

The public are hereby assured, through the columns of the Messenger that Parsons' Purgative Pills contain no injurious principle, but that they may be administered to children and the most weak and scattered constitutions in small doses, with great certainty of success.

Dr. A. JOHNSON, one of the most successful practitioners of his time, invented what is now called Johnson's Anodyne Liniment. The great success of this article in the cure of Bronchitis and all diseases of throat and lungs, will make the name of JOHNSON not less favorably, if less widely, known than that of Louis Napoleon.

Particular attention is called to the fact that the

This BITTERS is not sold as a specific for every disease, but in cases of GENERAL DEBILITY and its effects, such as Dyspepsia, Loss of Appetite, Weakness of the small of the Back, Weak Memory, Indisposition for Exertion, Sense of Fullness after Eating, &c., caused by anxiety over exertion, mental or bodily, late hours, and excesses of every kind, it has no equal.

Although these BITTERS contain no Alcohol, they will most effectually wean the taste from Stimulants and enable the system to dispense with them at once.

The proprietor, although averse to the practice of puffing any medicine, feels it his duty to give publicity to the following certificates. - Hundreds could be added, but such names as Dr. How, Professor of Chemistry at King's College; Capt. Hardy, R. A.; Mr. Solomon, Lunenburg; and Dudley de Chair, Esq Halifax, will be sufficient to establish its reputation as a reliable and valuable medicine.
