every possible facility for the production of the best work at fair rates, and guided by their long experience, the manufacturers claim that their Organs

ARE NOT SURPASSED.

For proof it is only necessary to point to their ready sale in England, at double the price, in competition with the ALEXANDER ORGAN, which, as is well known, received the first prize at the Paris Exposition.

A THOROUGH COMPARISON IS INVITED. as to all the points of superiority claimed for these splendid instruments.

At the present rate of production, it will not be long before there will be

AN ORGAN IN EVERY HOUSEHOLD. An elegantly illustrated Circular, containing descriptions and prices, will be sent post-paid, on application.

DR. JOSEPH D. DAVIS

WOULD inform the public that after thirty years of study, investigation and practical experimenting concerning that terrible disease CONSUMPTION,

And the diseases of the anterior and posterior nares, throat, bronchia, lung, heart, liver, kidneys, and uterus, and twenty years spent in investigating, experimenting and proving, with the medicinal and therapeutic properties of the roots, barks, plants and shrubs, indigenous to Massachusetts, Maine, New Brunswick and Nova Scotia,—he has discovered new remedies, and new modes of treatment, for Consumption, not previously known to Medical Science; and with the large number of cases treated, relieved and cured during the past ten years, in Maine, Massachusetts, and in different sections of Nova Scotia, has proved, beyond the shadow of a doubt, that Consumption, very often in its advanced stages, with his medicines and mode of treatment, can be cured.

SHELBOURNE, April 26, 1870.

DR. JOSEPH D. DAVIS.

Dear Sir: It gives me great pleasure to bear testimony to the wonderful and complete cure your medicines and treatment have effected for me, after having suffered the most severe pain, and been unable to work for over two years, besides losing my eyesight. I am now quite restored to health, able to attend to my business and my eyesight is greatly improved. I attribute this entirely to your medicine, as I had previously consulted many physicians and taken their remedies without any benefit. As you may remember when I first employed you I was at death's door, in the last stage of Consumption, was enormously swelled with dropsy, hardly slept for a fortnight, was extremely weak and no one anticipated my recovery. Should any one doubt this statement I can refer to the Rev. George W. Clark and the Rev. T. Watson Smith, who often visited me during my illness, and you are at liberty to make what use you please of this certificate.

Yours very truly, CHRISTIAN R. BOWER.
