DR. JOSEPH D. DAVIS

WOULD inform the public that after thirty years of study, investigation and practical experimenting concerning that terrible disease CONSUMPTION,

And the diseases of the anterior and posterior nares, throat, bronchia, lung, heart, liver, kidneys, and uterus, and twenty years spent in investigating, experimenting and proving, with the medicinal and therapeutic properties of the roots, barks, plants and shrubs, indigenous to Massachusetts, Maine, New Brunswick and Nova Scotia,—he has discovered new remedies, and new modes of treatment, for Consumption, not previously known to Medical Science; and with the large number of cases treated, relieved and cured during the past ten years, in Maine, Massachusetts and in different sections of Nova Scotia, has proved, beyond the shadow of a doubt, that Consumption, very often in its advanced stages, with his medicines and mode of treatment, can be cured.

He has, at great expense, procured from London, Paris, Vienna and the United States, the finest and most delicate instruments to enable him to thoroughly diagnose diseases. THE MICROSCOPE for testing the impurities of the blood, urine, mucus expectoration of the lungs, &c., &c.

THE STETHOSCOPE for diseases of the chest and lungs. THE SPHYGMOSCOPE for estimating the force and character of the pulse.

THE LARYNGOSCOPE for ailments of the throat. THE RHINOSCOPE for diseases of the nasal passages. THE OPHTHALMOSCOPE for the eye. THE OTTOSCOPE for the ear.

SHELBURNE, April 26, 1870.

DR. JOSEPH D. DAVIS.— Dear Sir: It gives me great pleasure to bear testimony to the wonderful and complete cure your medicines and treatment have effected for me, after having suffered the most severe pain, and been unable to work for over two years, besides losing my eyesight. I am now quite restored to health, able to attend to my business and my eyesight is greatly improved. I attribute this entirely to your medicine, as I had previously consulted many physicians and taken their remedies without any benefit. As you may remember when I first employed you I was at death's door, in the last stage of Consumption, was enormously swelled with dropsy, hardly slept for a fortnight, was extremely weak and no one anticipated my recovery. Should any one doubt this statement I can refer to the Rev. George W. Clark and the Rev. T. Watson Smith, who often visited me during my illness, and you are at liberty to make what use you please of this certificate. Yours very truly, CHRISTIAN R. BOWEN.

It is now several years since the invention and application to such instruments of the VOYEUR HUMANA, which was first applied by its inventor, J. Mason & Hamlin, who were the first to bring it to the public. In its then improved form, it was especially considering its liability to become injured, they were unwilling to adopt it. They have, however, been made in the factory of the MASON & HAMLIN Organ Company, and elsewhere, at last been eminently successful in the hands of the MASON & HAMLIN IMPROVED VOYEUR HUMANA, combining several patents.

In connection with the AUTOMATIC BELLOWS SWELL, used ONLY in these organs, it wonderfully increases the capacity and beauty of the instrument, and produces delicious qualities of tone, and producing the most desirable effects; especially adding to its volume, and increasing the resonance of several orchestral instruments, and together, as furnished in our organs, "The effect is fascinating."

It is simple in construction, free from liability to get out of order, and requires no additional skill for its use, being operated by the ordinary action of the bellows, requiring no separate pedal.

See reduced prices! MASON & HAMLIN Organ for \$50!
